New Crimson King MAPLE

One of World's Most Beautiful Trees

A4283—This is the most brilliantly colored maple of all, and one of the finest trees that has been introduced in recent years. Far more beautiful than the familiar Schwedler's, good as that tree is.

In early spring, Crimson King has leaves of bright red, and it keeps this brilliance some time into the summer, when the tops of the leaves gradually turn bronze, with the undersides green.

Crimson King was originated in France and, several years ago, brought to this country, patented, and placed in production. The supply is limited, but we will ship on a first-come first-served basis as long as we can. 6 to 8 ft. size trees, 5.95 each, express not prepaid. (Too big to send parcel post.)

REDDEST OF ALL!

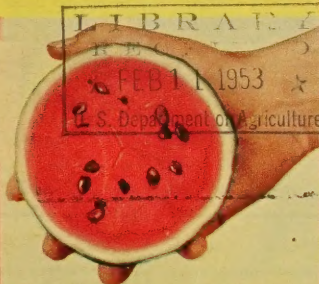

Midget the small-sized sugar-sweet WATERMELON

Easy to Store, Delicious to Eat

712—(65 days.) This "ice box" melon is a delicious melon, 6 to 7 in. in diameter—small enough to fit easily inside your home refrigerator. We first offered the Midget watermelon several years ago, and each year more and more folks send for it.

Developed by the New Hampshire College, it has really made a name for itself. It has won an All-America Award for being one of the outstanding vegetables, and is considered the very best of the "ice box" watermelons.

The rind is thin and brittle, while the

flesh is firm, crisp, deep red and very sweet. One of the most prolific melons in our trial grounds. Will set melons all season long. Be sure to try it. Pkt. 15c; oz. 35c; 1/4 lb. 85c, ppd.

3 DOUBLE "Rosebud" BEGONIAS

1 each of red, pink and white
for only \$1.98 POST-PAID

No. 2N513X

Here is the indoor house plant that will produce colorful blossoms almost 12 months out of the year. And they get bigger and better as time goes on. The plants make a large, rounded ball of foliage that is thickly set with beautiful, double blossoms that look like tiny rose buds. (These are the fibrous rooted Begonias, not the tuberous rooted type.)

They like a warm place and sunshine in the winter, but should be kept out of the direct sun. It's hard to beat the Rose Bud Begonias in the porch box, and they make fine summer bedding plants when planted outside in semi-shade. 1 each of Red, Pink and White for only 1.98, postpaid.

4 Ball Dahlias

These showy Ball Dahlias are the most perfectly formed and beautiful of them all. Every flower is a specimen in itself. No trick at all to grow them. All you need to do is just give them ordinary "potato" care.

When they bloom in your garden you will understand why most people prefer the showy Ball type. Fine for border plants and cut flowers. You get 1 each of all four:

"All Season" APPLE ASSORTMENT

All Hardy Varieties

A2023X—In this fine assortment of Apples we have picked out varieties which bear from earliest summer through to the winter keepers. With these 4 trees you will have plenty of fresh eating apples the year around and all you need for pies and sauce.

All Big 4- to 6-ft. Size.

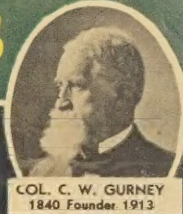

Yellow Transparent is a clear yellow summer apple, slightly tart but fine for general purposes. Gurney's Dark Red Duchess comes into fruit in late August, followed by Wealthy, the favorite fall apple. Haralson is one of the best of all winter varieties.

BARGAIN

Healthy, Green, Pot-Grown Plants Growing in Pre-Fertilized Moss

These are healthy, green, pot-grown plants that are started in pre-fertilized moss. Often called "the plant of a million blossoms" because they usually have over a thousand, good-sized double flowers at one time. You can't even tell where you clipped a handful of flower stems for the table. Plants grow to 2 1/2 ft. wide and 2 ft. tall. Each a brilliant mass of color from late August until freezing time. Exceptionally hardy and easy to raise. Give them a little winter protection, as you would any other perennial, and they last for years.

EDITOR McFARLAND

McGREY'S YELLOW

ROUGE MALLERIN

January 2, 1953

Hello Folks:

The year 1953 marks the eighty-seventh year that our company has been serving you folks in the Northwest with "Seeds and Trees that Grow and Satisfy." I am approaching my seventieth birthday, and it seems to me that I have spent most of my life devoting my time and efforts to gaining knowledge of the seed and nursery business--trying to do my part in making your home and mine, in fact, this entire great territory of ours, a better place in which to live.

I do not, by any stretch of the imagination, intend to give up carrying on this work. My father before me, who founded this company, believed that two basic principles should always come first in the operation of our business. First, always be fair when dealing with your customers. Second, always furnish the best possible stock at a Fair Price.

The first principle has always been easy to follow. The second one has sometimes been quite a task. With the rising cost of living comes a rising cost of operation--due largely to increased production, wage, and equipment costs. In spite of all this, as you look over the thousands of varieties of flower and garden seeds plus the many different nursery items offered, I think that you will agree we have done exceptionally well this year--so well that I would like you to compare our prices with any in America today. In addition to this saving, you get hardy, northern-grown stock which is adapted to your conditions. I know that you realize the importance of this.

I sincerely hope that you will find some items which you can use this spring. Most of you will want a garden, as it is the best way I know to beat the rising cost of living. Whether it be field seed, garden seed, nursery stock or baby chicks, plan to make Gurney's at Yankton your headquarters. I pledge to all of you a Fair Price, fair treatment, and as fine quality stock as money can buy.

Yours truly,

G. W. Gurney

Why not plan to visit us sometime? We'd be glad to have you see our vast nursery stock--raised right here at Gurney's--and see what good northern-grown stock really looks like. By visiting our stock, we know you get the best that money can buy. So look over and you are

Gurney's Vigorous

VEGETABLE PLANTS

These vegetable plants are outdoor-grown in the South. This makes them tough, healthy and vigorous. All have been State Inspected, so you know they are right. They are grown from the finest strains of seed. By having our grower ship direct to you, we save handling and shipping time. We guarantee safe delivery and satisfaction. Get your neighbor to go in with you and get the benefit of quantity price. Quantities indicated are approximate.

Gurney's SEED POTATO SETS

All Ready to Plant—No Cutting Necessary

Basic seed stock is from the best in North America. Raised in isolation on soil rich in nitrogen. Sets individually cut so each piece has just the right amount of potato attached to the eye to insure good germination. All sets treated to eliminate surface fungi, to protect them against soil borne diseases, and to stimulate growth. Gurney seed sets are easier to plant, produce more and better potatoes—cost less, too.

260—White Cobbler. Box of 100 sets, 1.89, postpaid.

262—Red Pontiac. Box of 100 sets, 1.89, postpaid.

SPECIAL OFFER. 2 boxes (200 sets), your choice Cobbler or Pontiac ONLY: 1 box of each or 2 boxes of same kind for only 3.59, postpaid.

263—Cherokee. Brand new. A little later than Irish Cobbler. Excellent table quality. Better than Cobbler for shape and size. Supply limited.

Box of 100 sets, 1.98, ppd.

"ALL-AMERICA" COMMITTEE

Selects

12 ALL-TIME GREAT VEGETABLES

CHAMPIONS OF ALL CHAMPIONS

For several years now, the All-America Selections Council has been making awards to the outstanding new vegetables. The awards are made on the basis of performance in all parts of America. It goes without saying—a vegetable must be good to earn an award.

This year, the council selected an All-Time All-America group of twelve. If you like the "best," here they are. Every one of them has stood up under the most rigid trials. Every one will go into your garden and "deliver the goods."

Buy them separately as listed at right. Or better still, buy the whole collection at the special collection price.

LITTLE MARVEL

The Tender, Sweet One

152—(62 days.) If we could have but one kind, it would be Little Marvel. Take our word for it. We've tried 'em all—very tender, heavy yielder, and it will be a long time until we find a better one. In yield, earliness, quality and delicious sweetness it is tops.

Triple size pkt. 15c; ½ lb. 32c; 1 lb. 55c; 3 lbs. 98c, postpaid.

... Extra Early ALASKA

Disease-Resistant

146—Earliest of All. (52 days.) Alaska is absolutely the earliest pea and the heaviest yielder. The slender light green vines grow about 2 feet tall and are literally covered with pods. The peas are of excellent quality, and as they all ripen at once, are easy to gather. If you want a lot of peas and want them early, plant Alaska.

Triple size pkt. 12c; ½ lb. 28c; 1 lb. 45c; 3 lbs. 95c, postpaid.

EARLY WRINKLED ALASKA

Tender, Tiny Peas

159—(55 days.) The new wilt-resistant pea. The easiest way to describe this one is to say it is like Early Alaska, except its peas are somewhat larger and wrinkled. It comes into bearing in 55 days; the vine grows just about 2½ to 3 feet long and are fully as hardy as Alaska. Canners are planting lots of it. They like it.

Triple size pkt. 15c; ½ lb. 30c; 1 lb. 48c; 3 lbs. 1.15, postpaid.

Gurney's FREEZER SPECIAL

Here's the answer to the question "What shall I put in the freeze box?" These vegetables are among the very best for freezing:

- ½ lb. Sweet Cross Hybrid Sweet Corn
- ½ lb. Little Marvel Peas
- ½ lb. Cherokee Wax Bean
- ½ lb. Topcrop Green Bean
- 1 pkt. Hale's Best Muskmelon
- 1 pkt. Early Kansas Watermelon
- 1 pkt. Broccoli, Green Sprouting
- 600X—All for only 1.49, postpaid!

Gurney's GARDEN PEAS

Gurney's strains of peas are all Northern-grown and carefully selected for disease resistancy, type and vigor.

Plant smooth varieties of peas as early as you can get them in the ground in the spring. Plant wrinkled varieties a week later. Peas appreciate support; even dwarfs like some brush or trellis to grow on. It keeps pods off the ground and will give you a bigger yield.

For continuous supply make several plantings, starting with Little Marvel, Big Dakota, Yankton Main Crop.

1 lb. of peas is enough for 100 ft. of row, 120 lbs. enough for an acre.

... BIG DAKOTA

The Big Yielder for the NORTH

144—(65 days.) You want the most peas you can get, don't you? Then plant Big Dakota, because by actual count we have found that they yield more pods to the vine and more peas to the pod. They are of delicious quality, and luscious tasting, and if you want the largest peas you have ever raised, plant Big Dakota.

Triple size pkt. 15c; ½ lb. 30c; 1 lb. 48c; 3 lbs. 98c, postpaid.

AMERICAN WONDER ...

Sure Grower—Big Yields

149—(60 days.) Our improved strain of American Wonder is one of the earliest Wrinkled Peas grown. The dwarf vines grow about 1 ft. tall and are covered with medium size pods.

This is one of the sweetest and tenderest peas we have ever raised. If you want quality, plant American Wonder.

Triple size pkt. 15c; ½ lb. 25c; 1 lb. 42c; 3 lbs. 1.00, ppd.

... EDIBLE PODDED PEAS

Eat Like Pod Beans

160—Dwarf Gray Sugar: (57 days.) The pea with pods so juicy and tender that you do not shell them but instead eat pods and all, like string beans.

The vines grow about 20 inches tall and are heavy bearers. Give these a trial, and we know you will never be without them again.

Triple size pkt. 12c; ½ lb. 25c; 1 lb. 40c, postpaid.

YANKTON MAIN CROP

The Drouth-Resistant Pea

157—(65 days.) Plant Yankton Main Crop and have green peas all season, and peas of the finest, sweetest quality and tenderness that you have ever tasted. It is absolutely the most drouth and heat resistant of all. The vines grow about 2 feet tall and are filled with large pods containing from 6 to 10 delicious peas.

Triple size pkt. 15c; ½ lb. 30c; 1 lb. 48c; 3 lbs. 95c, postpaid.

SPECIAL: BE SURE TO INOCULATE YOUR PEAS

A 15c packet of Nitragin is enough for 5 lbs. of peas and beans. Full directions for use are printed on the packet. It will pay for itself many times over. No. 4015, 15c, postpaid.

LAXTONIAN ... Vigorous, Sure to Bear

141—(64 days.) The top notch early pea. This is a pea that just suits us, and we eat lots of peas during the season. We like them any way they can be served.

The vines of this large, extra early, heavy bearing pea are very stocky, dwarf and vigorous. The pods are long, dark green and simply bursting with immense, sweet, tender, high quality peas. Excellent for home gardens and freezing.

Triple size pkt. 12c; ½ lb. 27c; 1 lb. 45c; 3 lbs. 96c, postpaid.

RED CORED CHANTENAY

Tender and Sweet

630—(70 days.) Small cored, with bright orange flesh, fine grained, tender, crisp and sweet. It is medium early, maturing in about 70 days. The tapering roots are about 6 inches long and 2 inches in diameter and easy to pull. May be grown as spring, summer or fall crop. We think it's about the best, most delicious of all.

Pkt. 15c; oz. 45c; ¼ lb. 1.15, postpaid.

OXHEART ...

The Blunt One

629—(75 days.) This short, broad carrot is the heaviest yielder of the table carrots, and the easiest to harvest. The roots are sometimes 5 inches in diameter and about the same length. Is an excellent table carrot as quality is fine. Highly nutritious and a good keeper.

Pkt. 10c; oz. 34c; ¼ lb. 90c, postpaid.

STOCK CARROT

631—(100 days.) Mastodon. Produces tons of feed per acre for stock. Pkt. 10c; oz. 30c; ¼ lb. 1.00, postpaid.

Gurney's CARROTS

Make your first planting just as soon as you can get in the soil in the spring and then successive plantings throughout the season so you will have plenty to put away when winter comes. Cover seed about ½ in. deep. Have rows 18 to 24 in. apart and thin out 2 to 4 in. apart in the row if you want big carrots.

... EARLY CORELESS

For Home Use or Market

634—(70 days.) Beautiful carrots about 8 in. long, 1½ in. thick, and the same size top to bottom. Flesh scarlet-orange. Very sweet, fine grained, tender, nearly coreless. Fine for bunching, for winter or freezing.

Pkt. 10c; oz. 38c; ¼ lb. 1.12, postpaid.

DANVERS

HALF LONG

For Canning or Storage

627—(75 days.) Medium in length and of rich orange color. One of the finest quality, best tasting carrots. Outyields almost any other variety.

Pkt. 10c; oz. 38c; ¼ lb. 1.10, postpaid.

DANVERETTE

A New and Better Carrot

628—(70 days.) A smaller, more refined type of Danvers Half Long. Deep orange color. Quality excellent. Dandy for freezing and canning.

Pkt. 15c; oz. 50c; ¼ lb. 1.50, postpaid.

IMPERATOR ...

Tender and Sweet

632—(75 days.) Beautiful carrot. Rich orange-red both inside and out. Long and smooth with slightly sloping shoulders, free from side roots and almost cylindrical in shape. Excellent table quality. Fine for bunching.

Pkt. 15c; oz. 50c; ¼ lb. 1.45, postpaid.

MONEY SAVING CARROT OFFER

Here's an offer of three of the best carrots on the market.
1 PKT. OXHEART—the early one.
1 PKT. DANVERS HALF LONG—most popular.
1 PKT. RED CORED CHANTENAY—new and better.
250X—All 3 for only 24c, postpaid.

**HARRIS
EARLY GIANT**
The Big and
Meaty One

647—(70 days.) One of the largest sweet peppers and one of the earliest. The large plants are literally covered with immense, thick-fleshed peppers, so large that it takes only 40 to 50 to fill a bushel basket! Is easy to raise and delicious in chili, catsup, salads, or stuffed and baked. Pkt. 10c; ½ oz. 38c; 1 oz. 65c, postpaid.

EARLY BEAUTY
The Earliest

645—(64 days.) This extra early pepper has made the best record of any pepper in our trial gardens. It is the earliest of the large sweet peppers. Short, broad, thick-walled fruit. JUST THE RIGHT SIZE AND SHAPE FOR STUFFING. They are four-lobed, about as wide as they are long. For an immense crop of early, sweet, smooth, thick-meated peppers, plant Early Beauty. Pkt. 10c; ½ oz. 42c; 1 oz. 60c, postpaid.

**KING OF
THE NORTH**
Early Large
Sweet

640—(65 days.) The newest and earliest large pepper, especially valuable in the northern states. Fruits enormous, color is brilliant red, size usually six in. long and three or four in. in diameter. Thick flesh, very firm, sweet and mild. Pkt. 15c; ½ oz. 38c; 1 oz. 65c, ppd.

PEPPERS

Peppers are what help keep the Mexican people healthy. They're full of vitamins, and every gardener ought to raise his own. Like any soil except low, wet land. Give plenty of room. Handle and plant just like tomatoes.

**EARLY
PIMIENTO**
Sweetest of All

644—(65 days.) The tomato-shaped pepper. Fruits round, flat-shaped. Deep red. So mild and sweet you can eat like apples. Fruits grow upright on strong 2½ ft. plants.

About 3 in. in diameter, thick-fleshed and beautiful. Your garden should include some of these sweetest of sweet peppers. Pkt. 15c; ½ oz. 35c; 1 oz. 65c, postpaid.

**LONG RED
CAYENNE**

648—(72 days.) The true Cayenne. Long, red and hot. Fruits are a full inch or more in diameter at the shoulder and 4½ to 6 in. long. For canning, drying or pickling. Grows anywhere. A sure yielder. Pkt. 10c; ½ oz. 25c; 1 oz. 40c, postpaid.

Midget Vegetables

Here is an assortment of special varieties for a complete garden in the smallest backyard. These are all honest-to-goodness practical vegetables; even in a large garden. Every one of them is tops in quality. Lots of fun to grow, too.

Midget Watermelon

711—Finest of the icebox style melons. From 7 to 8 inches long, just the right size for individual servings. Brilliant red, crisp, very sweet flesh. Flavor, the best in the world. Very thin rind.

Packet 15c, postpaid.

Midget Sweet Corn

170—The tenderest, most flavorful and the sweetest sweet corn of all. Ears about 4 inches long, golden yellow in color, stalks about 2½ feet tall. Very early. Packet 25c; 2 for 40c, postpaid.

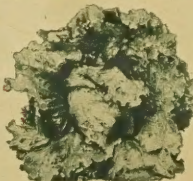

Tiny Green Beans

140—Another midget from the New Hampshire Experiment Station. Seeds are small in size and white in color. Tiny pods are about a third of a normal green pod bean. The flavor is unbelievably good. Packet 35c, postpaid.

Tom Thumb Lettuce

504—A miniature head lettuce just right for individual salads. About the size of a tennis ball. Heads are solid, crisp and tender. Quality extra fine. Can be grown indoors in window boxes, as well as outdoors. Packet 15c; 2 for 25c, postpaid.

Baby Cucumbers

360—Just right for pickles. Cucumbers are about 4 inches long, crisp and of good quality. Vines inclined to be bushy. Early and very productive, too. For uniform pickles you will like this one. Packet 15c; 2 for 25c, postpaid.

Tiny Tim Tomato

425—Most gardeners like this as a novelty but it is practical, too. Plants grow about 15 inches tall, and are covered with three-quarter inch tomatoes. You can grow them in a porch box, if you like. Tomatoes are brilliant scarlet and good flavored. Packet 25c; 2 for 35c, postpaid.

**Special Midget
Vegetable Offer**

650X—1 packet each of the above 6 vegetables for only 98c, postpaid.

GREEN BUSH BEANS

Green Bush Beans are so easy to grow and are so tasty that every family with any ground at all should plant some. Beans are tender, brittle, juicy, entirely stringless and of fine flavor. Plants are of spreading bush form and are enormously productive. Sow seed about every two weeks for constant crop.

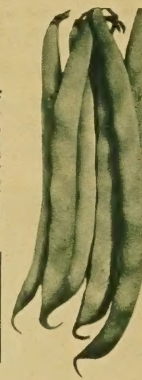

New "All-America" TOPCROP

Outstanding for Yield and Flavor

113—(51 days.) A new heavy yielding green pod bean developed by the U. S. Dept. of Agriculture. Won gold medal at 1950 All-America trials. Pods are straight, smooth, light green in color and 5 to 6 in. long. In addition, are completely stringless, fiberless and very meaty. Flavor can't be beat. Pkt. 15c; ½ lb. 45c; 1 lb. 65c; 3 lbs. 1.50, postpaid.

"All-America" BEAN OFFER

125X—½ lb. each of Topcrop and Cherokee Wax, both for only **60c** Postpaid

STRINGLESS GREEN POD

107—(50 days.) This extra early dwarf green pod bean is a very heavy bearer. The medium-size, meaty, green pods are absolutely stringless, of high quality, and excellent flavor. Besides their other good qualities they will stand more drouth than any other variety. The seed is dark brown and of excellent flavor. Triple size pkt. 15c; ½ lb. 35c; 1 lb. 53c; 3 lbs. 1.25, postpaid.

TENDERGREEN

The Dark Green Canner

106—(55 days.) A new green podded bush bean. Enormously prolific, entirely stringless, bears a profusion of beans more tender than any other variety. Pods are long and round, dark green in color, absolutely free from fiber, and of finest eating qualities. Plants are of strong upright dwarf growth. Tendergreen is a bean of merit, combining productiveness and hardness with the highest quality. Splendid for canning. Triple size pkt. 15c; ½ lb. 36c; 1 lb. 50c; 3 lbs. 1.25, postpaid.

Gurney's BEANS

A pound will plant 2 rows, 50 feet long. Cover beans about 2 inches. Space rows 20 to 30 inches apart in rich warm soil. Make first planting when severe frost danger is past. And remember to buy a few extra pounds of beans to use later in the season as a "fill-in" crop. Whenever an early crop like radishes or lettuce is done with the ground, put in another row of beans.

All beans, peas and sweet peas should be inoculated with NITRAGIN for bigger yields. Just dust it on seed. Never fails to increase yields. 4015—NITRAGIN, 15c per pkt., ppd.

BOUNTIFUL

Famous Canning Bean

109—(50 days.) A very heavy yielder of excellent quality. Very popular for home, market and freezing. Stands shipping well. Pods are big, green and showy. Rich flavor makes it a favorite for canning. Fine for market, too. Reliable everywhere. We've never had or heard of a failure. Triple size pkt. 12c; ½ lb. 28c; 1 lb. 48c; 3 lbs. 1.15, postpaid.

WADE BUSH BEAN

Gold Medal Winner

117—(54 days.) A new bean. One of the very few ever to win an All-America Gold Medal! Pods deep green, 5½ to 6 in. long. Grows upright. Resistant to mosaic and powdery mildew. Tops in quality and flavor. Is ideal for canning and freezing. Triple size pkt. 25c; ½ lb. 50c; 1 lb. 75c; 3 lbs. 1.75, ppd.

TOMATOES

(See Page 2 for Tomato Plants)

COMBINATION TOMATO OFFER

450X—1 Pkt. each of these 3 outstanding tomatoes All **3** for
ALL STATE EARLY GIANT **39c**
SUPER SIOUX ppd.

ALL STATE

Produces When Others Fail

407—From northern North Dakota, Montana, Minnesota and Wisconsin, with their short growing season, down through South Dakota, Iowa, and Nebraska, you will find this wonderful new tomato is probably much better than the variety you have been raising. The smooth red tomatoes are as early as Bison or Earlibell, and nearly twice as large. Shows remarkable resistancy to certain blights. Pkt. 15c; ½ oz. 50c, postpaid.

PRITCHARD Wilt-Resistant

423—(112 days.) All-America winner. Fruit is heavy, solid, smooth, globe-shaped. Deep scarlet color and very mild. No finer main crop tomato. Pkt. 15c; ½ oz. 25c; 1 lb. 39c; ¼ lb. 98c, ppd.

Two New HYBRID TOMATOES

Genuine first generation Hybrids. Very outstanding because of hybrid vigor and quality. Will do much better than old common types.

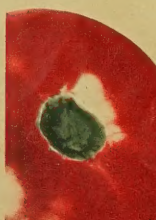

426—GURNEY'S EARLEE-RED HYBRID—(58 days.) Heat and drouth-resistant. Earliest and most prolific. Globe-shaped fruit, smooth, bright red, medium-size. Delicious flavor. Pkt. (30 seeds) 25c; extra big pkt. (150 seeds) 1.00, postpaid.

428—GURNEY'S YANKTON-RED HYBRID.—(75 days.) The Main Crop Hybrid. Very prolific. Globular, large fruit. Rich red color, firm flesh. Extremely uniform. Of excellent quality. Pkt. (30 seeds) 25c; extra big pkt. (150 seeds) 1.00, ppd.

FIRESTEEL

Drouth-Resistant

427—(62 days.) One of the finest of new tomato introductions, originating in the Dakotas. Is a large-fruited sort, globe-shaped, deep crimson in color. Unaffected by heat and drouth, yields tremendously. Fine for slicing or for canning. Solid enough for shipping. Pkt. 12c; ¼ oz. 25c; ½ oz. 45c, ppd.

WAX BUSH BEANS

The only difference between Wax Bush Beans and Green Bush Beans, aside from color, is that the Wax type has a more delicate, milder flavor and the pods are a little more tender than the Green type. The Wax beans yield just as heavy, are stringless and require same culture and care as the Green. If you have never grown the Wax before, try some by all means.

... IMPROVED GOLDEN WAX

Heavy Yields—Good Canner

116—(52 days.) This extra early wax bean is one of the best for the home garden.

Long, straight, waxy yellow pods absolutely stringless. Heavy bearers of delicious quality beans. Excellent for canning or pickles. Seed is white, mottled with red and purple. Triple size pkt. 15c; 1/2 lb. 35c; 1 lb. 60c; 3 lbs. 1.15, postpaid.

PENCIL POD BLACK WAX

The Heavy Yields

105—(55 days.) A wonderfully flavored, rich dark yellow, stringless snap bean. It is a very vigorous and hardy plant, being one of the few to survive heat and lack of moisture of extremely hot summers. The seed is black when ripe. Extremely good for home, market, canning and freezing. Triple size pkt. 15c; 1/2 lb. 35c; 1 lb. 55c; 3 lbs. 1.25, postpaid.

NEW CHEROKEE WAX

The Earliest of All

118—(50 days.) Developed by the United States Department of Agriculture. This is the earliest of all beans and one of the very best. It is straight and stringless, with bright yellow pods 6 inches long. Does well almost anywhere. Heavy bearer. Black seeded. Flesh is thick, crispy, tender, stringless and of good flavor. Triple size pkt. 15c; 1/2 lb. 40c; 1 lb. 65c; 3 lbs. 1.45, postpaid.

Earliest BRITTLE WAX

110—Five reasons why you should plant this bean:

1. Quality: Absolutely stringless, very tender, and most delicious.
2. Yield: Vines are large, vigorous, completely covered with pods for long season.
3. Appearance: Long, straight pods, beautiful yellow.
4. Early: Ready in 50 days.
5. Hardiness: Nearly blight-proof, very drought-resistant.

Triple size pkt. 12c; 1/2 lb. 32c; 1 lb. 55c; 3 lbs. 1.15, ppd.

LIMA BEANS

There are two kinds of Limas—Bush and Pole—and we list both. The Hopi Indian Lima, below, is of the Pole type, and Fordhook and the Green Seeded Baby Lima of the Bush type. Both kinds make excellent eating. Flavor and yield are about the same. The Pole type, however, must be given support for vines to climb on.

HOPi INDIAN LIMA

Drought-Resistant

135—(71 days.) Originated with the Hopi Indians in the Southwest. A very vigorous grower. Has a typical Lima flavor. A heavy yielder that bears over a long period of time. Plant it on a trellis or fence or with corn. Triple size pkt. 15c; 1/2 lb. 29c; 1 lb. 50c; 3 lbs. 1.10, postpaid.

GREEN SEEDED BABY LIMA

129—(67 days.) An improvement over old-fashioned Baby Limas. Beans are bright green during shelling stage. Fine for canning, good for dry beans, too. An excellent grower, stands hot dry weather. Tremendous yielder. Triple size pkt. (3 oz.) 15c; 1/2 lb. 35c; 1 lb. 60c; 3 lbs. 1.37, postpaid.

FORDHOOK BUSH LIMA

The Early Big Bush Lima

126—(75 days.) The very best large seeded variety. The pods, which are produced in large clusters, are about 5 inches long, each containing four to five large beans of exceptionally fine quality. Beans are large, thick and of delicious flavor. Grows very upright, holding beans out of the dirt. Triple size pkt. 15c; 1/2 lb. 35c; 1 lb. 50c; 3 lbs. 1.25, postpaid.

NAVY BEANS

102—Best yielder of any of the dry or soup beans. Erect bushes keep pods off damp ground. Long uniform pods. Quality and flavor extremely good. Easy to grow and sure to yield. Triple size pkt. 10c; 1/2 lb. 21c; 1 lb. 35c; 3 lbs. 80c, ppd.

RED KIDNEY

128—This is the RED soup bean, similar to the Navy except for color. Easy to grow and a very heavy yielder of large, dark red, dry beans, of good flavor and high quality. Triple size pkt. 15c; 1/2 lb. 28c; 1 lb. 45c; 3 lbs. 1.00, postpaid.

EDIBLE SOY BEANS

133—(90 days.) Here they are—the great big green kind. Beans are bright green in color. Prepare them for the table just as you would lima beans, or dry beans. Let pods stand in boiling water for 5 minutes to shell. Pkt. 12c; 1/2 lb. 25c; 1 lb. 40c; 3 lbs. 98c, postpaid.

POLE BEANS GREEN KENTUCKY WONDER

134—(Old Homestead) (65 days.) This climbing variety is very vigorous and productive and bears its pods in large clusters. Pods are green, very long, often nine or ten inches, nearly round, stringless and very crisp when young.

So fleshy they are greater in width than breadth. Triple size pkt. 15c; 1/2 lb. 35c; 1 lb. 50c; 3 lbs. 1.25, postpaid.

PURPLE POD

122—Grows like Kentucky Wonder, but larger and better flavored. Meat is thick and stringless. Pods are a beautiful, reddish-purple but turn light green when cooked. It's a great favorite in southern Missouri. Triple size pkt. 25c; 1/2 lb. 50c, ppd.

YELLOW PEAR

For Preserves and Sauce

419—If you want delicious preserves, plant this bright yellow, pear-shaped tomato. Yeager's Yellow Pear is fully 2 weeks earlier than the common Yellow Pear and yields immense crops. The whole family will love it. A novelty but well worth planting. Pkt. 15c; 1/2 oz. 28c; 1 oz. 40c, postpaid.

BOUNTY

Early Heavy Yields

417—One of the finest tomatoes grown. Smooth and firm and has a pleasing flavor. Outyielded six other commonly planted varieties from 10% to 90% in experiment station trials.

Bounty is early ripening, self-pruning, uniform in color and tops in quality. A North Dakota Station introduction. Pkt. 15c; 1/4 oz. 25c; 1/2 oz. 40c, postpaid.

GOLDEN SUNRAY

Best of the Yellows

403—(72 days.) A new, highly productive, golden orange tomato. Resistant to fusarium wilt. Has a mild but rich flavor. Primarily a home garden tomato but sells well at local markets and roadside stands. Makes delicious juice. Pkt. 15c; 1/2 oz. 75c, ppd.

YELLOW HUSK or Ground Cherry

For Preserves

413—This early dwarf type is the only one suitable for the North and is an easy-to-grow variety. The fruit is about the size of a cherry, bright yellow in color, and is enclosed in a husk. Makes wonderful preserves and pies. Pkt. 10c; 1/4 oz. 25c, postpaid.

PONDEROSA

Biggest of All

418—The largest tomato grown. Often produces fruit weighing 2 pounds or more. The immense tomatoes are flat, nearly solid, and of a delightfully mild flavor. It is one of the best for slicing or canning. Ponderosa is a heavy yielder and ripens after the early varieties. Pkt. 15c; 1/2 oz. 50c; 1 oz. 90c, postpaid.

"SIOUXANN"

Amazing New Hybrid

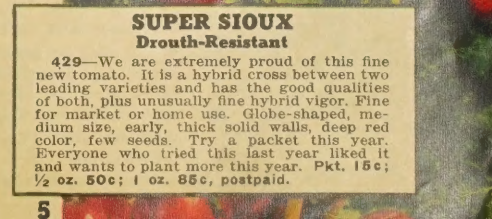

420—A new and better tomato developed by the South Dakota Agriculture College. A first generation cross of Super Sioux and Earliana. Especially adapted to plains state conditions. Solid, meaty and of medium size—ideal for canning and home use. Extremely early. Pkt. (30 seeds) 25c; extra-large packet (150 seeds) 1.00, postpaid.

SUPER SIOUX

Drought-Resistant

429—We are extremely proud of this fine new tomato. It is a hybrid cross between two leading varieties and has the good qualities of both, plus unusually fine hybrid vigor. Fine for market or home use. Globe-shaped, medium size, early, thick solid walls, deep red color, few seeds. Try a packet this year. Everyone who tried this last year liked it and wants to plant more this year. Pkt. 15c; 1/2 oz. 50c; 1 oz. 85c, postpaid.

EARLIBELL TOMATO • One of the Earliest

402—An immense yielder of beautiful crimson tomatoes of extra fine flavor and good quality. The fruits are smooth, solid and do not split easily. The vines are thrifty with enough foliage to shade the fruit so it will not sunburn. This is an especially good tomato for home or market gardener. Pkt. 15c; 1/2 oz. 35c; 1 oz. 60c, postpaid.

EARLY GIANT • Has Everything

416—If you've been looking for the perfect tomato stop here. We think this will take your garden by storm. It's fairly large, with medium foliage—enough to protect the fruit—but its real merits are EXTRA-HEAVY YIELD and perfect quality. Fruits are large, smooth, almost perfect globe-shaped; have solid scarlet flesh that DOESN'T CRACK. Pkt. 15c; 1/2 oz. 50c, ppd.

LETTUCE

... GREAT LAKES

All America Winner

500—(75 days.) This high quality head lettuce has practically revolutionized the lettuce-growing industry. Heads every time! Stands heat and is resistant to sunburn. An outstanding, white-seeded head lettuce that is excellent for home gardeners. A terrific yield.

Pkt. 15c; oz. 55c; ¼ lb. 1.65, ppd.

... CRISP AS ICE

The Earliest Head Lettuce

501—(85 days.) One of the finest and earliest varieties of head lettuce grown. Give plenty of room and it will grow very large. Leaves are silvery green, good for spring or early summer. Flavor excellent.

Pkt. 10c; oz. 29c; ¼ lb. 85c, postpaid.

New York Wonderful

The Standard Head Lettuce

507—(85 days.) Thousands of acres of this wonderful head lettuce are grown in California, Idaho and New Mexico and shipped to the eastern markets. When you buy an extra-good head of lettuce, it probably is New York Wonderful.

Pkt. 15c; oz. 40c; ¼ lb. 90c, postpaid.

... Black Seeded Simpson

Most Vigorous Grower

509—(45 days.) A favorite forcing variety. It does not head, but forms a compact mass of leaves, lighter colored than any other leaf lettuce. Stands the summer heat well, and is very large, making immense plants over a foot across.

Pkt. 10c; oz. 29c; ¼ lb. 75c, postpaid.

... STONEHEAD

Thick and Heavy Head Lettuce

502—(84 days.) All of us like head lettuce, and our idea of a good head lettuce is the one that has a solid head, is compact, and will stand hot, dry weather. Gurney's Stonehead Lettuce is just that, and more.

Pkt. 10c; oz. 30c; ¼ lb. 90c, postpaid.

"SALAD BOWL"

New SALAD BOWL

One Head Just Fills Salad Bowl

503—An All-America Medal Winner originated by the Bureau of Plant Industry. Well-named, because one head fills a salad bowl with a perfect rosette of rich green and very decorative leaves. It is a loose leaf variety, grows fast and grows large. Leaves are short, closely set, wavy and notched. Holds its tenderness and fine texture over a long period.

Pkt. 20c; oz. 60c, ppd.

GRAND RAPIDS —Best Leaf Lettuce

510—(45 days.) Beyond question the best leaf lettuce. Its crisp, crinkly leaves are delicious and of excellent quality. Light green in color. Grows very erect, does not wilt and is disease-resistant. The easiest lettuce to grow, and the best flavored. The kind to sow in the early hot bed. Also widely used for winter forcing in greenhouses and is the home garden favorite of all. Take our word for it, Grand Rapids is the very best leaf lettuce on the market.

Pkt. 10c; oz. 29c; ¼ lb. 75c, postpaid.

PRIZEHEAD —Home Garden Favorite

511—(45 days.) Produces large, tender, loose heads of bright green, heavily curled leaves which are shaded with brownish-red. Excellent flavor and quality. Ready to eat in about 45 days. Stays tender a long time and lasts well into hot weather. Very popular for home gardens as it is easy to grow.

Pkt. 15c; oz. 35c; ¼ lb. 75c, postpaid.

CHICKEN LETTUCE —Poultry Greens

508—Your poultry needs "green" food and this variety of lettuce is just the thing you should grow for this purpose. It is a genuine lettuce which will yield as much or more chicken and rabbit feed than any plant you may have used for greens.

Pkt. 10c; oz. 25c; ¼ lb. 65c, postpaid.

SPINACH

210—AMERICA. (50 days.) All-America award winner of delicious flavor. Leaves glossy, dark green, thick and heavy crumpled. 8 in. tall. Stands a long time without seeding. Pkt. 15c; oz. 30c; ¼ lb. 75c, ppd.

207—KING OF DENMARK. (46 days.) Very slow to go to seed and holds its fine quality after all other

... KOHL-RABI

The Aristocratic Cabbage

216—EARLY WHITE VIENNA. (55 days.) A member of the cabbage family with an edible turnip-like bulb which grows above the ground. Easy to raise. The sweet, fine grained, white flesh combines the flavor of both cabbage and turnip. A very good vegetable for home and market garden.

Kohl-Rabi should be used when about 2 inches through. Serve cooked like turnips, or eat raw. Be sure to plant at least one row of this fine vegetable.

Pkt. 15c; ½ oz. 25c; oz. 48c, postpaid.

... KALE or BORECOLE

232—DWARF GREEN CURLED. (55 days.) Can be used for boiling greens, creamed or chopped raw like lettuce for sandwiches and salads. The finely curled leaves are tender and delicious. Rich in vitamins. Easy to raise and yields immense crops.

Pkt. 10c; oz. 25c, postpaid.

SWISS CHARD

220—(60 days.) Swiss Chard will make more and better greens than any other vegetable. It is grown for its leaves and stems. An immense yielder and can be used from early spring until late fall. Stands both hot and cold weather well. More people should raise this because of its high content of nutrients and vitamins.

Pkt. 10c; oz. 22c; ¼ lb. 66c, postpaid.

Gurney's CABBAGE

SEE PAGE 2 FOR CABBAGE PLANTS

There's not another vegetable where seed quality counts as much as with cabbage. Our strains are all sure to make solid heads as these seed strains are carefully selected.

Start seeds 6 to 10 weeks ahead of outdoor planting time in the house, hotbed or cold frame. Space plants 18 in. apart in rows 2 to 3 ft. apart. If worms should happen to bother, use Gurney's Bug Dust.

COMBINATION CABBAGE OFFER

1 Pkt. Golden Acre
1 Pkt. Danish Ball-head
1 Pkt. Premium Late Flat Dutch.
225¢—All 3 for only 25c, postpaid.

BEST EARLY VARIETIES

EARLIEST OF ALL

515—(71 days.) In our trial gardens this new extra-early cabbage has produced the largest percentage of good heads. Heads are nearly round, medium-size, and extra-solid. Home or market gardeners like it.

Pkt. 12c; ½ oz. 36c; 1 oz. 65c, ppd.

GOLDEN ACRE

524—(64 days.) Early, round-headed cabbage which closely resembles Copenhagen Market in type. Is 8 to 10 days earlier than Copenhagen Market, but smaller and can be planted closer. Because of earliness and fine quality it commands a high price.

Pkt. 12c; ½ oz. 35c; 1 oz. 59c, ppd.

CHIEFTAIN SAVOY

518—(88 days.) An All-America winner you should know more about. No strong cabbage taste. Flavor mild. Everybody can eat this one. This new All-America award winner deserves a place in your garden. It will do the job for you if you give it a chance.

Pkt. 20c; ½ oz. 36c; ¼ lb. 1.75, postpaid.

... COPENHAGEN MARKET

519—(72 days.) This large, solid, extra-early, round-headed cabbage has taken the place of most other early varieties until now. Over half the early cabbage is COPENHAGEN MARKET. Widely used by the large commercial cabbage growers in Wisconsin, Minnesota and Iowa. Fine quality, delicious flavor.

Pkt. 10c; ½ oz. 30c; 1 oz. 55c, postpaid.

... EARLY BALLHEAD

521—(72 days.) This early summer cabbage is a money-maker for the market gardener. Heads are round, very solid, and compact. Can be planted closer than most other varieties and will yield more tons per acre. Early Ballhead has long been a favorite throughout the entire country because it is a consistent producer, year in and year out.

Pkt. 10c; ½ oz. 27c; 1 oz. 50c, postpaid.

BEST LATE VARIETIES

DANISH BALLHEAD

531—(105 days.) Short Stemmed. The best late cabbage—desirable for kraut, storage, or shipping. Plants large and sturdy. Solid round heads weigh from 7 to 10 pounds each. Flavor very good and leaves crisp and tender. Ideal for kraut. Pkt. 10c; ½ oz. 33c; 1 oz. 55c, ppd.

PREMIUM LATE FLAT DUTCH

535—(105 days.) For kraut or storage this is the largest cabbage grown. The immense solid heads often weigh more than 20 pounds, and are white, crisp and tender. Good winter keeper. Pkt. 10c; ½ oz. 30c; 1 oz. 55c, postpaid.

MAMMOTH RED ROCK

533—(100 days.) This is the best and largest of the red cabbage. The heads are round and extra-solid. This beautiful deep red cabbage makes delicious slaw and pickles. You want to be sure to try it. Pkt. 15c; oz. 35c; 1 oz. 59c, postpaid.

DISEASE-RESISTANT CABBAGE

JERSEY QUEEN

Early Disease Resistant
525—(63 days.) Copenhagen strain with all the good points, plus resistance to disease. Almost round heads that weigh 5½ to 7 lbs. each. Quality very good. A favorite early type for home and market gardeners as it is so dependable. Pkt. 15c; ½ oz. 35c; oz. 63c; ¼ lb. 1.70, ppd.

MARION MARKET

Dependable Early
523—(75 days.) A Copenhagen strain with all the good points, plus resistance to disease. Almost round heads that weigh 5½ to 7 lbs. each. Quality very good. A favorite early type for home and market gardeners as it is so dependable. Pkt. 15c; ½ oz. 36c; 1 oz. 59c; ¼ lb. 1.77, ppd.

ALL SEASONS

520—(85 days.) This fine, large, Yellow-Resistant cabbage can be used early or stored for your winter supply. The solid heads weigh from 8 to 10 pounds, and make extra-fine kraut. ALL SEASONS is a heavy yielder. Pkt. 10c; ½ oz. 35c; 1 oz. 65c, ppd.

CHINESE CABBAGE

A Vegetable for Salads and Greens

539—(70 days.) This new Oriental Cabbage is excellent for salad purposes. In flavor it resembles both celery and Cos Lettuce, but is sweeter and more tender. Also delicious for greens. It's a vegetable you should all grow.

Pkt. 10c; ½ oz. 35c; oz. 60c, postpaid.

Gurney's BEETS

Beets are easily grown on any soil. Plant 1 in. deep in early spring. Thin plants to 3 in. in the row. Beets for winter use should be planted about June 1st. 1 oz. seed for 50 feet, 6 lbs. per acre. Gurney beet seed comes from the leading production centers of the country.

Enjoy Health—Eat More Beets

MANGELS

15 to 20 Tons of Green Feed to the Acre

How to plant: Handle like ordinary beets except give more room. Space rows 2½-3 ft. apart and thin seedlings to 8 or 10 in. in the row. Sow in May. Takes 10 lbs. of seed for an acre. 15 to 20 tons an acre are common yields. Harvest before freezing.

MAMMOTH LONG RED

619—(110 days.) Very long and easily harvested as half the mangel grows above ground. They yield enormously—often 40 tons per acre. Individual roots sometimes weigh 20 pounds and are over 2½ ft. long.

1 oz. 25c; ¼ lb. 75c; ½ lb. 1.25, postpaid.

GIANT HALF SUGAR ROSE

616—(90 days.) This is a half sugar beet and is sweeter and more nutritious than mangels. The oval, red roots weigh about 6 pounds each, are easily harvested, and are wonderful poultry feed.

1 oz. 25c; ¼ lb. 75c; ½ lb. 1.25, postpaid.

WHITE KLEIN WANZLEBEN

620—(90 days.) Sugar Beet. This has the highest sugar content of any sugar beet. The long roots are pure white, and under good conditions will yield over 15 tons per acre.

1 oz. 20c; ¼ lb. 65c; ½ lb. 1.25, postpaid.

DETROIT DARK RED

"World's Champion" Beet

604—(60 days.) This dark red beet is a winner for every purpose. It is early and the small tops and globe-shaped roots make it ideal for bunching. The flesh is very dark red with faint rings. Very sweet and tender. One of the best winter keepers. More Detroit DARK RED are grown than all other varieties combined and that is simply because year after year it does better in gardens anywhere than most any other variety. If you can plant but one beet, be sure it is Detroit DARK RED.

Pkt. 10c; oz. 35c; ¼ lb. 92c, ppd.

"One of Each"
BEET OFFER
200X—1 Pkt. each of the
4 Beets below
35c, Postpaid

PERFECTED CANNER—For Canning, Cooking and Pickles

605—(59 days.) A new beet that beats them all. If you are looking for perfection stop right here. This beet not only has the richest deep, dark red color, but doesn't lose it in cooking or pickling. It absolutely won't fade. Is small, uniform and smooth and has practically no tap roots. Besides all this, it

is exceptionally sweet, tender and fine grained. Quality is unsurpassed. You can't find a better all-around beet for canning. Also good for market, shipping and freezing, for cooking or for pickling.

Pkt. 10c; 1 oz. 35c; ¼ lb. 1.10, ppd.

PERFECTED DETROIT

All-America Winner

602—(58 days.) A reselected strain of Detroit DARK RED. In our trial grounds it made the best showing of any for color, shape, uniformity. Medium in size and perfectly round. Rich, deep dark red with absolutely no white rings nor streaks. No side roots. Flesh is sweet, tender and of good quality. Excellent for home garden, market, canning and freezing.

Pkt. 12c; oz. 34c; ¼ lb. 1.00, postpaid.

DAKOTA WONDER

The Early—Deep Red One

607—(52 days.) A beautiful, smooth, globe-shaped beet with small neck and tap root. The flesh is an intense dark red and very tasty, being of good quality and sweet flavor. Very uniform in size and shape. Very early. A favorite with market gardeners, but many home gardeners prefer it too, particularly for fall planting. Good for bunching and winter use.

Pkt. 10c; oz. 30c; ¼ lb. 90c, postpaid.

Gurney's RADISHES

Early Scarlet Globe

451—(24 days.) In offering this Scarlet Globe Radish we know we are offering one of the very best radishes on the market. It is earlier than any other market variety. The quality is so crisp and sweet that it always creates a demand for more.

Pkt. 12c; oz. 25c; ¼ lb. 65c; ½ lb. 1.35, postpaid.

EARLIEST FIREBALL

The Earliest of All

440—(25 days.) Here's a radish with improved taste, crispness, and unusual sweetness. We think it is one of the very best. Has a bright scarlet color, and is very early. Pure white flesh. Chances are it is one of the finest varieties you have ever seen or eaten. We are proud of it.

Pkt. 15c; oz. 30c; ¼ lb. 55c; ½ lb. 1.25, postpaid.

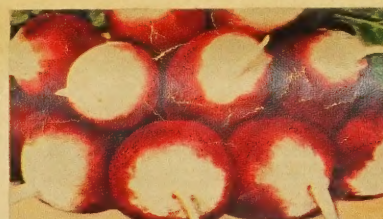

FRENCH BREAKFAST

Tender and Sweet

442—(23 days.) You will like this fresh, crisp, oblong radish with its small tops. It is a brilliant scarlet colored radish with a white bottom. The flesh is crisp, juicy, mild, sweet, and of splendid quality. Is a quick grower; especially popular for home gardeners and market. If you have never tried French Breakfast, do so this year. It can't be beat.

Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 1.00, postpaid.

Scarlet—White Tipped The 2-Color Radish

444—(25 days.) This radish is one of our favorites. Try it and see if it won't be yours, too. It is a deep scarlet color with a distinct white tip. It is almost completely round and does not get hollow or pithy. A wonderful radish with sweet, crisp flesh, that stays fresh and crisp a long time after it matures. Be sure to plant some of this.

Pkt. 10c; oz. 20c; ¼ lb. 40c; ½ lb. 1.00, postpaid.

CRIMSON GIANT

Gets Big But Not Pithy

437—(29 days.) Crimson Giant is remarkable because it grows almost twice the size of an ordinary radish, and yet does not become hollow. Flesh is always mild, firm, crisp and sweet. Remains edible for a long time and does not get pithy. This brilliant crimson radish is one of the best for the home garden. Be sure you thin to about 2 in. in rows, so as to leave plenty of space for it to develop in.

Pkt. 10c; oz. 24c; ¼ lb. 40c; ½ lb. 1.10, postpaid.

WHITE ICICLE

Favorite in Every Garden

448—(28 days.) Besides being an excellent radish to eat right out of your own garden, White Icicle will make a good cash crop for you. It is an exceptional radish. Is even in size, being long and thin. Flesh is perfectly white clear to the top and is crisp, juicy, perfectly mild and of a delicious sweet flavor. Stays mild and crisp long after maturity. Ready to use in 28 days. Plant about every 10 days for constant radishes.

Pkt. 10c; oz. 20c; ¼ lb. 45c; ½ lb. 1.25, postpaid.

MAMMOTH WHITE

456—(60 days.) A fine late fall variety. A favorite among gardeners for fall and summer markets. Solid white flesh of a mild, sweet flavor. Grows extremely large. Good keeper as it stays edible for a long time.

Pkt. 10c; oz. 24c; ¼ lb. 45c; ½ lb. 1.10, ppd.

CHINESE ROSE

454—(55 days.) This is a medium long, blunt-rooted radish with pink skin and pure white, mild flesh. Excellent for bunching or storage. Is a fine winter keeper. If you have never grown Winter Radishes try this one.

Pkt. 10c; oz. 24c; ¼ lb. 45c; ½ lb. 1.10, ppd.

SPECIAL RADISH MIXTURE

For Radishes All Season

453—Includes all these varieties and many others. All colors, sizes, and shapes. The perfect way to have radishes coming along all season.

Pkt. 10c; oz. 15c; ¼ lb. 35c, ppd.

Gurney's HYBRID POPCORN

Plant only HYBRID Popcorn. It out-yields the open pollinated kinds. It has long, strong roots and resists drouth and heat better. Vigorous growing habit and resistant to diseases. Farmer style and can be picked with a mechanical picker. Best of all—Hybrid Popcorn pops with a bigger volume, is more tender and tastes better.

SCHOOL BOY COLLECTION
Peanuts & Popcorn
Early Northern Peanuts
Hybrid White Rice Popcorn
130X—1 pkt. each. 19c, ppd.
135X—½ lb. each... 65c, ppd.

HYBRID JAP HULLESS

193—(95 days.) One of the very best whites. Originated by the Minnesota Experiment Station. Gives greater yields and much more popping volume. Cannot be beat for rich sweet flavor and tenderness. Seed very scarce. Triple size pkt. 12c; ½ lb. 33c; 1 lb. 60c; 3 lbs. 1.65; 10 lbs. 5.40, ppd. 50 lbs. 26.00; 100 lbs. 50.00, F.O.B. Yankton.

WHITE RICE HYBRID U-300

196—(105 days.) A new white rice hybrid. Yields big, pops with tremendous volume. The most tender and best tasting of all. Triple size pkt. 20c; ½ lb. 45c; 1 lb. 75c; 3 lbs. 2.10; 10 lbs. 6.50, ppd. 50 lbs. 26.00; 100 lbs. 50.00, F.O.B. Yankton.

HYBRID SOUTH AMERICAN U-400

198—(107 days.) New Hybrid South American U-400 out-yields open pollinated strains. Fine quality and flavor. Added vigor gives this corn the most uniform ear. Has made yields of 60 bushels or better per acre. Has a tremendous popping volume. Seed stocks are limited. Triple size pkt. 15c; ½ lb. 35c; 1 lb. 60c; 3 lbs. 1.60; 10 lbs. 4.95, ppd. 50 lbs. 20.00; 100 lbs. 38.00, F.O.B. Yankton.

COMBINATION POPCORN OFFER

Hybrid White Rice—U-300
Hybrid So. American—U-400
140X—1 pkt. each... 29c, ppd.
145X—½ lb. each... 69c, ppd.
150X—1 lb. each... 1.15, ppd.

Gurney POPPING CORN—Kinds That Really Pop

A pound of popcorn actually has more food value than a pound of field corn. Nothing like a bowl of hot corn, lots of butter and a good book.

190—Hybrid South American. Big yellow kind. 5 lbs. for 1.00, ppd. to Zone 4. Beyond, add 20c postage.

191—Hybrid White Hulless. Small, white rice type. 4 lbs. for 1.00, ppd. to Zone 4. Beyond, add 20c postage.

"All Season" SWEET CORN COLLECTION

Now you can have more sweet corn, over a longer period than ever before. We've picked out 3 varieties that we believe top all others. An early, medium and a late variety. The right combination at the right price.

½ lb. Early Giant Bantam Hybrid, the early one.
½ lb. Sweet Cross, the medium-early variety.
½ lb. Golden Stowells Hybrid, the late one.

No. 155X

All 3 for only 99c ppd.

Gurney's SWEET CORN

The Best Way to Cook Sweet Corn

Select only sound, well-matured ears, but not tough ones. The sooner you use corn after picking, the better because sugar content and flavor start to change as soon as the ear is picked. Drop ears into a kettle of boiling water to which a little salt has been added. Cook 3 minutes, no longer. Take out and serve at once with plenty of butter and salt.

How to Freeze Sweet Corn

Use only best ears. Husk and silk. Cook in boiling water for 2 minutes. Husk and put in cold water. Cool as quickly as possible. Cut kernels from cob with sharp knife; don't cut too deep—cob isn't very good eating. Put in glass jars or regular freezer cartons, seal tightly, and freeze quickly. To re-heat, drop corn into boiling water just long enough to heat thoroughly. Don't cook! You can freeze corn on the ear, too. But cut from the cob it takes less space and, we think, tastes better.

2 FINEST HYBRIDS FOR FREEZING

Sweet Cross Hybrid—Deep golden yellow kernels. Fine flavor.

Y-81—Our brand new yellow main crop hybrid.

205X—½ lb. each above, 65c, postpaid.
210X—1 lb. each above, 1.10, postpaid.

3 Best Open Pollinated Sweet Corns

←GOLDEN BANTAM Favorite of All

177—(80 days.) The standard yellow sweet corn. A heavy producer of fine roasting ears, usually 2 to the stalk. Ears 5½ to 6½ in. long. 8-rowed, deep kernels. Rich golden yellow. The standard by which all sweet corns are judged. Tender, sweet and deliciously flavored. If you want one of the best for your table, plant Golden Bantam. Triple size pkt. 15c; ½ lb. 25c; 1 lb. 45c; 3 lbs. 1.00, ppd.

GOLDEN SUNSHINE Large-Eared Early

←174—(76 days.) Originated by North Dakota Agricultural College for Dakota growing conditions—but always does well anywhere. The ear is 12-rowed and 7 to 8 inches long, a heavy bearer of sweet and tender ears. Fine for home or market gardener, particularly where summers are fairly cool and growing season is short. Triple size pkt. 15c; ½ lb. 28c; 1 lb. 45c; 3 lbs. 1.15, postpaid.

STOWELL'S EVERGREEN Sweet White

←184—(96 days.) Immense stalks produce long 10-inch ears. A main crop sweet corn. Kernels deep, white, sweet and tender. Usually has more corn to the cob than any other variety. To lengthen your roasting ear season, plant Stowell's Evergreen. Especially good for canners and market growers, although it makes delicious roasting ears. Triple size pkt. 12c; ½ lb. 26c; 1 lb. 45c; 3 lbs. 1.12, ppd.

Gurney's CUCUMBERS

"Early Surecrop" HYBRID CUCUMBER

Brand New All-America Medal Winner Outyields Them All!

369—(60 days.) This new hybrid is so outstanding it won a bronze medal in the 1950 All-America Trials—the first hybrid cucumber ever to win such an award! Is deep green, 8 in. or more in length, rather blunt on the ends. Has small seed cavity. Flesh crisp, of excellent quality and unusually delicious. Is highly

resistant to mosaic and downy mildew. So productive one pkt. of seed usually produces enough cucumbers for entire neighborhood. Absolutely the best cucumber you can buy.

Pkt. 25c; ½ oz. 3.00; 1 oz. 5.00; ¼ lb. 13.00; ½ lb. 25.00, postpaid.

Special Cucumber Offer

300X—Here is a special offer of three of our fine cucumbers. All three are the best of their kind.

1 pkt. Everbearing
1 pkt. Earliest of All
1 pkt. Straight Eight
All 3 only 29c, postpaid.

How to Plant Cucumbers Cucumbers will grow most anywhere, but they like reasonably rich soil. Plant plenty as you may lose some seedlings. Do not crowd them. Make hills at least 4 to 6 ft. apart, planting about a dozen seeds to the hill. An ounce of seed is enough for 100 hills. Scatter seed so hill will be at least 8 in. in diameter. Plant at corn-planting time when soil is warm. Late plantings may be made in June and early July. For good pickles we suggest National Pickle; but for slicing, the new Early Surecrop Hybrid is by far the best.

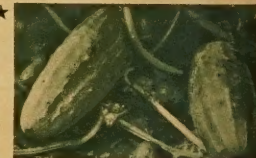

Use Gurney's Bug Dust on Cucumbers

Thousands of our customers have found our special formula Bug Dust to be of great help in controlling cucumber beetles. Gurney's Bug Dust has three-way action. (1) It is a stomach poison. (2) It is a contact poison. (3) It is a fungicide. Don't wait for garden pests to take your cucumbers—

dust early and thoroughly with Gurney's Bug Dust.

Special Bug Dust Offer

4110X—2½ lbs. of Gurney's Bug Dust, plus handy refillable gun that holds full pound of dust, for only 1.49, postpaid.

EARLIEST of ALL

354—(53 days.) This prolific cucumber grows about 7 in. long. It is a beautiful dark green with lighter green stripes at the blossom end. Flesh is high quality and crispy. One of the best for home gardeners. Those who want an extra-early cucumber should plant this. Seed scarce. Pkt. 15c; oz. 37c; ¼ lb. 98c; 1 lb. 2.25, postpaid.

↑EARLY FORTUNE For Pickles and Slicing

365—(60 days.) The most vigorous grower and an old favorite. Resistant to disease. Yields tremendously. Long dark green with small seed cavity. When fully grown, cucumbers measure up to 9 inches long. Flesh is white, crisp and very tasty. Holds color well. Can be used for small pickles or large slicers, market and shipping. Pkt. 15c; oz. 36c; ¼ lb. 99c; 1 lb. 2.50, ppd.

↑EVERBEARING Loads of Pickles All Summer

353—(60 days.) Very early. Literally covers the ground with its fruit until killed by frost. Fruit is medium size and rich, dark green in color. The fruits are short and blocky—perfect for small pickles. It pleases everyone. Pkt. 10c; oz. 35c; ¼ lb. 85c; 1 lb. 2.30, postpaid.

↑STRAIGHT EIGHT Perfect for Slicing

362—(66 days.) An All-America Prize Winner. Perfectly straight, it grows about 8 inches long and 1½ inches through. Firm fleshed, nearly seedless, and dark green from end to end. Flesh is crisp, thick, tasty, and of high quality. A bushel of Straight Eight is an eye catcher. Excellent for slicing, shipping, or dills. Pkt. 15c; oz. 40c; ¼ lb. 90c; 1 lb. 2.70, postpaid.

↑BLACK DIAMOND For Pickles and Shipping

359—(60 days.) Black Diamond is early, coming into bearing right after Everbearing and National Pickle. Is an attractive dark green from end to end. Grows about 7 or 8 in. long, is cylindrical in shape with blunt ends. It is one of the finest cucumbers for small pickles or early shipping. Pkt. 10c; oz. 33c; ¼ lb. 85c; 1 lb. 2.40, postpaid.

↑MARKETER An All-America Award Winner

366—(58 days.) Here is one of the newer slicing varieties you will want to plant. This All-America Award winner produces fruits that are eight to ten inches long and two and a half inches thick. It is long and slim with fairly rounded ends. The flesh is a solid white with white spines and a rich dark green color. For a slicing pickle with excellent flavor—try Marketer. Pkt. 15c; oz. 40c; ¼ lb. 1.10, ppd.

↑NATIONAL PICKLE For Early Uniform Pickles

352—(54 days.) Developed specifically for the National Pickle Packers Assn. Very early and productive. A beautiful dark green. The small pickles are rather short and thick, while larger sizes are smooth and cylindrical with rounded ends. Flesh thick with no hollow sides. Pkt. 10c; oz. 36c; ¼ lb. 89c; 1 lb. 2.50, postpaid.

HYBRID SWEET CORN MIX

Roasting Ears—All Summer

172—This year enjoy sweet corn all season. Here is a special blend of GURNEY'S HYBRID Sweet Corns to give you an all season supply with just one planting. All kinds of yellow hybrids are blended together to give you roasting ears from early to late. Varieties included are of the finest kinds. Triple size pkt. 15c; ½ lb. 28c; 1 lb. 48c; 3 lbs. 1.20, postpaid.

1 EARLY GIANT BANTAM HYBRID

2 PURGOLD HYBRID

3 SWEET CROSS HYBRID

4 NEW HYBRID Y-81

5 STOWELL'S EVERGREEN HYBRID

You Get More and Better Sweet Corn from these Gurney Hybrid Varieties

1 EARLY GIANT BANTAM HYBRID

Earliest of All

178—(65 days.) The sweetest, finest, earliest home garden corn. Ears are 6 to 7 inches long, rich yellow and filled with sweet kernels. A fine early market garden corn, for roasting ears, canning and freezing. Triple size pkt. 15c; ½ lb. 36c; 1 lb. 60c; 3 lbs. 1.49, postpaid.

4 NEW HYBRID Y-81

One of the Very Finest

180—(81 days.) A new main crop corn we think is about the best of all. Finest in quality. Has a distinct nut-like flavor. Grand for freezing, canning or roasting ears. A vigorous grower, capable of standing hot, dry summers. Triple size pkt. 25c; ½ lb. 40c; 1 lb. 75c, postpaid.

Big 8 to 9-inch ears of medium-deep, bright golden yellow kernels. 5 to 6-ft. stalks bear 2 ears each. Quality excellent. Triple size pkt. (3 oz.) 20c; ½ lb. 40c; 1 lb. 75c; 2 lbs. 1.25, postpaid.

7 IOCHIEF HYBRID

A Gold Medal Winner

176—(89 days.) The most outstanding new sweet corn introduction in years! 1949 Gold Medal Winner. Ears 16- to 20-rowed. 8½ to 9 in. long. Kernels deep, narrow, golden colored, sweet, juicy, delicious. Stalks to 7½ ft. tall. Ideal for roasting ears and freezing. Try IOCHIEF. Triple size pkt. 20c; ½ lb. 38c; 1 lb. 63c; 3 lbs. 1.40, postpaid.

8 GOLDEN STOWELL'S HYBRID

Wonderful Roasting Ears

183—(90 days.) Grows like white Stowell's, but is a beautiful golden-yellow color. Fine for market or canning. Kernels sweet and juicy. Wonderful roasting ears. Stalks 7 to 8 ft. tall. Vigorous grower. Good for mid-season crop. Triple size pkt. 20c; ½ lb. 40c; 1 lb. 65c; 3 lbs. 1.45, postpaid.

5 STOWELL'S EVERGREEN HYBRID

Big White One

185—(97 days.) A big white ear, medium long, 14 to 18 rows; deep, narrow kernels, very tender and very sweet. Outyields ordinary Stowell's Evergreen. In fact, is about the heaviest yielder of all corns. Quality and flavor very good. Kernels plump and sweet. Fine for home use and market gardeners, also for canning and freezing. Triple size pkt. 15c; ½ lb. 35c; 1 lb. 60c; 3 lbs. 1.55, postpaid.

6 HOOSIER GOLD

Excellent Quality

181—(80 days.) New, delicious, heavy yielding sweet corn by the U.S.D.A. and Indiana Ag. Exp. Sta-

2 PURGOLD HYBRID

Great for Canning

171—(85 days.) This is a wonderful new Hybrid Sweet Corn. Large, deep-kernelled ears with a tasty, sweet flavor. Outyields all other corns in our trials at Yankton. Only 5 days later than Golden Bantam. Exceptionally good for canning, freezing and roasting ears. Triple size pkt. 15c; ½ lb. 32c; 1 lb. 53c; 3 lbs. 1.45, postpaid.

3 SWEET CROSS HYBRID

Big Yield—Fine Flavor

175—(75 days.) This corn means dollars to the market gardener and lots of roasting ears to the home gardener. Flavor and quality are hard to beat. Excellent yielder and bears over a long period. The large, golden yellow ears are long, sweet and tender. Triple size pkt. 15c; ½ lb. 33c; 1 lb. 55c; 3 lbs. 1.49, ppd.

6 HOOSIER GOLD

7 IOCHIEF HYBRID

8 GOLDEN STOWELL'S HYBRID

SQUASH

Delicious baked, in pies, and boiled. And there is always a profitable market for good squash. Use 2 or 3 lbs. of seed per acre.

WARTED HUBBARD Winter Keeper

745—(110 days.) More Hubbard Squash are raised than any other kind. They are large, oval-shaped, with a very hard, warty rind which makes them best as winter keepers. The thick

yellow flesh is always sweet and dry when cooked. There is always a market for them. Pkt. 10c; oz. 25c; ¼ lb. 65c; 1 lb. 1.75, ppd.

TABLE QUEEN

Yields Big—Keeps Well

752—(80 days.)

This is the perfect individual squash.

Delicious when

halved and baked.

The flesh is firm,

of excellent quality

and sweet.

Cooks dry and

mealy. They are dark green, pear-shaped,

about 5 inches in diameter, and 6 inches

long. Good keepers, but should be used before

March 1st. Pkt. 12c; oz. 20c; ¼ lb. 55c; 1 lb. 1.50, postpaid.

SMALL SUGAR For Finest Pies

766—(118 days.) Smaller than Connecticut Field, but of finer grain, sweeter and very prolific. Pumpkins about 7 in. in diameter. Color is bright orange. Small Sugar is one of the best for pumpkin pies as the orange flesh is meaty and delicious. The old original New England pie pumpkin. No better all-around variety. Pkt. 10c; oz. 20c; ¼ lb. 45c; 1 lb. 1.05, postpaid.

GIANT PACKET MIXED PUMPKINS

768—Everything from pies to Jack-O-Lanterns and stock feed in this packet. Gives you an assortment with one planting. Pkt. 10c; oz. 15c, postpaid.

PUMPKINS

Pumpkins are easily grown. Are delicious for pies and profitable for stock feeding. Sow in May in good warm soil. 1 ounce for 25 hills; 4 lbs. per acre.

DICKINSON

The New Pie Pumpkin

762—Rich, golden colored flesh. So good additional sugar, starch, or coloring is unnecessary. The brilliantly colored flesh makes attractive pies. Pkt. 10c; oz. 20c; ¼ lb. 45c, ppd.

CONNECTICUT FIELD

For Pies or Stock

764—(120 days.) A good keeper and an immense yielder of fine stock food; pumpkins often weigh 100 lbs. each. Makes fine pies, too. Pkt. 10c; oz. 15c; ¼ lb. 30c; 1 lb. 85c, ppd.

MAMMOTH KING

The Biggest of All

769—(120 days.) 100 lb. pumpkins not unusual. An enormous yielder. Flesh thick, bright orange, of fine quality. Pkt. 12c; oz. 25c; ¼ lb. 50c; 1 lb. 1.25, postpaid.

1 EARLY PROLIFIC STRAIGHTNECK

2 DELICATA

3 CASERTA

4 BANANA SQUASH

1 Early Prolific Straightneck

Best Summer Squash

744—(50 days.) Very productive. Bears throughout the season. Bush type vines. Fruits clear yellow, smooth and straight. Best eating of all summer squashes. Pkt. 15c; oz. 50c; ¼ lb. 1.50, ppd.

2 DELICATA, Unusually Good

741—(110 days.) A small squash of unusual quality. Has smooth skin, a light golden color, striped green. Flesh is thick, sweet, and of fine texture. Very early and extremely productive. Pkt. 12c; oz. 20c; ¼ lb. 48c; 1 lb. 1.35, ppd.

3 CASERTA

"The All America"

740—(55 days.) Fruits 15 to 18 inches long and 4 to 5 inches in diameter. Fine yielder. Flesh is firm, thick and delicious. Pkt. 20c; oz. 35c; ¼ lb. 1.10, ppd.

4 BANANA SQUASH

Heavy Yielding

736—(115 days.) The heaviest yielding of all squashes. The big vines produce 8 to 10 squash that grow 2 ft. long, and weigh 20 lbs. each. Shell grayish green, and flesh beautiful orange-yellow. One of the best. Pkt. 10c; oz. 18c; ¼ lb. 48c; 1 lb. 1.35, ppd.

5 BUSH SCALLOP Early White

747—(52 days.) Medium white summer squash. Fruit 3 in. deep, 8 in. across, round with scalloped edges. Flesh pure white, fine flavor. For boiling or stewing. Pkt. 10c; oz. 19c; ¼ lb. 39c; 1 lb. 1.00, ppd.

6 GOLDEN DELICIOUS

Delicious Deep Golden

738—(110 days.) This cross retains all the flavor of Delicious with the golden color of Boston Marrow. The golden flesh is thick, sweet, and not watery. A good yielder and keeper. Pkt. 10c; oz. 24c; ¼ lb. 55c; 1 lb. 1.75, postpaid.

ALL-AMERICAN PARSNIP

Best Variety of All

271—(105 days.) The best and most popular variety of all. Vigorous grower, very dependable, superb sugary flavor. Roots about 3 inches in diameter and shoulders taper to a smooth point. Hollow crown, white flesh. Exceptional quality. Tender and delicious in the fall after a frost. Sow seed in early spring in rows 2 to 3 ft. apart and cover with ½ in. of fine soil. Thin seedlings to about 4 to 6 in. apart. May be stored for winter use or some left in ground all winter to be used in early spring. Pkt. 10c; oz. 25c; ¼ lb. 75c; 1 lb. 1.90, postpaid.

CAULIFLOWER

223—(60 days.) The finest early market and home use variety. Very productive. Sure to head. Has beautiful snowy white, uniform heads. Dwarf, compact grower. Short-leaved type. For main crop (fall) sow seed thinly in specially prepared seed bed about 4 months before first anticipated frost. Thin out seedlings in bed. Set out plants about 2 ft. apart in rows 2½ to 3 ft. apart.

Let grow until heads fully formed. Fine for freezing. Pkt. 15c; ¼ oz. 85c; ½ oz. 1.55, postpaid.

PARSLEY CHAMPION MOSS CURLED

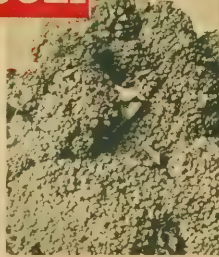

217—(70 days.) A beautiful curled variety, fine for garnishing and for seasoning soups and salads. Easy to grow in the garden or in pots during winter. Mostly used green, but leaves may be dried and kept in bottles for winter use. Pkt. 10c; oz. 27c; ¼ lb. 75c, ppd.

TURNIP-ROOTED PARSLEY

221—(90 days.) Has the same flavor as regular parsley, but has small turnip-shaped roots that are used for flavoring soups, stews, etc. Leaves are plain and can be used like ordinary parsley. Pkt. 10c; oz. 30c; ¼ lb. 80c, postpaid.

BROCCOLI

209—(70 days.) Just as easy to raise as cabbage, and as good as cauliflower. No solid heads but an abundance of light green, tender sprouts which are delicious creamed or used for greens. Use central head first. Side shoots will follow. Sow early for summer crop and midsummer for a fall crop. Especially good strain for freezing. Pkt. 12c; ½ oz. 20c; oz. 35c, ppd.

EARLY NORTHERN PEANUTS

219—We have been growing peanuts in South Dakota for a long time and the variety we are offering is early enough to get ripe in a normal season. Nuts are small and of fine flavor. Pods usually contain two kernels, with many pods on the vines.

This Early Northern variety will stand lots of dry weather and still yield an immense crop of delicious nuts. Plan on planting some peanuts for the children.

With each order for peanuts, we give full instructions for planting and care. This assures you of good results.

Peanuts are easy to grow, easy to roast, and easy to eat. If you don't think so, take a pan of home-grown peanuts, put them in the oven for about 30 minutes and eat while they are still hot. Good! Of course they are, and that is a wonderful way to pass some of the long winter-evenings.

Triple Size. Pkt. 10c; ½ lb. 35c; 1 lb. 50c; 3 lbs. 1.25, postpaid.

ASPARAGUS

200—MARY WASHINGTON. Everyone likes Asparagus. It is easy to raise and will last a lifetime. Mary Washington is the largest of all and is rust-resistant. Is tender, rich flavored, and is not stringy. Don't let another year pass without an Asparagus bed. Pkt. 10c; oz. 20c; ¼ lb. 65c, postpaid.

RHUBARB

237—Victoria. Large, thick, juicy, red stalks. Flavor sweet and rich. Especially good for pies and sauces. Is easily grown and produces abundantly. Will grow any old place and will thrive there for years. A pkt. of seed sows about 10 ft. of row. Pkt. 10c; oz. 20c; ¼ lb. 50c, postpaid.

SALSIFY

205—Improved Mammoth Sandwich Island. (120 days.) Like oyster stew? Plant salsify and have delicious vegetable oyster stew all winter. Delicious baked or creamed. Has long, slender roots. Flesh white, tender and sweet. Sow early, cultivate, harvest and store like parsnips. Pkt. 10c; oz. 44c; ¼ lb. 1.10, postpaid.

CELERY

662—GOLDEN PLUME. (118 days.) We recommend this new self-blanching variety to both home and market growers. Very early, a beautiful golden yellow and always crisp, tender, and stringless. Flavor distinctly nut-like and rich. It's easy to grow and so much better than "store-bought" celery. Pkt. 10c; ½ oz. 33c; oz. 48c, postpaid.

661—GIANT PASCAL. (140 days.) The largest celery grown. Stalks are very tall and heavy, and when blanched are yellowish white. Flavor is nutty and rich. The heaviest yielder. Best winter keeper. Pkt. 10c; ½ oz. 33c; oz. 48c, ppd.

208—CELERIAC. LARGE SMOOTH PRAGUE. (120 days.) A variety of celery having turnip-shaped roots used for seasoning soups, meats, and in salads. This variety is the best, largest, and very easy to raise. Pkt. 10c; ½ oz. 25c, postpaid.

CITRON MELON

For Pickles

721—(90 days.) Used exclusively for preserving or pickling. The rind is dark green, distinctly striped with light green. You may plant beside regular melons, as will not harm them. Pkt. 10c; oz. 20c, postpaid.

GARDEN LEMON

For Preserves, Pies, and Pickles

344—(90 days.) Vine similar to muskmelon; requires same cultivation. Fruit size of a large peach. For pickles, pies and preserves. Pkt. 10c; ½ oz. 20c; oz. 35c, postpaid.

CHIVES

311—Schnittlauch. (80 days.) This perennial plant of the onion family is used for seasoning soups, salads, and stews. It is easy to get started and once established will grow for many years. Pkt. 10c; ¼ oz. 35c, ppd.

LEEK September Giant

231—(130 days.) This new white is the largest and best of the Leek family. Stalks are often 12 in. long and 2 in. in diameter. Soups and salads flavored with Leek are delicious. Pkt. 12c; ½ oz. 25c, postpaid.

CURLED GARDEN CRESS

243—(40 days.) For flavoring salads, garnishing, or with lettuce in salads. An agreeable, peppery taste. Foliage deep green, finely curled. Best used when young. Grows easily and quickly. Pkt. 15c; oz. 40c; ¼ lb. 1.00, ppd.

RUSSIAN SUNFLOWER

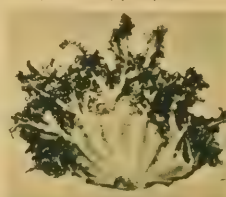

239—(80 days.) Produces immense heads, as much as 20 inches in diameter, and yields of 50 bushels per acre are not uncommon. The seed can be eaten by humans (parching necessary) or used for chicken feed. The stalks make silage said to be more nutritious than corn. Quite pretty, too. Pkt. 10c; oz. 20c; ¼ lb. 30c; 1 lb. 65c, postpaid.

SUNFLOWER SEED FOR BIRDS

240—All birds love Sunflower Seed and with it you can help sustain them when the ground is covered with snow and ice. 4 lbs. 1.25, postpaid.

OKRA or GUMBO

236—Extra Early Dwarf Green. (55 days.) Delicious for stews, flavoring soups, and for salads. Easy to raise and yields immense crops. Plants grow 3 to 4 ft. tall and are very productive. Pods pointed, dark green, slender and slightly ribbed. Use when from 1 to 2 inches long. Pkt. 10c; oz. 15c, postpaid.

ENDIVE—For Greens or Salad

234—(90 days.) Easy to raise and good to eat as greens or in salads. Makes large plant up to 16 in. across. When fully grown, tie over the outer leaves to blanch, making beautiful creamy white heads. Eat like lettuce or cook like spinach. Pkt. 15c; oz. 25c, postpaid.

TOBACCO

235—Excellent strain for northern states. Does beautifully in Wisconsin and Minnesota. Fine crop in middle states, too. Grow your own tobacco, on your farm. Full instructions. Pkt. 15c; ¼ oz. 30c; ½ oz. 50c, ppd.

Gurney's

How to Plant Muskmelons:

Muskmelons like a warm season and warm, rich, sandy soil. Plant in hills, 6 or 8 ft. apart, using about a dozen seeds to the hill. Plant about corn planting time. Keep weed-free and watch for bugs. An ounce of seed is enough for about 100 hills. For home use don't pick until the stems lets go easily when you turn the melon over. We are proud of our Muskmelons. All the seed comes from fields grown for seed purposes only; that means you get the best!

HEARTS of GOLD

Deep, Golden & Sweet

345—(92 days.) Mighty tasty, clear to the rind. Medium-early, very productive, and one of the best shipping melons. The flesh is sweet, thick, firm and solid. Heavily ribbed.

Pkt. 12c; oz. 35c; ¼ lb. 85c; 1 lb. 2.35, ppd.

STANDARD ROCKY FORD

Early Green-Fleshed Melon

334—(88 days.) So sweet and luscious its green flesh can be eaten close to the rind. Fruits are oval-shaped, firm and solid. Weigh 1½ to 2 lbs., slightly ribbed. We offer a selected early strain.

Pkt. 10c; oz. 23c; ¼ lb. 70c; 1 lb. 1.80, postpaid.

Choice, Juicy

Who doesn't enjoy a fresh, sweet, ripe watermelon? And they always taste better if they are from your own patch. Even back-yard and city gardeners can have a few hills of melons. Anyone can raise them. Melons like warm rich sandy soil. Large ones should be planted (six or eight seeds to the hill) 10 ft. apart each way. Midget and Sugar Lump types, 6 ft. apart. Do not plant until frost danger is past. Dust with Gurney's Bug Dust to control beetles. One ounce seed will plant 50 hills; three pounds to the acre. Our favorites are Midget, Dixie Queen Hybrid and Sugar Lumps, but we like them all.

BLACK DIAMOND

Excellent Flavor

715—(90 days.) Black Diamond is the large, round, dark green melon you see in all the markets. Melons average 35 to 40 lbs. in weight. Flesh is bright red, crisp, sweet and of excellent flavor. Rind thick, dark green. Our seed is genuine Oklahoma Black Diamond strain. For a large, deliciously flavored melon, you can't beat Black Diamond.

Pkt. 12c; oz. 25c; ¼ lb. 75c; 1 lb. 1.95, postpaid.

Bargain in MIXED WATERMELONS

All Kinds and Colors

710—A fine mixture for boys and girls, though we sell thousands to folks who haven't been youngsters for a long time. It's a mixture of many of our finest kinds, so you have all sorts at all times. Pkt. 10c; oz. 25c; ¼ lb. 55c, postpaid.

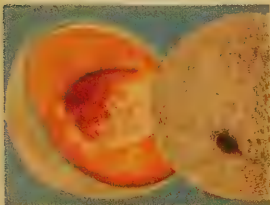

MUSKMELONS

FAR NORTH

Earliest of All

339—(75 days.) A new one destined to become a favorite. Grows anywhere but especially fine for Northern gardens. Developed by the Dominion Experiment Station, Morden, Ontario. Four to five inch fruits on small vines. Salmon-colored flesh of excellent quality. Very sweet and juicy. A heavy bearer. Pkt. 20c, postpaid.

HALE'S BEST

Best All-Around Melon

333—(83 days.) Here is about the best all-around melon—one that is a money maker. Just the right size to serve halved. Of wonderful quality, the salmon-colored flesh is very thick, and seed cavity is small. Hale's Best is very early, heavily netted, and a good shipper. Pkt. 10c; oz. 25c; ¼ lb. 75c; 1 lb. 2.25, postpaid.

MILWAUKEE MARKET

Delicious Early

337—(78 days.) If you want one of the biggest, best flavored early muskmelons for home use or home market, plant Milwaukee Market. Often weighs over 10 lbs., and the sweet, spicy, golden flesh is sometimes 3 in. thick! Will stand more heat, drouth and lack of care than any other melon and still produce a good crop. Pkt. 10c; oz. 30c; ¼ lb. 80c; 1 lb. 2.35, postpaid.

GOLDEN DELIGHT

For Home Garden or Market

338—(90 days.) A new All-America award winner. Medium-sized fruits, inclined to be rather oval shaped. Wide shallow ribs with open netting. Extra-good quality thick orange flesh with a fine spicy flavor. A most delicious variety. Pkt. 15c; oz. 40c, postpaid.

DAKOTA HONEY

Exceptionally Sweet

330—(90 days.) One of the finest, sweetest and best flavored of all Muskmelons. It is almost honey-sweet with enough spicy tang to make it just a little better than most any other Muskmelon you have ever tasted. A good, vigorous, hardy grower, too. Flesh deep, rich orange, thick and firm. Pkt. 15c; oz. 30c; ¼ lb. 80c; 1 lb. 2.50, postpaid.

GOLDEN ICE CREAM

To Eat with Ice Cream

335—(90 days.) Here is the melon for sundaes. An ordinary dipper of ice cream just fills this melon because cavity is small. 6- to 7-in., almost round melons. Will outsell any melon because of fine appearance, thick yellow flesh, and delicious flavor. Seed very scarce. Pkt. 10c; oz. 25c; ¼ lb. 75c; 1 lb. 2.15, postpaid.

MIXED MUSKMELONS
331—Give the children a chance to enjoy their own melon patch. Get every variety we list and many others too.
Pkt. 10c; oz. 20c; ¼ lb. 60c; 1 lb. 1.49, postpaid.

GOLDEN CHAMPLAIN

Early and Sweet

341—(76 days.) Still one of the very earliest and one of the very best in our trial gardens. It blossoms and sets fruit as soon as it starts to run. The melons are netted, ribs are prominent. Flesh is thick, sweet, of excellent quality and a beautiful golden yellow. An especially good melon for home and market gardeners in the northern part of the country.

Pkt. 15c; oz. 30c; ¼ lb. 85c; 1 lb. 2.30, postpaid.

WATERMELONS

EARLIEST and SWEETEST

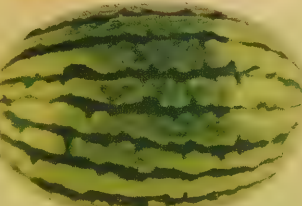

The Earliest

714—(70 days.) Melons weigh from 12 to 15 pounds and flesh is scarlet, very sweet, and fine grained, is a very heavy bearer, often producing 10 to 12 melons to a hill. Our really northern customers should probably plant this one. There is little use in planting large late varieties far north. They are usually a disappointment—only nearly ripe when frost comes. But you will always get under the wire with this one. Pkt. 15c; oz. 35c; ¼ lb. 75c; 1 lb. 1.60, postpaid.

HYBRID DIXIE QUEEN

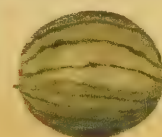

The Best of All Melons

723—(90 days.) Here is the firmest, sweetest, most delicious melon you probably have ever tasted. It's one we're really proud of, as it's our own origination. The melons are big, weighing from 35 to 50 lbs. Hybrid Dixie Queen can really take lots of dry weather and you'll find it stays in eating condition better than the ordinary Dixie Queen. In addition, its hybrid vigor gives it disease resistance. Thus, it does well when and where many other melons won't.

Flesh is deep red, fine grained and free from stringiness; sugar-sweet and crisp, too. Ready for eating around the middle of August. Don't miss this new melon—it's a dandy.

Pkt. 25c; ¼ oz. 50c, postpaid.

EARLY CANADA

For Northern Areas

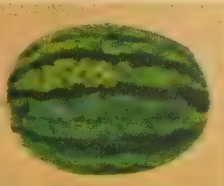

701—(75 days.) This new Canadian melon is earlier than our American melons. Firm, red, sweet flesh of good quality. Recommended for planting as far north as melons have ever been grown. Weighs 10 to 15 lbs. Light green skin. Pkt. 10c; oz. 25c; ¼ lb. 55c; 1 lb. 1.65, postpaid.

CONGO

Sugar-Sweet Flesh

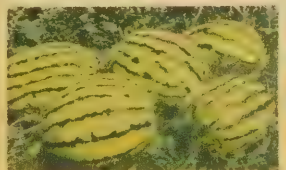

704—(88 days.) Won a Bronze Medal at the 1950 All-America trials. Developed by the U.S.D.A. Resists anthracnose and wilt. A long melon with deep red, sugar-sweet flesh (actual test shows 9.4% sugar). Tough rind. An ideal melon for market gardeners. Pkt. 15c; oz. 35c; ¼ lb. 90c, postpaid.

EARLY KANSAS

or Red Seeded Hutchinson

716—(80 days.) One of the best of the newer watermelons. Large, nearly round, light green with dark green stripes. Weigh 20 to 30 lbs. Flesh crisp, firm, sweet. Fine for home garden, market or shipping. Pkt. 12c; oz. 23c; ¼ lb. 50c; 1 lb. 1.35, postpaid.

DIXIE QUEEN

Always Does Well

722—(80 days.) Good? You bet it is. And early, too. Not as large as Early Kansas but you can expect a lot of 40-pound melons. The melons are light green with narrow, dark green stripes. Thin rind, nearly round. Very heavy bearers. And best of all, they are sweet as honey, easy to grow and very prolific. Pkt. 12c; oz. 30c; ¼ lb. 75c; 1 lb. 1.90, postpaid.

WINTER WATERMELON

Keeps All Winter

717—(85 days.) In late fall when other melons are gone, go to the barn or strawstack where they are stored, get a big, round Winter Watermelon, so crisp that sometimes it will split wide open when you stick a knife into it. Flesh bright scarlet, of fine quality, sweet and delicious. Melons nearly white, weigh from 15 to 25 pounds. Pkt. 10c; oz. 20c; ¼ lb. 55c; 1 lb. 1.15, postpaid.

New MIDGET Watermelon

**Easy to Keep in Refrigerator . .
Easy to Serve . . . Sweet As Sugar**

713—An improved icebox style melon. Imagine melons only 7 to 8 inches long! Perfect for the refrigerator and just right for individual servings. Sweet, rich flavor. Red flesh that is so crisp it will amaze you. Actually tastes better than most large melons. Has a very thin rind.

Pkt. 15c; oz. 35c; ¼ lb. 85c, postpaid.

Gurney's SUGAR LUMP

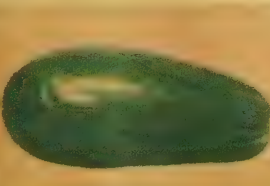

Comes in 3 Separate Colors

Something new and better in watermelons. One of the sweetest and earliest melons we know. Grows to a size just right for individual servings—8 to 10 inches through—so fits nicely in refrigerator, too. Very thin rind. Bears fruit heavily over a long period, and is one of the finest of our new melons. Flesh is crisp, sweet and of excellent quality. Is definitely not a novelty, but a delicious "ice box" size melon. You have to try it to appreciate it. Comes in three separate colors:

728—Yellow Sugar Lump; 726—Red Sugar Lump; 727—White Sugar Lump.

YOUR CHOICE, ANY OF THE ABOVE: Pkt. 20c; oz. 40c; ¼ lb. 85c. **TRIAL PACKET:** All 3 colors mixed. No. 729—Pkt. 15c; oz. 25c; ¼ lb. 75c, postpaid.

KLECKLEY'S SWEET

Now Wilt-Resistant

724—(85 days.) The old favorite. For years the "yardstick" by which all melons are compared. Melons usually weigh over 30 lbs. Rind dark green. Flesh brilliant red, crisp, tender, sweet and fine grained. Seeds white.

Pkt. 10c; oz. 29c; ¼ lb. 60c; 1 lb. 1.30, postpaid.

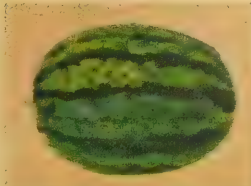

GOLDEN HONEY SWEET

Big, Yellow, Sweet as Sugar

718—(90 days.) A golden, yellow-fleshed watermelon. Better quality than most of the red fleshed melons. Just as with the early Sugar Lump melons, we believe you'll find these big yellow melons sweeter and tastier than the reds.

Pkt. 15c; oz. 25c; ¼ lb. 45c; 1 lb. 1.20, postpaid.

GARLIC BULBS

229—Garlic is always rather high in price and often you are unable to buy it when needed. Why not raise your own and supply your neighbors? Easy to grow. Merely divide sets we send, cultivate, dig and store

like onions. 2 bulbs 15c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 75c, postpaid.

HERBS

245—Dill: (70 days.) The leaves are used in soups, and in pickles. Pkt. 10c; oz. 15c, postpaid.

241—Caraway: (70 days.) Grown for the seed used in confections and medicine. Pkt. 10c, postpaid.

246—Sage: (75 days.) The leaves and tender tops are used in stuffing and sauces. Pkt. 15c, postpaid.

251—Sweet Marjoram: (70 days.) For seasoning soups, stews, sausage, etc. An annual. Pkt. 20c, postpaid.

252—Thyme: (85 days.) A perennial 6 to 12 inches. Aromatic foliage. Good for seasoning. Pkt. 20c, postpaid.

224—Borage: (80 days.) Annual 1½ ft. Young leaves used for salad, in lemonade and other cooling drinks. Pkt. 15c, postpaid.

250—Sweet Basil: (85 days.) Annual 1½ to 2 ft. Seasoning for soups, stews, omelets, salads, etc. Pkt. 15c, postpaid.

249—Rosemary: Leaves for seasoning, also used for medicine. Pkt. 15c, postpaid.

238—Lavender: (60 days.) Sweet scented. Place dried flowers in linen for fragrance. Pkt. 20c, postpaid.

HERB GARDEN

1 Pkt. Lavender 1 Pkt. Sweet Basil
1 Pkt. Borage 1 Pkt. Rosemary
1 Pkt. Sweet Marjoram
360X—1 Pkt. each all 5 for only 55c, ppd.

HERB COLLECTION

1 Pkt. Dill, 1 Pkt. Caraway, 1 Pkt. Sage.
350X—1 Pkt. each all 3 above 22c, ppd.

ODDS and ENDS

225—BRUSSELS SPROUTS: (90 days.) Dozens of miniature cabbage heads alongside the stems. Good eating. Pkt. 10c; oz. 25c, postpaid.

226—COLLARDS: (80 days.) Cabbage leaves without heads. Pkt. 10c; oz. 25c, postpaid.

227—NEW GUINEA BEAN: Beans 15 to 18 in. long, weigh 15 lbs.! Fry like eggplant. Pkt. 10c; oz. 17c, postpaid.

228—CHICORY: (110 days.) Substitute for coffee. Pkt. 10c, postpaid.

233—GARDEN HUCKLEBERRY: For pies, preserves, jams. Pkt. 15c, postpaid.

242—MUSHROOM SPAWN: Grow your own mushrooms. Easy to do. We send full directions. Brick 35c; 3 bricks 98c, postpaid.

EGG-PLANT

Sow in hot-beds very early in the spring and transplant to 2 to 3 feet apart, in very rich, warm ground. Hoe often and hill up gradually until they blossom.

657—BLACK BEAUTY. The best variety in cultivation, being early, a sure cropper and of fine quality. The fruit is large, oval, very deep purple. Pkt. 10c; ½ oz. 28c; 1 oz. 48c, postpaid.

WHITE BUNCHING ONIONS

Best for Green Onions

314—Absolutely the best for early onions. Does not form bulbs. Long, slender, silver-white stalks. Produces clusters of four or five. Mild and sweet. Extremely hardy and will winter over without protection. Seed planted in spring makes onions by midsummer and seed planted in fall makes onions in early spring. A hardy perennial. Pkt. 15c; ½ oz. 45c, postpaid.

.. Hybrid AUTUMN STAR

For Bigger Yields

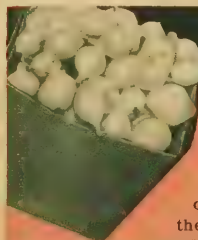

304—Autumn Star Hybrid Onion. (110 days.) Hybrid vigor makes this fine onion a tremendous yielder. It's brand new and offered by us for the first time. Color is a beautiful, dark yellow with creamy flesh. Good keeper and best of all, gives big yields. Has a fine pungent flavor. A true first generation hybrid. Pkt. 20c; ½ oz. 65c; 1 oz. 95c, postpaid.

WHITE SWEET SPANISH

Early Sweet Table Onion

313—(110 days.) A fine, large, sweet white onion. Stores well over a long period of time. Very fine grained, of excellent quality and has mild, sweet flavor. Yields as well as the Yell. Swt. Spanish and keeps better than Bermuda. Does well in northern sections with onions weighing over a pound each. Pkt. 12c; oz. 75c; ¼ lb. 2.10, postpaid.

ONION SETS

Everyone should plant onion sets for early green onions. Many prefer to grow their large onions from sets instead of from seed, as they can market them much earlier while the price is high. Our sets are small-sized as they are the favorite and will go farther than the large ones.

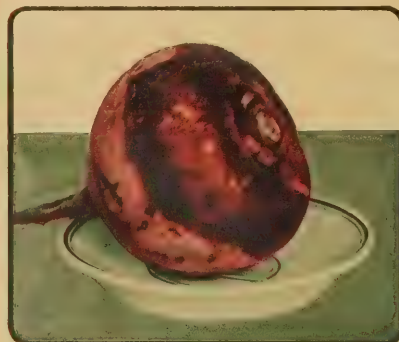

POSTPAID PRICES:

317—Yellow Bottom Sets: 1 lb. (approximately 1 quart) 35c; 4 lbs. 1.25; 8 lbs. 2.25, postpaid.

No red or white sets this year. Order yellow ones—they are the best anyway. Write for prices on larger quantities.

How to Plant Onion Sets

Onion sets should be planted real early in the spring. Plant them deeply if you want best green onions. The onion bulbs naturally grow on the top of the soil so don't throw too much soil against them when cultivating. One quart will set 50 feet of row. Harvest when half the tops have fallen.

Purple Top Yellow Rutabaga

Good Keeper—Firm Flesh

808—More of this variety is raised than any other. The roots are purple above and an attractive yellow below. The light yellow flesh is firm, sweet, and fine flavored and cooks to a bright orange. It has very small necks and no side roots. Has large, smooth, cabbage-like leaves. One of the best for table or for stock feed. Very productive. Will keep in fine condition until late in the spring. Pkt. 7c; oz. 20c; ¼ lb. 45c; 1 lb. 1.25, ppd.

Extra Early Milan Turnip

803—(40 days.) Similar to Strap Leaf but earlier. One of the finest turnips grown. Flat with purple top. Fine grained, sweet and very tender. If you want an extra early, extra fine turnip, this is the one you should buy. Pkt. 10c; oz. 20c; ¼ lb. 45c; 1 lb. 1.30, postpaid.

TURNIPS

PURPLE TOP WHITE GLOBE

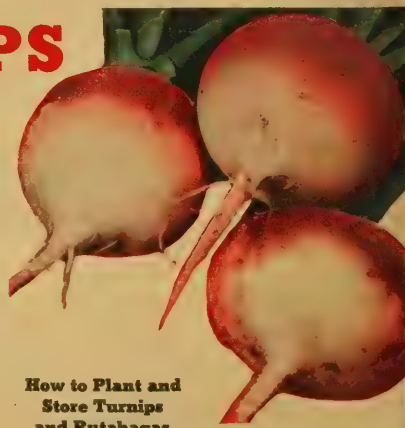

For Fine Flavor

807—This all-season turnip is sweet and tender from the time it is large enough to use until the following spring. We consider this the finest table turnip on the market today, and also an immense yielder of rich stock feed. Pkt. 10c; oz. 15c; ¼ lb. 35c; 1 lb. 90c, postpaid.

PURPLE TOP STRAP LEAF

Good for Storage
Sow Early or Late

806—Similar to Purple Top White Globe but flatter in shape. Grows 4 to 5 inches across. Has delicious flavor and is one of the most popular varieties grown. Can be planted either in fall or spring. One of our best varieties, a fast grower and an excellent keeper. Suitable for freezing. Pkt. 7c; oz. 12c; ¼ lb. 35c; 1 lb. 98c, postpaid.

How to Plant and Store Turnips and Rutabagas

Turnips and rutabagas are easy to raise and easy to store. Early varieties can be sown in the spring just as soon as you can get them in the ground, but most kinds do best as a fall crop. Sow 2 to 3 lbs. to the acre the last part of July. 1 oz. of seed will drill 150 feet of row. For successive crops, make 2 or 3 plantings at about 2-week intervals.

Both these vegetables store well. Simply store them in outdoor caves, a cool, dark basement or pit. Make sure there is adequate ventilation as mold might develop where it is warm and stuffy.

ONIONS

« See Page 2 for Onion Plants »

HOW TO PLANT ONIONS

Grow onions from seed, sets or plants—all 3 are listed. The seed is western-grown. Our sets are from Colorado and the plants are grown by one of the best growers in Texas.

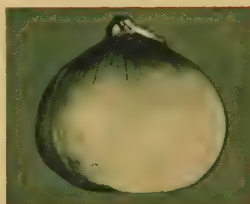

Onions From Seed: Prepare the soil in Fall or early Spring and sow EARLY in Spring. Cover not over ½ in. deep. Make rows 16 to 18 in. apart, depending on the method of cultivation. One ounce of seed will sow 100 ft. of row. Onions like rich soil, plenty of cultivation. Harvest when tops fall over. Store in shallow, well ventilated crates or hang up by tops.

YELLOW SWEET SPANISH

303—Utah Strain. (110 days.) Largest and mildest of all. Fine for the north. Bulbs are globe-shaped, small necks, firm, golden-yellow skin. Mild, pleasing flavor. Yields of 1000 bu. per acre are common. Pkt. 15c; oz. 75c; ¼ lb. 2.25; 1 lb. 6.75, postpaid.

SPECIAL ONION OFFER

375X—1 Pkt. each of Yellow Sweet Spanish, Dakota Red Globe and White Bunching. ALL 3 for **23¢** ppd.

SOUTHPORT YELLOW GLOBE

302—(110 days.) Probably best keeper of all yellow onions. A big yielder, too. Onions remarkably uniform and mature at same time. Bright golden yellow in color. Flesh creamy white and fine grained. Deep globular shape with thin neck and full shoulder. A good keeper. For home or market garden. Pkt. 12c; oz. 65c; ¼ lb. 1.75; 1 lb. 4.20, postpaid.

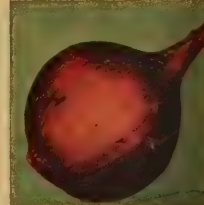

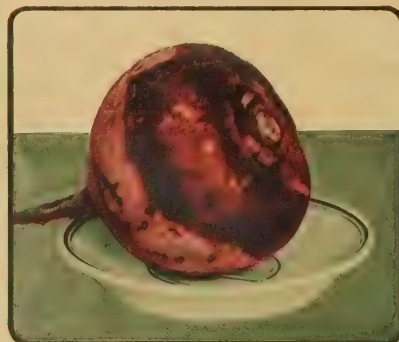

SOUTHPORT WHITE GLOBE

307—(110 days.) Here is the best white onion you can cultivate. Also one of the most beautiful. Large and perfectly round. Flesh pure white, mild flavored, sweet and juicy. Paper-white skin. A main crop variety. Good keeper. Excellent quality. Pkt. 10c; oz. 75c; ¼ lb. 2.25; 1 lb. 6.75, ppd.

DAKOTA RED GLOBE

309—(110 days.) This Red Globe has been raised in South Dakota for many years. Glossy deep red, large and round. Flesh mild, pleasant and fine grained. Wonderful keeping qualities. Yields heavy. 10 days to 2 weeks earlier than regular Southport Red Globe. Pkt. 12c; oz. 65c; ¼ lb. 1.85, postpaid.

Purple Top Yellow Rutabaga

Good Keeper—Firm Flesh

808—More of this variety is raised than any other. The roots are purple above and an attractive yellow below. The light yellow flesh is firm, sweet, and fine flavored and cooks to a bright orange. It has very small necks and no side roots. Has large, smooth, cabbage-like leaves. One of the best for table or for stock feed. Very productive. Will keep in fine condition until late in the spring. Pkt. 7c; oz. 20c; ¼ lb. 45c; 1 lb. 1.25, ppd.

Extra Early Milan Turnip

803—(40 days.) Similar to Strap Leaf but earlier. One of the finest turnips grown. Flat with purple top. Fine grained, sweet and very tender. If you want an extra early, extra fine turnip, this is the one you should buy. Pkt. 10c; oz. 20c; ¼ lb. 45c; 1 lb. 1.30, postpaid.

TURNIPS

PURPLE TOP WHITE GLOBE

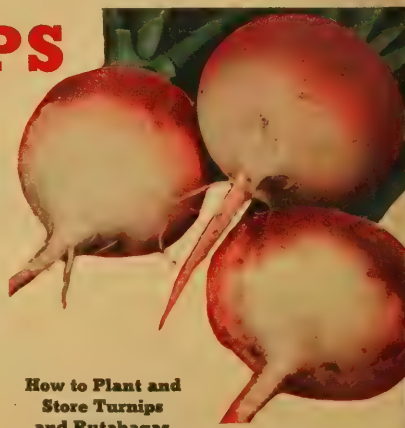

For Fine Flavor

807—This all-season turnip is sweet and tender from the time it is large enough to use until the following spring. We consider this the finest table turnip on the market today, and also an immense yielder of rich stock feed. Pkt. 10c; oz. 15c; ¼ lb. 35c; 1 lb. 90c, postpaid.

PURPLE TOP STRAP LEAF

Good for Storage
Sow Early or Late

806—Similar to Purple Top White Globe but flatter in shape. Grows 4 to 5 inches across. Has delicious flavor and is one of the most popular varieties grown. Can be planted either in fall or spring. One of our best varieties, a fast grower and an excellent keeper. Suitable for freezing. Pkt. 7c; oz. 12c; ¼ lb. 35c; 1 lb. 98c, postpaid.

How to Plant and Store Turnips and Rutabagas

Turnips and rutabagas are easy to raise and easy to store. Early varieties can be sown in the spring just as soon as you can get them in the ground, but most kinds do best as a fall crop. Sow 2 to 3 lbs. to the acre the last part of July. 1 oz. of seed will drill 150 feet of row. For successive crops, make 2 or 3 plantings at about 2-week intervals.

Both these vegetables store well. Simply store them in outdoor caves, a cool, dark basement or pit. Make sure there is adequate ventilation as mold might develop where it is warm and stuffy.

Gurney's HARDY RHUBARB PLANTS

The varieties of Rhubarb which we list are not the common old rhubarb that is green and stringy, but better, improved strains.

FAMOUS CHIPMAN'S CANADA RED

Best of the New

A3056—Stalks are large, red from bottom to top, inside and out. Cooking does not take its rich color. Sweeter, so takes less sugar. Productive and nearly seedless. We believe this new, all-red Rhubarb is the very finest you can plant. Does well on most soil types. You can pull big stalks from spring till fall. Plant early and get some rhubarb this year. Large No. 1 roots, 98c each; 3 for 2.69, postpaid.

Rhubarb—Asparagus Bargain Offer
25 MARY WASHINGTON ASPARAGUS.
Super Jumbo, 3-yr. plants.
2 CHIPMAN'S CANADA RED RHUBARB.
The "All Red" one.
A2384X—All for only 3.49, postpaid.

Gurney's GOLIATH The Giant Rhubarb

A3062—For several years we have carefully tested Gurney's Goliath and have found it to be the best yielder of all. The tremendous size of the stalks will amaze you, yet they are tender, juicy, and have a fine, rich flavor. It is not an all-red variety, as the color shades from red to green, but it is a big plant and practically seedless, too. If you are looking for a rhubarb that will produce all you can use for canning, pies, and eating fresh—look no more. You can't go wrong with Gurney's Giant Goliath. A3062 No. 1 roots, 59c each; 3 for 1.49, postpaid.

GURNEY'S SPECIAL

Rhubarb Bargain
A2375X—10 "Finest Pie" rhubarb plants for 98c, ppd. Special planting grade... will give you all the sauce and pies you can eat.

ASPARAGUS PLANTS

MARY WASHINGTON

Asparagus that melts in your mouth. Mary Washington is practically immune to rust which often kills other varieties. So easy to raise that anyone can do it. Once planted, your bed of Mary Washington Asparagus will last for years. It keeps sending up crisp, tender stalks for a long cutting period in the spring which make the best possible eating Asparagus. Set 1 1/2 feet apart. One of the best of all vegetables for freezing. Postpaid:

PARADISE

The Improved Variety

Here is a large, fast-growing variety of asparagus that can be used the first year after planting. And, it is sweeter, more tender and more prolific than the other varieties we know.

It is easy to raise an asparagus bed with this new one. Just set the plants in the bottom of a trench that is about 8 inches deep. Do not cover the tops over more than 2 or 3 inches at first; gradually fill in the furrow or trench as the plants grow. Set the plants about 18 inches apart in the row and have all rows around 3 ft. apart. Cultivate thoroughly the first couple of seasons and fertilize well in late fall. This new asparagus looks like it may soon replace other varieties entirely. Postpaid: Per 25 Per 50 Per 100

A3009—3-Yr.-Old Super-Jumbo			
2.19	3.98	7.59	
A3008—2-Yr.-Old Plants			
1.60	2.89	5.49	
A3007—1-Yr.-Old Plants			
1.19	2.10	3.98	

Asparagus is easy to grow, and once you get a bed started, it keeps coming up every year, providing a delicious vegetable for your table.

Gurney's New BOHEMIAN HORSERADISH

New Bohemian is the horseradish. We have discarded all other kinds because this is so superior. It is hardy anywhere and is very desirable as a relish. Its roots are dug in early spring, grated fine and with vinegar added, it is ready for use. The roots grow larger, are whiter, and the quality is superior.

PRICES

A3045—Heavy Crowns: 5 for 79c; 10 for 1.39; 25 for 2.98; 100 for 11.25; 500 for 49.00, postpaid.
A3046—Cuttings: 12 for 69c; 25 for 1.29; 100 for 4.19; 500 for 18.49, postpaid.

NEW! ABUNDANCE Gooseberry

A3030—Very heavy crops of large, dark green berries that turn a rich purple when they become fully ripe. Don't know of any gooseberry that has finer cooking qualities. Is especially fine for jelly. This new variety is one that picks easy as the fruit is on long stems and is very easily handled at picking time. Be sure to include a few Abundance Gooseberry on your order. 98c each; 3 for 2.69; 12 for 9.98, postpaid.

Gurney's Bargain GOOSEBERRY COLLECTION

2 Pixwell Gooseberry
2 Abundance Gooseberry
A2367X
All 4 for... 329 Postpaid

PIXWELL GOOSEBERRY

It Picks Well

A3040—Here is the Gooseberry you have been waiting for. One that produces big crops of large sized, luscious berries. Easy to pick too, because the fruit hangs well away from the thorns. This feature alone makes Pixwell worth planting.

Makes no difference where you live—up North or down

South. This variety has the ability to take it and can probably be planted farther North than any other named variety of gooseberry on the market today.

If you want to plant a gooseberry that will produce a heavy crop and do it consistently, plant Pixwell. You'll get a lot of fine quality berries even under adverse conditions. 89c each; 3 for 2.49; 12 for only 9.50, postpaid.

Gurney's CURRANTS

Gurney's Bargain Currant Collection

2 Red Lake Currant
2 Wilder Currant
A2361X
All 4 for... 179 Postpaid

RED LAKE CURRANT

The Best of the Currants

A3027—A very vigorous and productive bush producing tremendous quantities of high quality, large, red currants. Often bears the first year after planting. Very hardy and has everything—size, quality of fruit, color and productivity. Red Lake makes up into delicious, tasty, sparkling, red jelly. A Minnesota introduction, so it is hardy. You'll like it. 59c each; 3 for 1.59; 10 for 4.39, postpaid.

WILDER CURRANT

The One for Jelly

A3025—All of you folks who want some currant jelly for winter. Wilder Currant is the one to raise for good jelly. The berry is at least twice as large as the ordinary currant, and can produce twice the crop. Some in our nursery are nearly as big as cherries, and are borne in huge clusters. 49c each; 3 for 1.29; 10 for 3.39, postpaid.

Gurney's Better NUT TREES

Grow Them For Shade, Beauty, Firewood and Lumber

Here is as fine a selection of nut trees as you will find anywhere, at any price. We are offering nothing but the best varieties, ones that will do well for you North Central planters, too. This is one type of tree that most of us do not plant enough of, and no doubt it is just because we don't get around to doing it.

Nut trees should be grown for more than just nuts. You will find that most of the varieties we are offering can be used in the landscape planting. They make very good shade trees and are generally very ornamental. Of course, most of them are excellent for fence posts, firewood and lumber. They are all attractive trees you will be proud to have growing on your farm or city lot.

THOMAS BLACK WALNUT—Thin Shelled

A4130—The Thomas Black Walnut has much more meat and much less shell than the ordinary Black Walnut found in our woods. Giant nuts have kernels much larger, better flavored and easier to get out of shell. Grows fast and bears young, as pictures at right shows. Mature tree will produce 15 to 40 bushels. Perfectly hardy anywhere that ordinary Black Walnuts will grow. Plant 40 to 50 ft. apart, 2 to 3 inches deeper than the tree stood in the nursery. 4 to 6 ft., 2.89 each; 3 for 8.35, Exp. not prepaid.

HARDY ENGLISH WALNUT

A4131—A strain of English walnuts with the true paper-shell nuts that have been grown through the frigid winters of northern New York state for many years. Although they have not been tested here in the Midwest, there is little doubt that they are perfectly hardy and will bear fruit here, after withstanding temperatures of 40 below or more in the east. 2 to 3 ft., 2.19 each; 3 for 6.29, postpaid.

ECONOMY COLLECTION

2 Butternut, 3 to 4 ft.
2 Shagbark Hickory, 12 to 18 in.
2 Hazelnut, 18 to 24 in.

A2715X
ALL 6
for only 389 ppd.

GRAFTED PECANS

The secret of getting grafted Pecan trees to live is to dig them with a long root, which we do. Because of the long root, we ship them to you by Express. Plant at least 35 feet apart. There are a number of these Pecan varieties growing in southern Iowa.

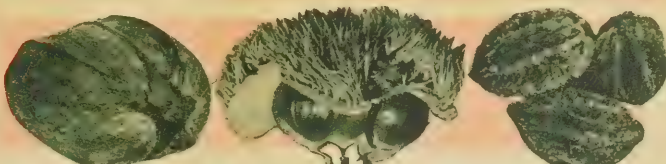

HARDY PECAN

A4121—GIANT MAHAN. World's largest and most popular True paper-shell. Highly productive and beautiful tree. 2 to 4 ft. 3.25 each; 3 for 9.98; Express not prepaid.
A4122—STUART. Well suited to all sections and soils. Bears regularly. Large, well-filled nuts. 2 to 4 ft., 2.98 each; 3 for 8.49, Express not prepaid.
A4120—This is a native type and very hardy. Besides being a heavy yielder of fine quality, delicious nuts, it makes a beautiful ornamental shade tree. A very vigorous grower. Probably cannot be grown from the Dakotas north. 2 to 3 ft., 98c each; 3 for 2.79, Express not prepaid.

GRAFTED PECAN BARGAIN

A2713X—1 each: Giant Mahan and Stuart. Only... 5.98 Exp. not Ppd.

SHAGBARK HICKORY

A4125—These are the real grand old Shagbark nuts so deliciously flavored and so much a favorite with everybody. Plant some on your own place and you won't have to go hunting in the woods for them. Next to the Pecans, this is the best of the nut trees. As the Pecan is not hardy in some northern states, Shagbark Hickory can take its place very ably. Grows from Quebec to Texas. Young trees about 12 to 18" high, 69c each; 3 for 1.79; 25 for 12.75, postpaid.

CHINESE CHESTNUT

A4106—Imported from China to take the place of our American Chestnut trees which the blight killed off. It is a rapid grower, heavy producer, early bearer, and is blight-resistant. Large nuts with sweet, rich flavor like the American chestnut. Tree apt to be crooked when young but soon straightens out. This is the best eating Chestnut we have found that can be raised where the American types do well. You will want one of these for sure. 18 to 24 in., 1.60 each; 3 for 4.19, postpaid. 2-3 ft. 1.89 ea; 3 for 5.40, postpaid.

BUTTERNUT

Has Buttery Flavor

A4102—A cousin of the Black Walnut and one of the most popular and best eating nuts. It bears large nuts with a rich, buttery flavor. Makes a fine tree and wood is valued for furniture and interior trim. Grows naturally from New Brunswick west to the Dakotas and Arkansas. Perfectly hardy in most all midwest territories. Plant where ground is usually moist, as it cannot stand extreme dryness. 3 to 4 ft., 79c ea; 3 for 2.25, 4 to 6 ft., 98c ea; 3 for 2.79, Exp. not prepaid.

Gurney's NUT TREE BARGAIN

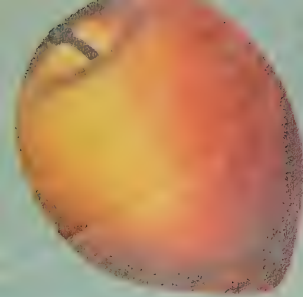

A2714X—Four of our most popular nut trees:
1 Hazelnut, 2 yr. 1 Butternut, 3-4 ft.
1 Hardy English Walnut, 2-3 ft.
1 Chinese Chestnut, 18-24 in.
All for 4.79, postpaid. FREE GIFT: Native Black Walnut, 18 to 24 in.

AMERICAN HAZELNUT

Beautiful Shrub—Good Nut Producer

A4115—Makes a beautiful, well-branched shrub 5 to 6 ft. tall. Attractive enough to plant in your yard as an ornamental shrub. In the fall the foliage turns to a brilliant scarlet and bronze. This hardy Hazelnut produces large quantities of high-quality nuts every year. A native of the Black Hills, Eastern South Dakota, Minnesota and Iowa. It is perfectly hardy and can be grown almost anywhere. We are offering one grade only this year. Strong two-year-old plants, 69c each; 3 for 1.79; 10 for 4.69, postpaid.

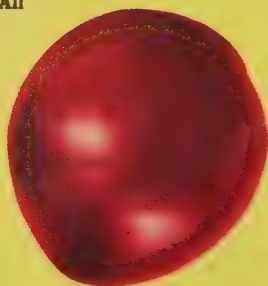

SUPERIOR The Outstanding Early

A1632—The largest, and one of the best quality, hybrid plums. The tree grows very fast and bears young, usually the first year after planting. Ripens from August to September, depending upon the latitude of the country in which it is planted, and it bears a crop every year. It is a heavy bearer of unusually big, yellowish fruit which turns pink and then a deep, rich red. They will peel like peaches and the firm, juicy flesh is of high dessert quality. Excellent for jellies, jams and preserves.

TECUMSEH . . .

Extra Hardy • Long-Lived • Earliest of All

A1634—One of Dr. Hansen's best, and probably the best eating plum in our whole list. Ordinarily ripens in August. Trees are of moderate size, fine for home planting, and easy to pick for the orchardist. Earliest bearing of all, and hardy clear up into Canada. The fruit is a bright red with bluish bloom. The flesh is yellow, firm, juicy and sweet, and has a delightfully appetizing flavor. We have grown this variety for many years and are convinced that it has everything a plum should have to make it ideal for your use.

OPATA—Extra Hardy

The Early Bearing Plum

A1628—The earliest of the Hansen Hybrids, Opata bears ropes of fruit and ripens them in mid-July. A juicy, tangy plum of medium-size, green flesh; flavor very pleasant. Tree is vigorous in growth. Extra hardy and bears one year after planting.

KAGA

"The Apricot-Flavored Plum"

A1620—A deliciously flavored plum with an appetizing fragrance. Medium-size, heavy producer, and bears very early after planting. Very hardy. A cross between a native wild plum and the very fragrant Chinese apricot. A good pollinizer.

SAPA

The Rich Black and Sweet One

A1631—Black outside and clear to the pit. It has a sweet flavor you can't forget and bears immense quantities annually. Ripe the latter part of July. Bears the first year after planting. Very hardy. Has deliciously sweet juice. You'll enjoy it year after year.

OKA—A Plum-Cherry Cross

A1627—Has highest quality of any in the Cherry-Plum group. Very productive, skin almost black. The deep purplish-red flesh is very juicy and sweet. Resembles large, sweet cherries and the quality is very good for eating or cooking. Ripens mid-August to early Sept. Remains a bush rather than a tree. Fruit stays edible on the bush three weeks after ripening. No 5- to 7-foot grade available.

Gurney's Hardy

GURNEY'S PLUM BARGAIN

A2182X
1 Kaga 3-4 ft.
1 Opata 3-4 ft.
1 Sapa 3-4 ft.
Free Gift
1 Oka Plum-Cherry 2-3 ft.
POSTPAID

ALL for **3¹⁹**

QUALITY PLUM COLLECTION

A2179X—Made up of 1 of the newest plums, 1 of the most popular plums, and 1 with probably the finest flavor of all:
1 Honey Dew, 4 to 6 ft. size—the newest.
1 Opata, 4 to 6 ft. size—most popular.
1 Tecumseh, 4 to 6 ft. size—best flavor.

All 3 for only **4³⁹** Express not prepaid.

Free Gift: 1 Sapa Plum, 3 to 4 ft.

WANETA

Hansen's Masterpiece
Largest Red Hardy Hansen Variety

A1637—You get big, profitable crops from Waneta. It is the truly delicious, old favorite. The fruit is very large and a gorgeous reddish-purple color. The flesh is tender, sweet, and juicy—of the finest quality. A sure bearer every year, and one of the best of all market plums.

Waneta was originated at the South Dakota Experiment Station by the late Dr. N. E. Hansen. The trees are vigorous, spreading, exceedingly hardy, and (very important) exceedingly productive. The bearing season is usually early September.

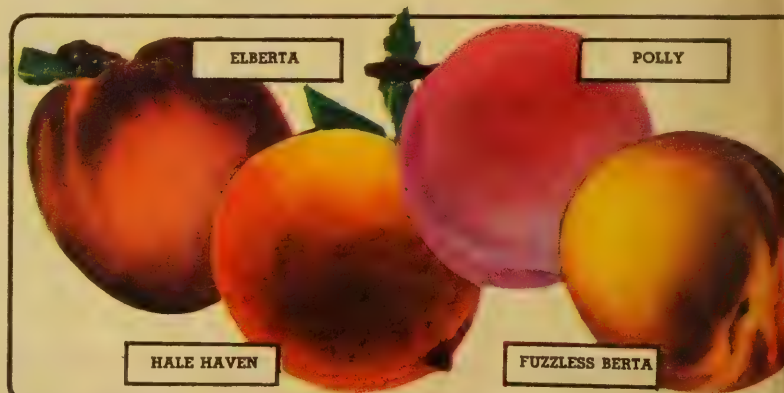

About Plum Pollinization

Plum trees ordinarily will set a fairly good crop of fruit when planted singly because bees carry plum pollen a long way and there usually are some plums in the neighborhood. However, for a really bumper crop, you should plant two or more varieties, at least one of which would be a good pollinizer. Three good pollinizers are Kaga, the new South Dakota, and Compass, listed on page 19. These three also bear good fruit. So to get the most fruit from your plums, include one or more of these three in your order.

UNDERWOOD — Bears in Canada!

A1635—Right type for the Northern States and Canada. It ripens early and grows well as far North as Winnipeg in Manitoba. Large, red, sweet and juicy, and hardy. Tree spreading, medium-size, productive. Fruit very high quality for eating fresh. Should be planted near pollinizer plums such as Kaga.

Northern PLUMS

Backed by 70 Years Plum Growing Experience

Plums have been a Gurney specialty for over 70 years. We offer you a complete line of plums, each one the best of its kind. All are budded on hardy plum seedlings—not on peach. (Beware of southern plum trees for the northwest because many of them are budded on peach stock.) All Gurney Plums are extra-hardy. They include 7 of the hardy Hansen plums: Waneta, Opata, Oka, Sapa, Kaga, South Dakota and Tecumseh. Underwood and Superior are Minnesota varieties.

Set 18 ft. apart. 130 to the acre. And don't forget that they not only produce a lot of delicious fruit but make beautiful decorative trees for the yard.

NEW "SOUTH DAKOTA" PLUM

A1633—Dr. Hansen's latest. Tree is hardy, vigorous and productive. Fruits medium-size, bright red over yellow with flesh that is yellow, tender and juicy. Fine for eating fresh, jellies, jams. A late plum. Fine pollinizer. 3 to 4 ft., 1.25 each; 3 for 3.59, postpaid. 4 to 6 ft., 1.65 each; 3 for 4.69, express not ppd. 5 to 7 ft., 1.95 each; 3 for 5.49, express not ppd. DeLuxe Grade, 2.59 each; 3 for 7.49, express not ppd.

Gurney's PEACHES

These are the hardest varieties. If peaches can be grown in your section, these will do well. All are strong, 2-year-old trees.

ELBERTA—the Standard
A1410—A large freestone with tender flesh, firm skin. Ripens 1st week Sept. Excellent shipper, good canner.

POLLY—the "Eskimo"
A1430—Has stood 15 below zero! Wonderful flavor, heavy bearer. This is the best white.

HALE-HAVEN—a Winner
A1420—A new freestone growing in popularity. Self-pollinizing; ripens 15 days ahead of Elberta. Is replacing Elberta in commercial orchards.

...FUZZLESS BERTA—NO FUZZ—Lots of Flavor

A1415—(Plant Patent No. 479). An absolutely fuzzless peach. Skin smooth as a plum and much more tender. Fruit a brilliant yellow with bright red cheek. Flavor about like

Elberta. Very small pit; absolutely freestone. Very thick layer of meat. Hardy anywhere peaches grow; bears after Elberta. 3 to 4 ft., 1.10 each; 3 for 3.19; 5 for 5.19, ppd.

Hardy Nebraska Apricot

A1210—Produces heavy crop of medium-sized fruit of sugar-sweet flavor. Very hardy. Parent trees have been growing in Nebraska many years. Same price as other Apricot trees.

APRICOT COLLECTION

1 Sunshine, 4 to 6 ft.
1 Hardy Nebraska, 4 to 6 ft.
1 Manchu, 4 to 6 ft.
A2053X—All 3 for 4.98. Exp. not prepaid.

Gurney's Hardy APRICOTS

"Sunshine"—New

A1230—Hardy; vigorous; matures mid-Aug. Introduced by South Dakota Experiment Station. Good quality, flavorful fruit size of Waneta plum. For home use; fruit inclined to be soft. 3 to 4 ft., 1.45 each; 3 for 4.10; 5 for 6.29, ppd. 4 to 6 ft. size, 1.85 each; 3 for 5.29; 5 for 8.19, exp. not ppd.

Manchu—Large Hansen

A1215—One of the hardest Apricots we offer. Trees very productive; fruit large. Excellent fresh; cooks to fine-flavored, pale yellow sauce. Probably the finest Apricot introduced by the late Dr. N. E. Hansen. We still consider this variety one of the hardest and best.

GURNEY'S DELUXE GRADE

of Apple—Pear—Plum—Cherry

Gurney's DeLuxe Grade of fruit trees is for those people who realize that the purchase of a fruit tree is, if properly made, a very enjoyable and profitable investment.

When these DeLuxe trees are graded, we use only the very finest of the 5- to 7-foot size on all fruits, excepting pie cherries and Oka plum-cherry, where the height is lower because they do not grow so tall.

Every single DeLuxe Grade fruit tree you receive has been carefully selected, is a jumbo size and a perfect

specimen that will come into bearing early.

The "Cream of The Crop"

Every one of these DeLuxe trees is well branched, with a straight trunk and an extra-heavy root system. The pruning points are plainly marked with white paint. There is a white ring around the base of the tree to clearly show the proper planting depth.

Complete planting instructions are attached to each tree to make successful planting easier for you.

GUARANTEED ONE YEAR

Every Gurney DeLuxe Grade fruit tree is guaranteed, if properly cared for, to be growing vigorously one year from planting or will be replaced absolutely free.

DeLuxe Fruit Tree Prices

Gurney's DeLuxe Fruit Trees are so big they are shipped Express Not Prepaid. Ask your nearest Express Agent to notify you as soon as your trees arrive.

6. Variety is shown on a permanent, metal label.

Why ALL Gurney's NORTHERN-GROWN Nursery Stock Will Do Better for You

"Whole Root" Buds for Your Protection

It takes a heavy root to produce a sturdy tree. Gurney's "whole root" bud all fruit trees. Only a sturdy, hardy root can survive our hot, dry summers and cold winters. "WHOLE ROOT" budded fruit trees can't be beat.

Hardy Anywhere

North, South, East or West, Gurney's fruit trees adapt themselves quickly. If they grow well under adverse conditions, they will do even better in milder climates. Select varieties recommended for your locality. Then you know you are getting stock adapted to your conditions.

True-To-Name Trees

Nothing is more disappointing than to buy and raise a fruit tree only to find out it bears the wrong kind of fruit.

That won't happen at Gurney's. Experts are constantly checking. All trees go through many inspections to assure you of only perfectly-graded, healthy trees; and more important, that you get exactly what you order. Remember, when you plant a Gurney fruit tree, you are planting for years to come. Gurney's GUARANTEE their fruit trees to be true-to-name or replaced FREE OF CHARGE.

Plant Early

We have always preached early planting—and we still do. Early planting means the stock gets established before the hot, dry, summer months. Yes, early planting means success. Remember, you can't plant early if you don't order early. Don't wait until the last minute but send in your order well in advance of the planting season.

Common Fruit Graft

This is an ordinary fruit graft, the kind you see so often and that often doesn't survive. Compare it with the heavily rooted Gurney bud opposite.

Gurney's "Budded" Type

This is the type of heavily rooted fruit trees you get at Gurney's. Notice how the entire seedling root is "budded" to the variety wanted.

Dark "All Red" DUCHESS

Best Summer Cooking Apple

A1019—If you like the Old Duchess of Oldenburg, you will go for the New Duchess in a Big Way. It ripens its juicy red fruit in August. For those delicious Apple Pies and Sauce, you'll find this New Duchess hard to beat. First degree of hardness.

YELLOW TRANSPARENT

Early, Yellow Summer Apple

A1110—One of the earliest of the Harvest Apples, ripening right after Early Harvest. An excellent eating apple and "what apple pies you can make with it!" Bears immense crops of yellow thin-skinned apples just "tart" enough for the best sauce and pies.

GURNEY'S WEALTHY

Favorite Fall Apple

A1105—This is too well known to need description. You are all familiar with its yellow background and covering of red, its white juicy flesh; the fine pies that can be made from it. You should also know that Wealthy is hardy and a leader of commercial or Home Orchard Apples for the North. If picked early and properly stored will keep until Christmas.

McINTOSH RED

Fall Apple—Good Keeper

A1061—To many the finest flavored apple we list. Bears for years and years. Beautiful red apples often with darker red blush, fragrant and of highest quality. A fall apple which will keep well into the winter in storage. Drouth and cold weather do not affect it. One of the hardest of all apples.

Northwestern GREENING

Mammoth Beautiful Fruit

A1065—Very ATTRACTIVE winter apple, with smooth, waxy clear pale yellow skin with a slight greenish tinge. Flesh is crisp and mild. One of the largest apples you can grow with apples measuring sometimes as large as 5" or more across. Popular for good quality and good keeping ability.

PRAIRIE SPY

Better Flavored Keeper

A1075—Attractive red color, very high quality, is productive, and hangs on the tree well. Because Prairie Spy is a good keeper and is so much better quality than Winesap and others on the market after Christmas, it is widely planted for home use and market.

Nation Wide Apple Collection

A2016X—1 each of McIntosh, Northwestern Greening, Prairie Spy, Early Harvest and Fireside—every one good grower anywhere in the U. S.—all big 4 to 6-foot size.

for only **4⁵⁹**

Express not prepaid; too big to mail.

EARLY HARVEST

Ripens in July

A1020—This is the earliest ripening apple that is hardy in the Middle West. Ripens in July ahead of most other apples and at a time most of us are "hungry" for them.

A yellow apple, good for cooking and eating, medium in size. For early apples, plant Early Harvest. This apple does not blight.

FIRESIDE

The New Super Delicious

A1025—Here is an apple of delicious quality yet hardy enough to grow and fruit in the far north. Trees large, vigorous, well branched. Fruit beautifully striped with crisp, firm, juicy flesh—never dry. Keeps all winter and bears every year. Developed at the University of Minnesota State Fruit Breeding Farm. We predict this will become the favorite apple of our area.

HARALSON

Hardest of All Winter Apples

A1040—If we add up all of the good qualities of all of the other apples and say "this is Haralson," we would not be saying too much for this big, red juicy fruit that keeps till summer, and is borne heavily and annually on a sturdy, strong branched tree. Bears fruit in three years.

All-Season APPLE COLLECTION

A2009X—1 each of Wealthy, Haralson, Yellow Transparent, Duchess and Anoka—all 3 to 4-foot trees (good planting size).

for only **3⁶⁹** POSTPAID

ANOKA

Often Bears First Year

A1000—Everybody plants Anoka. The earliest bearing apple. Little two-year-old trees in the nursery often bear several of these red striped apples. The quality is good and the juice is rich in flavor. Anoka bears annually and is Extra Hardy. Medium size.

5 Hardy, Northern Varieties

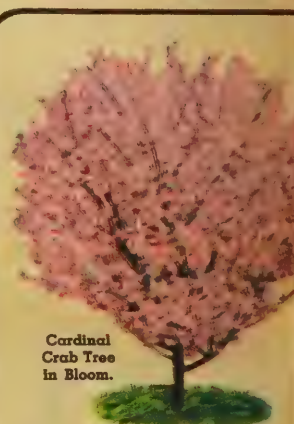

Bears Apples Early & Late

5-IN-1 APPLE TREE

A Whole Orchard on One Tree

Not an ordinary 5-in-1 apple tree, but one with 5 hardy northern varieties: Red Duchess, Yellow Transparent, Wealthy, Prairie Spy and Haralson. Good from Yankton north, better than ordinary varieties from Yankton south. Each apple bears in its own season, giving you a whole orchard from one tree. Now even the smallest yard can grow 5 different kinds of apples. No DeLuxe Grade available.

A1115—3.19 each; 2 for 5.89. A1114—3-in-1 Apple, 2.25 each; 2 for 3.98. Both Express not Prepaid.

Prices on DeLuxe Grade

See description of Gurney's DeLuxe Grade Fruit Trees on page 15. 5 to 7 ft. DeLuxe Apple Trees; 1.85 ea.; 3 for 5.29—except Delcon, 2.50 ea. and Almey, 3.50 ea. All sent Exp. not ppd.

(No DeLuxe Grade Sundog, 5-in-1, 3-in-1.)

HOW TO PLANT APPLE TREES

Set apple trees 25 to 35 feet apart. In setting your apple trees, prune them back severely, cutting all side branches to within 3 buds of main trunk and cutting off $\frac{1}{4}$ of the main lead. Each year prune injured limbs only. Northern orchardists do better by letting their trees grow in the bush form, letting bottom branches grow to within 2 to 3 ft. of the ground. Send for free pruning bulletin.

CRAB APPLES for Fruit and Beauty

NEW SUNDOG

A1080—This is just the Flowering Crab for the home yard as it has a rather narrow, columnar growth and will not take up a great deal of room. Sundog is one of the best of the brand new Canadian Rosy-Bloom Crabs—noted for their beauty and hardiness. A truly beautiful sight each spring with its wealth of deep pink blossoms. 3 to 4 ft., 3.50 ea., ppd. 4 to 6 ft., 4.00 ea., Exp. not ppd.

WHITNEY

A1107—An old favorite. Good if eaten fresh, and best for pickling. Fruit is large, sweet and juicy. Color is yellow with lively red stripes. Hardy, vigorous and a heavy bearer. Same price as regular apple trees.

DOLGO

A1017—This is the best one for jelly. Has beautiful snow white blossoms, and the best shape and foliage of any crab. Its glistening

crimson fruit makes a clear, sparkling red jelly. Fruits on 2-year-old trees. Hardy. Same price as regular apple trees.

CARDINAL

A1010—A beautiful tree and fruit. Blossoms are deep rich pink, almost red. Apples are brilliant scarlet, shaped like a small Delicious. Flesh is red to the core. Makes a very tasty jelly just the color of Port Wine. Wonderful as an ornamental.

Beautiful New ALMEY

A1002—A brand new Canadian crab apple with fiery crimson blossoms about the size of a dollar. One of the most colorful and beautiful flowering trees in America. The base of each petal is white, forming a white, five-sided star within the brilliant crimson of each blossom. Tree is hardy, vigorous, upright and healthy. Blossoms when young—often at 2 years. The fruit is a deep scarlet and hangs on well into the winter. 3 to 4 ft., 2.35 each, postpaid. 4 to 5 ft., 2.65 each, express not prepaid. DeLuxe Grade—3.50 each, exp. not prepaid.

GURNEY'S APPLES ARE TRUE-TO-NAME

To assure you of fruit that is True-to-Name, we have had our Apples inspected by the only True-to-Name Identification Service available in the Midwest, and a copy of their report appears below:

IOWA TRUENESS-TO-NAME IDENTIFICATION SERVICE

Sponsored by
The Iowa State Horticultural Society
Established in 1952 Horticulture building
A. E. Cott Ames, Iowa
Gurney Seed & Nursery Company October 2, 1952
Yankton, South Dakota

TO WHOM IT MAY CONCERN:
This is to acknowledge that all of the saleable apple trees now growing in the nursery of Gurney Seed & Nursery Company, at Yankton, South Dakota are, to the best of my knowledge, true to name as they now stand in the nursery rows.

Sincerely, A. E. Cott

the NEW DELCON

A True Dwarf—a small tree with large apples. Ideal for small lots, yards and home orchards.

A1014—An apple tree tailor-made for the small lot. Delcon normally doesn't get over 12 feet tall, yet bears loads of beautiful, delicious, dark red, full-sized apples shaped like Delicious. The flavor has all the best qualities of two of its parents, Jonathan and Delicious, while the tree itself seems to have inherited additional hardiness from

its third contributor, Ben Davis.

Delcon is a remarkable tree originated 20 years ago by the Missouri Fruit Experiment Station. Should have been on the market years ago. It is a single-graft, true dwarf. Much less expensive than \$4.00 to \$6.00 multi-graft dwarfs, and yet better. 2 to 4 ft.—1.79 each, ppd. DeLuxe Grade 2.50 each, Exp. not prepaid.

BEAR EARLY AND HEAVILY

DOUGLAS PEAR

A1509—This is the new fall pear which bears almost at once after planting. Generally loaded year after planting. Fruit is large, yellow, and may be allowed to stay on the tree until fully ripe. You don't have to bother wrapping them. This is one of the most blight-proof of all the pears.

SECKEL (SUGAR) PEAR The Sweetest of All

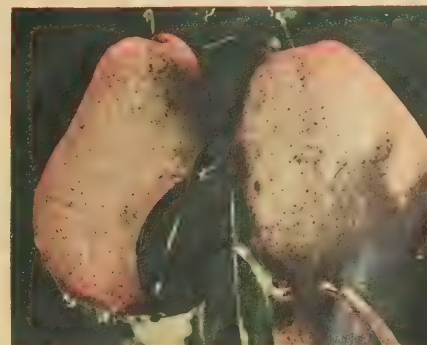

A1529—These are SECKEL or SUGAR PEARS. As sweet a flavor as its name, "Sugar Pear," suggests. Good right off the tree and for desserts. Small in size but large in quality. A russet coat covers greenish yellow skin.

GURNEY'S PEAR BARGAIN

You get 1 each of the 3 hardest, and most popular of our pears. All heavy 4 to 6 ft. trees.

1 LINCOLN PEAR, large, sweet, juicy.
1 BARTLETT, fanciest and finest.
1 PATTEN, another fine pear.

A2138X—ALL 3, 4.19 Exp. not ppd.

COLETTE

The Everbearing Pear

A1507—(Pat. Pending.) This is a real innovation in the fruit world and we are pleased to offer Colette the first year of its introduction. To the best of our knowledge no everbearing pear has ever been offered before. Colette is truly everbearing. It blooms and bears like a normal pear, then keeps on blooming and bearing more pears on the new growth all summer. An ideal home or backyard tree. Quality is second to none. Has no grit or rotting at the core!

2 to 3 ft., 2.25 ea.; 3 to 4 ft., 3.25 ea., ppd.

Gurney's Hardy PEARS

Pears grow upright, so can be planted as close as 14 to 16 feet apart. At 16 feet, takes 170 trees per acre. Pear trees bear early and heavily, and no other fruit compares with them in aroma, lusciousness, or range of flavors. Plant both summer and winter pears; wrap the winter pears in paper for mid-winter feasting.

DE LUXE PEAR PRICES

See description of DeLuxe Grade Pears on page 15. 5 to 7 ft. DeLuxe Grade Pear trees, 2.39 each, express not prepaid.

No Colette Pear DeLuxe Grade.

HOW TO GROW PEARS

Plant pears 14 to 16 ft. apart. Though the pear succeeds best in heavy, moderately fertile soil retentive of moisture, no one need hesitate to plant it in any soil available if it is well drained. Tillage and fertilizing are the same as for the apple except that nitrogenous fertilizers must be used more cautiously to prevent lush growth. Pruning and training are similar to that of apple.

The Famous LINCOLN PEAR

A1517—The most dependable pear. Large, good flavored. It has been producing a heavy crop every year for 16 years on George Gurney's farm. Even in a drouth year, 3 young trees produced 14 bu. Ripens about September 15. In big demand on the market. A good commercial variety and one of the best home pears.

THE GIANT BARTLETT The Earliest Pear of All

A1502—The leading commercial variety, one of the most popular for dessert and canning. Fanciest and finest of all pears. Rich golden yellow with rich pink blush. Good keeper and shipper. Early. Pointed top and wide at base. Tree is vigorous, hardy and bears young.

PATTEN

A1524—This pear is healthy, hardy and productive. Bears a LARGE, YELLOW fruit with the RICHEST JUICE OF FINE FLAVOR. The skin is THIN, and QUALITY EXTRA GOOD. We recommend this pear to both northern and southern planters.

▲ CUMBERLAND Favorite Black

A2842—You will want this delicious BLACK RASPBERRY. Enormous crops of big, juicy, fine flavored berries. Not seedy either. Excellent for home or market. You can't go wrong with this variety. 6 for 1.10; 12 for 1.92; 25 for 3.75; 50 for 6.34; 100 for 11.49, postpaid.

PARK—**New Black Raspberry**

A2854—The finest black raspberry we have ever seen. Originated at Des Moines, Ia. Hardy, healthy and very disease-resistant. The meaty, juicy berries have fine, rich flavor. Large berries and loads of them. 3 for 98c; 6 for 1.89; 12 for 3.69; 25 for 6.98; 100 for 19.75, postpaid.

RED RASPBERRIES**INDIAN SUMMER—The Two Season Berry**

A2878—A fine everbearing Raspberry. The quality is fine, it is early and heavy bearing. Harvest two crops of fruit each year from this hardy Raspberry. Does well even in Canada. 6 for 1.49; 12 for 2.79; 25 for 4.98; 50 for 9.25; 100 for 16.98, ppd.

GIANT LATHAM Does Well Everywhere

A2883—Regardless of where you live, this Raspberry is good. Fruit is large, often an inch long. Here's a vigorous grower that produces an enormous crop. Minnesota's great market berry. 6 for 1.39; 12 for 2.39; 25 for 4.35; 50 for 8.25; 100 for 14.98, postpaid.

CHIEF—Drouth-Resistant

A2871—Early, drouth-resistant, hardy. This raspberry has proven itself as one of the finest reds—even up into Canada. If you like a large, rich, bright red berry, you'll like Chief. 6 for 1.25; 12 for 2.39; 25 for 4.19; 50 for 7.75; 100 for 13.98, postpaid.

GIANT LATHAM

MONTMORE

New Early Bearing Montmorency

A1335—This improved, dwarf-sized Montmorency often bears the first year. Only grows about 10 to 12 ft. high but it still produces a full-size crop because the trees set anywhere from 12 to 25 ft. broad and the cherries are much thicker than on Montmorency. Also larger and of a better quality. It is darker—black-red. Trees will bear anywhere from Georgia as far north as cherries will grow. Just as hardy or harder than the Montmorency. Do not pick until cherries are deep red.

Following are prices on Montmorency:

	Each	Per 3	Per 5	Per 10
2 to 3 ft. postpaid....	1.39	3.98	6.45	12.39

4 to 6 ft.				
Exp. not prepaid....	2.20	6.29	9.95	18.98

EARLY RICHMOND

The Early Pie Cherry

A1311—The cherries have a bright red skin and red juicy flesh. The flavor is quite tart and marvelous for pies or canning. It is a strong grower and a heavy producer. You people south of southern Minnesota and southern South Dakota have ideal conditions for Pie Cherries. We consider it one of the very finest pie cherries on the market.

HYBRID BUSH CHERRIES

Much larger and tastier fruit than the old Hansen Bush Cherries and better growers. **1.49 ea.**, 3 for **4.19**, ppd. Choose from following:

A1351—BROOKS. Dark red fruit, almost as large as regular cherries. Bears heavily the second year. Bush is compact and shapely.

A1350—BLACK BEAUTY. This is the newest selection of the bush cherry. The fruits are very dark, glossy, black maroon-red. Almost as large as tree cherries. Fruit red for eating, canning and pies.

A1352—SILOX. Extremely large cherries—5/8" or better across. Purplish black, shiny with greenish flesh. Juicy and sweet. In the vicinity of Mn. this cherry fruits about the second week of August. Earlier south of there.

MONTMORENCY

The World's Favorite Cherry

A1336—The fruit is large, with firm flesh of fine flavor. The cherry is a bright red, and wonderful for canning and preserves.

Montmorency has proven itself wherever it has been planted. It is a tree of vigorous habits and always seems to have the ability to produce a crop in spite of conditions. This is one of the reasons Montmorency has often been called the world's favorite cherry.

The tree is adapted to wide variations in environment, as it is tolerant of most soils and can withstand great heat and cold. Fruit is fit for use several days before it is ripe, making it very valuable as a commercial cherry.

BLACK TARTARIAN

The Large, Black, Sweet Cherry

A1302—This dependable, large, black and delicious sweet cherry has been one of our most popular varieties for years. If you live where sweet cherries can be grown, plant several Black Tartarian and you can harvest quantities of large dark fruit in your own back yard. Not fussy about soils.

A healthy tree that is robust, bears regularly and lives to a ripe old age. You must taste the fruit to appreciate its sweet, rich, juicy flavor. Flesh is firm and crisp.

YELLOW GLASS

Birds Don't Bother It!

A1340—If you are looking for a cherry—and a yellow one at that—which will literally load itself down with a tremendous crop of fine, golden cherries, Yellow Glass is it. Has flavor that is every bit as good, and some consider it better, than the delicious Bing cherry. Hardest of all the sweet cherries.

You will also appreciate the fact that, because the fruit is yellow, the birds leave it alone. Try Yellow Glass—the hardest of the sweet cherries.

METEOR

New Hardy Pie Cherry

A1332—At last we can offer a Hardy Pie Cherry to all of our Northern friends. Developed by the Minnesota Fruit Breeding Farm as Minn. #66, it has produced a crop of fine cherries every year, even after very severe winters when most other varieties killed out.

The fruit is as large as Montmorency, bright red in color, and of very good quality for pies or sauce. Mildly acid in flavor and a real treat for all who enjoy sour cherries as a dessert. We highly recommend Meteor as it is the cherry so long sought by all.

Supply limited, so order early.

3 to 3 1/2 ft. **3.50**, each; 3 for **10.15**, ppd.
3 1/2 to 5 ft. **4.00**, each; 3 for **11.65**,
Express Not Prepaid.

No Deluxe Grade this year.

Gurney's HARDY CHERRIES

SEE ILLUSTRATIONS AT LEFT

Gurney's Cherry Trees are extra-heavy rooted, well-branched, and of extra-heavy caliper. All budded on hardy understock to give a long-lived tree.

Set 18 feet apart, each way, or 130 to the acre. Keep the ground around them cultivated if you can, but cherries will do very well even when surrounded by a heavy sod.

HYBRID NANKING CHERRIES

HYBRID NANKING CHERRIES

Most outstanding new fruit introduction in the last 10 years. A bush cherry far superior to the western kind. Fruit is about the size of Early Richmond and is wonderful for pies, canning, preserves or jelly. Beats them all when eaten fresh. The cherries are a deep red, with firm, tender, sweet flesh and small pits. Will grow to height of 10 feet, but can be kept down to 4 feet by pruning. A beautiful ornamental shrub covered in spring with white flowers followed by dense foliage. Plant at least three for best pollination.

A1365—Nanking Hybrid No. 20, 1.75 each; 3 for 4.95, postpaid.

A1366—Nanking Hybrid No. 41, 1.75 each; 3 for 4.95, postpaid.

A1367—Nanking Hybrid No. 42, 1.75 each; 3 for 4.95, postpaid.

NANKING CHERRY

A1364—Here's a beautiful flowering cherry that provides an abundance of fine flavored, high quality fruit. It's a rare treat to see in the spring with loads of showy blossoms along its branches. Fruit is an attractive red, juicy and delicious. Its distinct flavor makes it fine for canning and pies. Good strong plants **79c each; 3 for 2.19, postpaid.**

Gurney's Giant RED-FLESHED Cherries

A1355—You've never seen more giant (plum-sized) fruit on one bush cherry in your life. Dark purplish-red skin and flesh. Actually classified as a plum and good eating like a plum. Grows 4 to 6 feet tall and a tremendous yield for its size. Fine as an ornamental. 2 to 3 ft.—**1.10 each; 3 for 3.19, postpaid.**

HANSEN'S IMPROVED BUSH CHERRIES

A1359—The miracle plant that grows like a bush and is covered with blossoms from one end to the other. A beautiful ornamental shrub, grows from 4 to 5 feet high. This improved strain of the original Hansen hardy dwarf Bush Cherry yields almost as much fruit as a Plum tree and there

FREDONIA—King of Blacks

A1325—It is early, in fact, three weeks earlier than Concord. Very hardy, a very heavy producer and a vigorous grower. The bunches are compact and the berries really have the most wonderful flavor—you won't go wrong with a few Fredonia. **50c each; 2 for 84c; 6 for 2.28; 12 for 3.84; 25 for 6.25, postpaid.**

BETA—Hardest of All

A1304—Here is a tame grape with the tang of the wild. Best for the North, for it is fast (15 to 20 ft. in 1 yr.) in growth and hardest of all. It produces large quantities of fruit that is almost black—juicy—fine for arbors. No winter covering needed. **50c each; 2 for 84c; 6 for 2.28; 12 for 3.84; 25 for 6.25, ppd.**

BUFFALO—New Black Grape

A1305—A very early black grape ripening early in Sept. Vine is vigorous and highly productive. Is of about the same hardness as Concord. Clusters are tapering and compact and the individual berries are juicy, melting, very sweet and mighty good. **79c each; 2 for 1.48; 6 for 3.89, postpaid.**

"SEIBLE 1000"—Hybrid Grape

A1349—Very good cross of a leading French wine grape and an American wild grape. Fruit jet black, with a high percentage of sugar; very good for juice or wine and also good eating. The skins are tender and good, too. Vigorous grower and heavy yielder. Should do well over most of our country. **79c, postpaid.**

NIAGARA—Best of the Whites

A1339—Niagara is the leading favorite in "white" grapes because the large fruit has such a delightful flavor. The vine is hardy and extremely productive. Does very well here at Yankton. Your grape arbor should contain at least 6 Niagara. **50c each; 2 for 84c; 6 for 2.28; 12 for 3.84; 25 for 6.25, postpaid.**

RED CACO—Big Clusters

A1310—The sure-crop red grape. Always bears big clusters of rich red grapes, even in hottest summers. Makes most beautiful jelly. As Concord is the most popular blue-black grapes, so Caco is the most popular of the red grapes. **50c each; 2 for 84c; 6 for 2.28; 12 for 3.84; 25 for 6.25, postpaid.**

Gurney's GRAPES

CONCORD

A1311—The most popular grape in the United States. Matures early, keeps well, ships well and sells well. The berries are in enormous bunches and are blue-black, juicy and delicious. Great for grape juice. **45c each; 2 for 70c; 6 for 1.68; 12 for 2.64; 25 for 4.75; 100 for 16.50, ppd.**

All Gurney Grapes are strong, heavy plants that give quick results. They are well-rooted and will please you. The varieties listed are the hardest. They can be grown on a fence or an arbor, or in a vineyard. Plant about 5 to 8 ft. apart in rows 6 ft. apart. In planting out the tops back to 3 to 4 buds, and prune the roots slightly. Put up a support for grapes the second year. Prune each year.

The grapes we list are exceptionally hardy and with very little attention have wintered the most severe conditions. All they require is a light covering in winter to protect the buds.

PLANT THESE 2-YEAR TRANSPLANTS

They Bear Sooner and Heavier

Large, heavy-rooted plants that cut planting loss to a minimum. Often produce a considerable amount the first season. We highly recommend these plants for quick results.

A2892—Latham Red Raspberry. 2-yr. transplants. 3 for 95c; 6 for 1.65; 12 for 2.98; 25 for 5.49, postpaid.

A2890—Chief Red Raspberry. 2-yr. transplants. 3 for 95c; 6 for 1.65; 12 for 2.98; 25 for 5.49, postpaid.

A2891—Indian Summer Red Raspberry. 2-yr. transplants. 3 for 95c; 6 for 1.75; 12 for 3.25; 25 for 6.29, postpaid.

A2861—Cumberland Black Raspberry. 3 for 1.29; 6 for 2.25; 12 for 4.29; 25 for 7.98, postpaid.

BOYSENBERRIES

HOW TO PLANT: Set 6 feet apart each way. Lay a ground first winter and mulch with straw after cold weather. Next spring, train on wires. After fruiting, cut out canes that bore. Leave new shoots on ground, winter protect again and re-train the following spring. Doubtfully hardy north of Missouri, so protect.

BLACKBERRIES

New EBONY KING The Upright Blackberry

A2804—This is the new, upright Blackberry that is sure to bear heavy crops of large, sweet, full-flavored berries each year. Has withstood 22 degrees below zero without damage to the fruit buds. Very good for canning. Strong plants that stand up under heavy crops of big blackberries. 3 for 98c; 6 for 1.79; 12 for 3.39; 25 for 6.50, postpaid.

ELDORADO

A2805—This ever-popular Blackberry

MAMMOTH BOYSENBERRY

A2832—Biggest berry of all. Cross of Loganberry, Raspberry and Blackberry. A heavy bearer of deliciously flavored fruit. 3 for 75c; 6 for 1.25; 12 for 2.29; 25 for 3.89; 50 for 6.98; 100 for 12.98, postpaid.

New THORNLESS BOYSENBERRY

A2834—Same as the Mammoth, except this one is thornless for easy picking and cultivating. Great big berry of delicious flavor. 39c each; 3 for 89c; 6 for 1.25; 12 for 2.29; 25 for 4.19; 100 for 15.98, postpaid.

ALFRED

A2800—A beautiful, glossy, jet black berry with a wonderful sweet flavor. Nearly seedless, too. Produces mammoth berries even in the cold section if given a little winter protection. 6 for 98c; 12 for 1.79; 25 for 3.19; 50 for 6.00; 100 for 10.49, postpaid.

A2230X—6 each of Alfred and Eldorado—all you will need for pies, canning and eating fresh. **1.69, postpaid.**

NATIVE FRUITS

NATIVE FRUIT BARGAIN

3 Choke Cherry, 2 to 3 ft.
2 Wild Black Cherry, 2 to 4 ft.
5 Sand Cherry, strong plants.
2 Buffalo Berry, 2 to 3 ft.
A2201X—3.19, ppd.
FREE: 2 Mother Gurney Mulberry.

These are the native fruits that we all enjoy so much, but seem to forget to plant on our own places. We have priced some of them in small sizes and very low prices, so you can have plenty. They are all hardy and can take any amount of adverse weather.

CHOKE CHERRY

A1704—Here is a beautiful ornamental with spicy fragrant flowers produced like great banks of cherries. You can set a few in the garden, or they are excellent in the windbreak. Postpaid.

	Per 5	Per 10	Per 25
6 to 12 in.	.49	.95	2.15

3 to 4 ft. ppd.	1.95	3.75	

Compass Plum Cherry

A1705—This fine early bearing cherry-plum cross is one of the best known in this entire country. Here is a cross that will yield a tremendous crop of bright red fruit the second year after planting. Compass is best known for its jams and jellies; however, many prefer to eat Compass fresh from the tree.

Wild Black Cherry

A1736—This is a very gorgeous tree. It bears flowers in large white clusters in early spring and then, in August, bears a great abundance of edible fruit. Hardy, rapid grower, and makes a large tree.

2 to 4 ft.
Size Each Per 5 Per 10
ppd. .89 4.29 7.98

BUFFALO BERRY

A1702—One of the finest of shelter belt and windbreak plants. Also bears great clusters of fine edible berries that make delicious jelly. Silvery leaves with ropes of bright berries.

2 to 3 ft. seedlings, 50 ppd. .98 1.85 8.49

SAND CHERRY

A1728—A bush fruit that makes an excellent ornamental or hedge. The fruit is good for canning or sauce, or to eat from the bush.

A strong grower and hardy. Drought resistant. Will produce heavy crop year after planting. Strong Plants: 2 for 39c; 10 for 1.59; 25 for 3.29, ppd.

Gurney's Hardy Northern Crown STRAWBERRIES

Strawberries Best Source of Healthful Vitamin C
According to the New York State Agricultural Experiment Station, 100 grams of strawberry fruit contains an average of 62 milligrams of Vitamin C. An equal amount of oranges, 35 to 55; grapefruit, 35 to 40; tomatoes, 15 to 30; apples, 5 to 15. Eat strawberries for health, too!

Here's Why So Many People Grow Strawberries

No fruit is easier to grow, nor yields more heavily, nor more quickly, with less space and less trouble, than strawberries. You can set out 50 strawberry plants in your back yard, in a space no larger than a blanket, and one year later you probably will get 50 quarts of fruit. It is no trick at all to set out 100, or 200, or 300 plants, and if you want to grow larger quantities for a cash crop, strawberries will make you more money per square foot of ground than almost anything you can grow. Some farmers make more money from a few acres of strawberries than other farmers make on a 160-acre general farm. You can even get people to come to your place and pick their own berries and pay you for them.

By planting both June-bearers and everbearers, you can stretch your strawberry season. The everbearers bear a good crop early, and another late. The June-bearers bear their whole crop in a few weeks, which is ideal if you want to freeze or preserve them all at once and get it over with.

EVERBEARERS

You should have a bed of everbearers so you can have strawberries throughout the growing season. We recommend these 5 as the best of the everbearers.

STREAMLINER—The Sweetest

B4131—The strawberry you will enjoy without sugar; sweet as honey. Requires less sugar for canning. Berries are jumbo-size. Mammoth yields from July until freezing. This is the ideal everbearer for your garden. Up to one quart of berries per plant. Strong vigorous plants.

Sensational NEW RED RICH

B4126—(Patent Applied for.) A cross of Wayzata everbearing and Fairfax June-bearer, by Marion Hagerstrom of Enfield, Minn. Red Rich is the result of a chance seedling, one in a million, that is good on all counts, retaining all the good qualities of both parents. Has very high quality and honey-sweet flavor. The fruit is very large and a deep red clear through. Especially good for freezing; does not mush when thawed; requires little sugar. One of the highest yielding Everbearers; 4,000 quarts were picked from one acre. Has a large crown and root system. 10 for 2.98; 25 for 5.00; 50 for 8.49; 100 for 14.98; 200 for 26.00; 500 for 55.50; 1000 for 97.50. All postpaid.

SUPERFECTION

The Leading Everbearer . . .

B4132—Superfection produces more fruit than any other everbearing variety. In 1951, Dr. Denison, of Iowa State College, tested several varieties and Superfection bore more fruit than any other variety (estimated 13,000 quarts per acre).

The berries are large, bright red, richly flavored and very sweet. Superfection is a very strong grower and a fine plant maker that bears two extra-heavy crops of fruit a year. Self-pollinizing, so can be planted by itself. Plant a couple of rows across your garden and you will really be amazed at the tremendous crop of fine, luscious berries you will harvest.

25 for 2.15; 50 for 3.75; 100 for 6.25; 200 for 10.99; 500 for 25.98, postpaid. 1000 for only 45.50; Express not prepaid.

GURNEY'S "NEW HARDY"

An Improved Everbearer (Minn. 1166—Evermore)
B4113—For several years our customers have bought more New Hardy than any other kind we sell. Why? Because it has proved its worth by producing heavy crops of big, red, sweet berries—even under the most adverse conditions. We believe it is the best for all northern growers, especially you folks north of central Iowa and central Nebr. Plants are extra large, thrifty and you will harvest huge crops of fine flavored berries from June 'til frost. Bears the first year.

JUNE-BEARERS

Below are shown the early, heavy bearers that are so welcome in June. You can't find better varieties than these four.

. New ROBINSON Finest June-Bearer

B4127—The finest medium-late berry to date. Ripens right after Premier. The large conical brilliant scarlet-red fruits are firm and glossy and bring premium prices on the market, as it stands shipping excellently. Delicious for table use and a wonderful canner and preserver. The foliage is a beautiful light green, thrifty and heavy. And the plant makes runners profusely, which always makes an ideal picking row.

Postpaid: 25 for 98c; 50 for 1.49; 100 for 2.75; 200 for 4.98; 500 for 11.75.—
OR—1000 for 21.00, Exp. Not Prepaid.

Freezebox Collection

B4213X—Gives you oodles of berries and, being June-Bearers, you can freeze or can all at one time and get the job over with.

The New Heavy Bearing GLENMORE

Hardy June-Bearer from Canada

B4114—Glenmore is new in the United States but not untried. It is one of the leading varieties in Canada because of its high yield and superb quality. Here at Yankton in 1948, when many other varieties were killed by an unusually severe winter, Glenmore came through without any loss.

The fruit is medium to large, bright red and very firm. Ripe berries may even be left on the vines an extra day or two without spoiling. The flavor is excellent and here at Yankton it has yielded almost TWICE AS MUCH FRUIT as any other variety.

We recommend Glenmore as the best June-Bearer for our northern states. Try at least 25—**WE KNOW YOU WILL BE PLEASED.**

25 for 1.39; 50 for 2.35; 100 for 4.25; 200 for 7.65; 500 for 17.98, postpaid. 1000 for 33.98, Exp. not prepaid.

The New ARMORE . . .

B4102—A brand new June-bearing strawberry. Produces very heavy crops of large, fine-flavored berries. Armore is a cross between Aroma and Blakemore and was developed by the Univ. of Missouri. Outyields both its parents. Very resistant to leaf spot and other leaf diseases. We have had wonderful reports from all who have tried this new berry. Armore should become one of the most popular of all strawberries because of its fine quality and its ability to produce such a large crop of big berries throughout its bearing season. We don't have too many of this fine new variety on hand, so it's first come, first served. Supply limited, so order early.

25 for 1.39; 50 for 2.35; 100 for 4.25; 200 for 7.65; 500 for 17.98, postpaid. Try 1000 for 33.98, Exp. not prepaid.

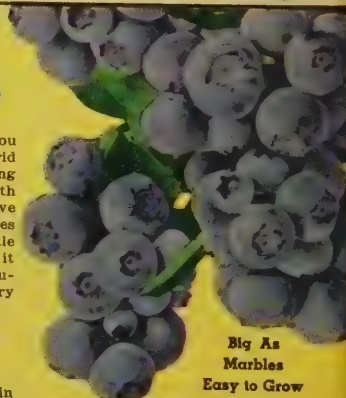

New Hybrid BLUEBERRIES Now You Can Grow Them

Real Blueberries big as marbles. You can now grow the real genuine Hybrid Blueberries in your own yard. For a long time we have been experimenting with big Blueberries from the east. We have found it very easy to grow Blueberries in the Midwest simply by adding a little aluminum sulphate to the soil to make it acid. So we send you a package of aluminum sulphate free with your blueberry plants.

Named Varieties of Giant BLUEBERRIES

Truly as big as marbles. Delicious in flavor. Berries ranging up to the size of marbles just covering the plant. Big, upright shrubby plants growing to a height of 5 ft. or more and as broad. We will only sell these in collection of three, as several varieties of blueberries must be grown together to get a good set of berries. Plant 6 ft. apart. We are offering the newest and finest sorts of 3-yr.-old plants.

Big As Marbles
Easy to Grow

A2260X—HYBRID BLUEBERRY COLLECTION

1 Ruble 12 to 15", 1 Concord 12 to 15", 1 Stanley 12 to 15". With 1 lb. Aluminum Sulphate and complete directions for making the soil acid. New Low Postpaid Price.

\$2.98

1st Generation
COL. C. W. GURNEY
Founder—1840-1913

Pioneer seedman and nurseryman of the Northwest. Col. C. W. Gurney began his life work in the seed and nursery business upon leaving the service in the Civil War. Almost the entire last fifty years of his life were devoted to making this mid-west a better place to live in. He was a firm believer in promoting plantings throughout the entire country.

It is from such distinguished heritage that the Gurney Seed & Nursery Co. of today emanates.

2nd Generation
GEO. W. GURNEY
President

Dear Folks:

I hope that most of you have read my message on page 2. This new catalog marks the beginning of another season and I heartily hope it proves to be very successful for each and every one of you.

Many of you folks need advice on pruning, planting and the like. Why don't you drop me a line or send a letter to Sid. Our entire organization has but one thought in mind—to better serve you in every way possible. "The Best Possible Stock at a Fair Price" has always been our motto and I intend to see that the folks here at Gurney's live up to it.

3rd Generation
SID. W. GURNEY
Vice-President

Sid's main job, among his many, is to see that the thousands of orders coming in are kept straight and moving out as rapidly as possible. He has spent his entire life in this business and is always glad to help any of you folks in any way that he can.

Many of you probably enjoy his "Planter" program on Saturday mornings, when he spends 15 minutes answering questions on growing things. If you live in the vicinity of radio station WYAX, Yankton, S. D., listen to his program at 9:10 A.M. each Saturday.

Satisfied GURNEY CUSTOMERS

READ WHAT THEY SAY

Gurney's: Received the shipment of plants and they arrived in fine condition. I thank you so much for sending them and think these will do well as they look very nice.

Mrs. Andrew Nelson
Foxholm, N. D.

Gurney's Nursery Co.
Dear Sirs:

The iris that I ordered from you arrived and I am well pleased with it. Hope to do business with your company in the future.

Sincerely,

Mrs. Carl E. Taylor,
Albencarle, N. C.

Gurney Seed Co.

Gentlemen: The Crocus I ordered from you last fall were the admiration of my neighborhood. The flowers the largest I ever saw.

Mrs. Jennie McCoy
Churbusco, Indiana

Gurney Seed & Nursery Co.

Dear Sirs: Got the strawberry plants O. K. and set them out that evening. Got the Mum Collection the day I mailed my letter. They are growing and also the Canterbury Bells. Thanks for the free gift.

Gertie M. Borden
Arriba, Colo.

Thank you for replacing the unsatisfactory nursery stock.

A. L. Griffin,
Belleville, Kansas

Gurney Seed & Nursery Co.

Dear Sirs:

The strawberry and raspberry plants arrived in good condition and are growing satisfactorily. Thanks for the extra shrubs sent.

Sincerely yours,

Mary E. Stratton
Rt. 1, Bx. 41,
Newberg, Ore.

Dear Gurney's:

I can't say enough good about Bug Dust. I haven't had a bean beetle, nor a rose bug, nor any aphids or Jap beetles. People look at our garden to see for themselves that this is true.

Yours truly,

Mrs. Marie K. Tress,
Pittsburgh, Pa.

Mrs. Hattie Hogan

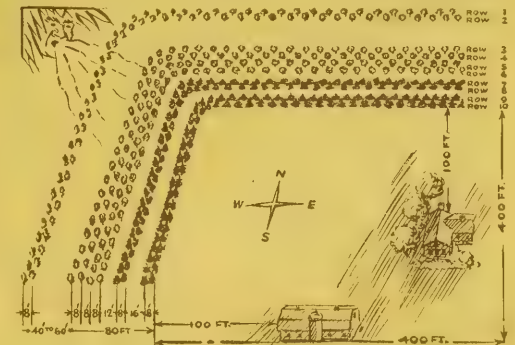

Roy, Montana
and her Gurney Windbreak

HOW TO PLANT A WINDBREAK

A good windbreak which will protect the home and feed lot from winter winds, is easy and inexpensive to plant, and practically takes care of itself.

Besides, it is a source of firewood, lumber and posts. You also have a never-ending source of satisfaction in having something green and cooling right at hand for both man and animal. Gurney's have been supplying quite a share of the entire country with hardy windbreak trees for 3 generations.

You will find below a drawing of a typical windbreak for cold, winter winds. You have a large assortment of trees you can choose from according to your taste and needs. But it is a general practice to put the low-growing trees on the outside, with the tallest varieties in the rows about 1/2 of the way in from the outside. Then finish out on the inside rows with the lower-growing types. Evergreens are very fine on the inside rows.

Here Are Our Suggestions:

Rows 1 and 2: Caragana, Russian Olive, Native Plum seedlings, Willow or Mulberry. Set the plants 4 to 5 ft. apart in the row. These are the snow catcher rows. Leave 40 to 60 ft. between them and the next.

Rows 3 and 4: Green Ash, Chinese Elm, Hackberry, American Elm, Box Elder or Silver Maple. Plant 6 to 8 ft. apart in the row with rows 8 ft. apart.

Rows 5 and 6: Use your tall trees here—Scotch Pine, Cottonwood, American Elm, Chinese Elm, Black Walnut, Hackberry or Norway Poplar. Plant these 8 ft. apart in the row with rows 10 ft. apart.

Rows 7 and 8: More tall trees, especially in row 7. Cottonwood, Norway Poplar, American Elm, Hackberry, Chinese Elm, all 8 ft. apart in row. Or, Colorado Blue Spruce, Black Hills Spruce, Scotch Pine or Norway Spruce, all 8 ft. apart, with rows 8 to 10 ft. apart.

Rows 9 and 10: Pine, Spruce and Cedar are fine in here, or use the Russian Olive and Caragana. If Evergreens used, set 8 ft. apart in row. For Russian Olive and Caragana, set 5 to 6 ft. apart in row. All rows should be 8 ft. apart.

An Easy Way to Plant

A quick, easy way to plant windbreak trees is to first take a walking plow and throw out a deep furrow along the row of trees to be planted. (Plow fast enough so as to throw the dirt well out of trench.) Second, put each individual tree against the straight edge of the furrow and throw the loose dirt back in over roots. Pack firmly with feet. **CUT ALL SEEDLING TREES BACK TO LESS THAN HALF THEIR HEIGHT AS SOON AS PLANTED** (except Evergreens which need no pruning). Keep well cultivated the first two summers.

Why It Pays to Order from Gurney's

Northern Grown Is Always Best

Right here at Yankton is where we grow most all of our stock and that means it has to be extra hardy so that it can stand our cold winters and hot, dry summers. In other words, if our stock doesn't have the extra vim and vigor to stand this severe climate, we just don't have it to ship. That is the kind of nursery stock you get when you order from Gurney's.

There is nothing so important in a plant as the ability to get started right, and keep on growing, even if the weather conditions and soil aren't just right.

True to Name

One thing you can depend on when you buy from Gurney's is that what you get is what you ordered. Regardless of whether it is seed, nursery stock or chicks—it will be true to name. We have been in this business for over 87 years, and we intend to be in it at least 87 more years, so we are not going to start now to try to fool our customers. It can't be done, and we don't intend to try it.

State Inspected Stock

All nursery stock shipped from Gurney's carries a state inspection label that certifies our stock has been inspected and found free from disease, insects, etc., and has passed all state laws as to quality. We want you to have the very best possible.

Place Your Order Early

If possible, please order in January or February. This gives us plenty of time to get your order booked and all ready for shipment the moment the weather breaks in your locality. Early planted stock does better because it has a chance to take advantage of early moisture and get established before the hot, dry period.

How to Make Remittance

Your check is good with us here at Gurney's. In fact, to make it easier for you to order, you will notice we have put a check blank on the bottom of every order blank. You are welcome to use it or, if you wish, a bank or money order will be fine. We do not encourage cash payment; however, if you insist, please register your letter for your own protection. It is embarrassing to both of us when cash is lost and there is probably no question but what you sent the cash and it never reached our organization.

Please—No C.O.D.'s

One of the reasons we can sell better goods at lower prices is because we do not maintain an expensive department to handle C.O.D.'s. Anytime you order something C.O.D. you have to pay the post office's C.O.D. charge. Why not save that?

How We Ship

Most items such as garden seed and merchandise are shipped at once. Nursery stock is shipped at the proper planting time in your locality—and that is why we may fill your order in several shipments. Most nursery stock is quoted postpaid on all shipments made through postal zone 4 (see back of order envelope). Exceptions are so noted in the catalog and generally include stock too big to ship parcel post, such as big trees, B&B Evergreens, etc. Items quoted "Express Not Prepaid" will be sent transportation collect. List your nearest Express Station on your order.

Your Headquarters for Seeds, Trees and Baby Chicks

This is a front view of the main Gurney Building that houses the Retail Store, Garden Seed Department, Gurney Cafe and the Nursery Storage and Shipping Rooms. At the right is the big elevator that stores the thousands of bushels of those famous Gurney Golden Hybrids. At the extreme right is the Field Seed Department where all Field Seeds are cleaned and processed.

Extra Payment In Nursery Stock

Many times we have to ship postpaid items with nursery stock going express collect. To help make up for the little extra express charges, we put in extra nursery stock—always more than enough to make up for the additional postage. This doesn't happen too often, but when it does, we always go out of our way to see that the customer gets his money's worth and then some.

Free Gifts With Your Order

It takes lots of old-fashioned courtesy to maintain a friendly business. That is the reason we make it a practice to include a free gift with every order we receive. We won't tell you what that gift is going to be but we know it is going to be something well worth while. Hope you enjoy it, as it is our way of saying "thank you" for the fine order.

We Need Pictures

The only way we can make this page in the catalog more interesting is to receive more pictures from you—the customer. And let's see too, for that matter, if we sent you a tree or a shrub that is doing well, stand beside it and have your picture taken. Send the picture in to us and we will try to use it in our next catalog. We enjoy hearing from you folks whether you had good luck or bad—it's our business.

Gurney's Nursery Stock Guarantee

We guarantee our nursery stock to be all state inspected, free from disease and first-class in every way. We also guarantee our stock to be absolutely true to name. If it proves otherwise, you can have your choice of replacement free or a full refund of the entire purchase price.

Examine the nursery stock carefully when you receive it. If you are not pleased in every way, return it promptly at our expense. We will be glad to replace it at once or refund your money in full, whichever you prefer.

After you have planted it, if it fails to grow owing to weather conditions or other factors over which we have no control, we will replace it at one-half the original price the following season, if you notify us not later than October 1, 1934. Accompany your report with a remittance of one-half the original purchase price and we will take care of the rest of it. That is plain and fair and we stand behind this guarantee 100%.

BOYS and GIRLS

Join Gurney's "Seed Kids" and Get Dandy Premiums or Cash

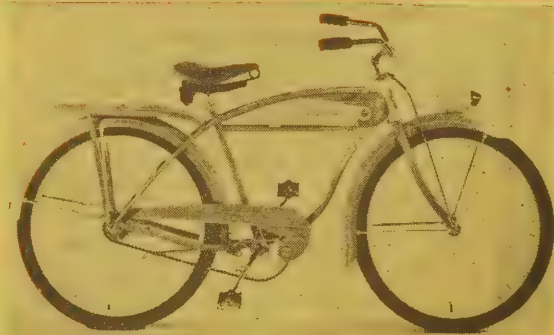

It's Easy—Takes Just a Few Hours' Time

HERE'S ALL YOU DO

Get your parents' permission and then fill out the coupon at the bottom of the page. Send it to us and we'll rush the collections of seed to you. After you have sold the seeds, keep your share of the cash, and send the balance to us, or, if you want a premium instead of cash, send us all the money and tell us the premium you want. Get busy right away. It's easier to get your cash or premium if you start early. And, don't forget, you can win the beautiful Schwinn Hornet bicycle. Just go out and sell as many collections as possible. The person who sells the most seeds this year, wins the bike free.

PARENTS PLEASE READ

We are not trying to make money on these seeds or prizes. We just want to make friends of the children and the people they sell. It's good training for the child, and the seeds they sell are all good. The premiums are good, too.

Win this Schwinn Hornet Bicycle—FREE!

The boy or girl who sells the most collections of seeds by June 1, 1953, will receive this beautiful full-size Schwinn Hornet Bicycle... free! That's all you have to do to win it. If a boy wins, we'll send a boy's model. (Organizations, clubs, adults not eligible.) This Schwinn Hornet is an out-

standing bike. Comes fully equipped with Rocket-Ray light, horn and luggage carrier. Has all the styling and sturdy construction Schwinn bicycles are so famous for.

Winner will be notified after June 1, 1953, and bicycle shipped at once. There can only be one winner. In case of tie, person who settles up first, wins.

Norlen E. Aaberg, Webster, So. Dak., Won the Schwinn Bicycle Last Year

Norlen E. Aaberg, Webster, So. Dak., was the winner of the 1952 Grand Prize bicycle. He is shown at the left on the Schwinn Hornet bicycle he received. Norlen had this to say about winning the bicycle: "I want to thank you a million for the Schwinn Hornet bicycle. I sure was a happy boy when I opened your letter and saw I was the winner of such a nice prize."

"SUPER" PREMIUMS

The premiums are really "super." They're all high-grade merchandise that will last for years. And well-known names... Rollfast... Baby Brownie... Daisy... Ingersoll... Wilson, etc. We are able to give you such valuable first-class premiums because we buy in large quantities at wholesale prices and pass all savings on to you.

AXE 'n KNIFE KIT

All-purpose set by Kutmaster. Knife is 8 3/4 inches long, axe 10 inches. Tough carbon, mirror polished steel. Stag handle. Detachable leather sheath. Ideal set for camping and hunting. Retail value 4.50. Yours for selling just 14 collections.

Beautiful 18-Inch "Magic Flesh" DOLL

A big, beautiful doll by Ideal. Has "Magic Flesh" vinyl head, arms and legs. Cotton filled body. Moving eyes. Crying voice. Saran wig can be brushed, combed, shampooed. Organdy dress, bonnet, slip, undies, shoes and socks. An 8.00 value. Yours for selling 28 collections, or 14 collections plus 2.00 cash.

THIS IS WHAT WE SEND YOU TO SELL

We send you 14 collections of seeds, each collection containing the following:
10 Large Packages of Gurney's vegetable and flower seeds. Each package contains 10 packets of seeds, as follows:
King of Denmark Spinach
White Icicle Radish
Early Pickling Cucumber
Scarlet Globe Radish
Dark Red Beet
Plus 4 Large Packages of Gurney's Flower Seeds only, each package containing 10 different packets of flower seed.
You make 14 sales (14 collections) at 65c each. (Seeds are sold in collections only—not by individual packets.) Each person who buys a collection from you gets 10 packets of seed, enough for a whole garden, at the low price of 64c per packet! This is our regular, high quality seed, priced low to make your selling easy, and so low we cannot change the assortment.

TO GURNEY'S "Northwest's Largest Seed & Nursery House," Yankton, South Dakota

Please send at once by parcel post prepaid the 14-28-42 (circle one) Gurney's "Seed Kids" Collection of seeds. I'll do my best to sell them at 65c each and if I do not sell them all, will return unsold seed in good order. When they are sold I will divide the money, keeping for my share 2.25 in cash for each 14 collections sold, or send all the money to you and take one of the premiums.

PROTECT YOUR GARDEN

Use **BUG DUST** on

- Garden Pests
- Fleas and Lice on Animals and Poultry
- House Plant Pests
- Fungus Growth
- Ants in House and Garden
- Flies—mix with water
- And Many, Many Other Uses
- New Uses Discovered Every Day

USE IT ANYWHERE

Dust your flowers and shrubs against bugs and disease.

Dust your garden crop against bugs and disease.

Dust poultry and animals to help control mites and lice.

Dust around a hill to stop them.

Dust your house plants against bugs and disease.

Make water solution and use as fly spray.

NOTE: By above we do not mean that Bug Dust will control every garden pest or every fungus. No dust can do that, but we do claim that it is the nearest to perfect dust that we have ever sold. It is guaranteed 100% or your money back.

Over 20,000 Customers Use Gurney's Famous, Powerful

BUG DUST

"The Outstanding Garden Insecticide"

You can hardly realize how effective Gurney's **BUG DUST** is until you use it yourself and see how it works. Many folks call it the "Wonder Dust."

3-WAY ACTION—Gurney's **BUG DUST** works not one—but three—ways. It's a **STOMACH POISON**—a **CONTACT POISON**—and a **FUNGICIDE**—ALL IN ONE DUST. That's the reason it is so effective on so many different garden pests.

POWERFUL INGREDIENTS used in our new formula make Gurney's **BUG DUST** the best multi-purpose dust we have ever offered.

One of its most powerful ingredients is Rotenone, a stomach and contact poison. It is largely responsible for the effectiveness of our **BUG DUST**. Another important ingredient is Lethane, which gives effective help in the control of many insect pests.

LEAVES NO POISONOUS RESIDUE—Gurney's **BUG DUST** will not harm even the most delicate plants when used as directed, and leaves no poisonous residue.

ABSOLUTELY GUARANTEED—The reputation we have built up over many, many years in this business is behind every pound of **BUG DUST**. It does what we say, or your money back. No arguments.

Use Gurney's **BUG DUST** for your Garden—Use Gurney's Combination Fruit Spray for Fruit Trees, Shrubs, Roses, Evergreens, etc.

NOW... ONE SPRAY You Can Use Most All Season on Your Fruits and Ornamentals

No Need to Buy and Fuss Around with a Lot of Different
Chemicals. Gurney's **COMBINATION FRUIT SPRAY** Will
Save You Time... Work... Money!

Our **COMBINATION FRUIT SPRAY**, which is a combination Insecticide and Fungicide, was introduced just three years ago and during the past three years we have been swamped with orders for it. Hundreds and hundreds of letters from customers have come in telling us what a wonderful job the spray has done for them, how easy the spray is to use, how much better their fruit is, etc. **OUR COMBINATION FRUIT SPRAY** takes the hard work and the high cost out of spraying. And, it does an excellent job of controlling insects and diseases. If you raise any fruit at all and have not tried the spray, we suggest you do. Here's why:

EASY TO USE

In the past, the trouble with spraying fruit trees has been that you had to buy a lot of different chemicals, get a spray chart and then try to figure out what to mix for each different fruit and different time. If you were a horticulturist or a chemist you might be able to do a good job. But it was a nuisance and you were apt to get confused and disgusted and figure it wasn't worth the effort.

But with Gurney's **COMBINATION FRUIT SPRAY**, which was developed especially for the home fruit grower, you buy just the one package and use it for

different fruits at various times during the season. No guessing, no fussing around.

Another trouble with mixing your own spray is that usually you had some Lead Arsenate in it, or Bordeaux Mixture, and if you got too much in the mixture, or sprayed too much on your trees, or used an apple tree mix on a peach tree for instance, you burned the foliage and ended up doing more harm than good. Now, with Gurney's **COMBINATION FRUIT SPRAY**, when used as directed, you will not harm fruit trees and it gives no undesirable flavor to the fruit.

ALSO FOR SHRUBS, ROSES, EVERGREENS

Besides being a fruit spray, our **COMBINATION FRUIT SPRAY** can be used with benefit on most of your ornamental shrubs, evergreens and roses. Merely follow simple directions on package.

DEVELOPED, TESTED AND APPROVED

by University of Missouri

The formula for Gurney's **COMBINATION FRUIT SPRAY** was developed by Dr. Swartwout of the Univ. of Missouri. He and his staff have tested and approved it, and we are glad to make it available to you.

HOW TO USE

All you do is mix with water and apply with any good sprayer. Do not use as a dust. Directions

HERE IS WHAT IT CONTROLS

When used as directed, Gurney's **COMBINATION FRUIT SPRAY** helps control these diseases:
Blotch
Brown Rot
Leaf Spot
and these insects:
Aphis
Bagworm
Curculio
Leaf Rollers
Plant Lice
Coddling Moth
Leaf Hoppers
Oriental Fruit Moth
Red Spiders
Fruit Flies

FOR USE ON ALL THESE:

Apples
Cherries
Peaches
Plum
Pears
Quinces
Nectarines
Apricots
Grapes
Raspberries
Blackberries
Evergreens
Ornamental Shrubs

NOTE: Gurney's **COMBINATION FRUIT SPRAY** is recommended for fruits, evergreens, roses, shrubs, but for your vegetable garden, Gurney's **BUG DUST** is best.

on each package tell you when, what and how to spray.

COMPLETELY GUARANTEED

We know what this spray will do when used according to directions. We use it ourselves. We guarantee it to do the job. If it doesn't satisfy you 100%, we will refund your money!

HOW MUCH TO ORDER

You use just one pound of spray with 20 gallons of water—enough to spray 4 average-sized fruit trees 5 times during the season. Figure about half that amount for young fruit trees not yet bearing.

LOW COST

The spray is economical to use. A little goes a long way. Because it's easier for you to get more and better fruit, the increased production more than pays the cost of the spray.

POTATO DUST

4088—For control of Colorado potato beetle, flea beetle, leaf hopper, blister beetle, cucumber beetle, thrip, psyllids; also late and early blight. 1 lb. sifter-top can, 65c; 3 lb. bag, 1.48; 5 lb. bag, 1.98, postpaid.

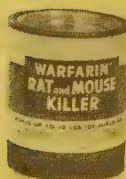

ROACH KILLER

4004—One of the most effective preparations against roaches, bed bugs, etc. 4 cans 98c; 35c each, postpaid.

RODENTICIDES

WARFARIN

Sensational New Rat and Mouse Killer

4070—This powerful, safe rat and mouse poison was developed by the University of Wisconsin after work was begun 17 years ago by Dr. Karl Paul Link of their biochemistry department. In 1950, the University of Wisconsin Alumni Research Foundation released Warfarin for general distribution. It since has been put on the market widely under several different brand names.

Warfarin is so effective because it is an anti-coagulant, causing the rodents to bleed to death internally. The rats die slowly and painlessly—but surely! It is a better rodenticide for these 4 reasons:

1. It is much less dangerous to humans, livestock, pets and poultry.
2. You don't have to bother with two different poisons. Warfarin gets both rats and mice.
3. Warfarin is odorless and tasteless. Rodents do not develop "bait shyness."
4. Warfarin kills slowly; no dead and dying rats warn the rest of the colony.

Warfarin has been thoroughly tested and the results are

miraculous. It is recommended by state colleges, by the U.S. Public Health Service, by the Fish and Wildlife Service, by the National Pest Control Assn., farm leaders, and many others. It is the best for homes, schools, churches, hospitals, warehouses, office buildings, restaurants, etc.

4 oz. can (makes 5 lbs. of bait), 1.75; 8 oz. can (makes 10 lbs. of bait), 3.00, postpaid.

PETER RABBIT REPELLENT

4057—Simply paint or spray on tree or shrub trunks and rabbits will not bother them. Full directions on each can. One quart (enough to treat 30 to 40 trees one inch in diameter), 1.59, postpaid.

RODENT RUIN for Killing Moles and Gophers

4001—Drop a cake in the mole run or gopher hole and your troubles are over. Acts as a stomach poison. Gets them quick. Can't harm poultry, domestic pets or animals. This mole and gopher killer DOES THE WORK and is easy to use. Large box (90 pieces), 50c; 2 boxes, 95c, postpaid.

SOIL BUILDERS—PLANT FOODS AND STIMULATORS

SUPER PHOSPHATE

4084—For blooming plants. Many plants do not bloom because soil is often short of super phosphate. If soil is deficient in this, when used according to directions, Gurney's SUPER PHOSPHATE will help your African Violets and other blooming plants to bloom better. 3 lb. package, 1.09, ppd.

SHEEPOLIZER

Kill Dried!!! Clean and Weed Free—100 Lbs.—\$2.85, F.O.B.

4011—Here is the pulverized sheep manure to use as plant food for your lawn, garden, flowers and potted plants. Clean and weed free, rich in potash, phosphorus and nitrogen. Easy to apply; just work it into your soil. Figure 100 lbs. to each 1,000 square feet of lawn or garden surface. Helps quick growth, won't burn foliage. 100 lbs. only 2.85 F.O.B. Yankton. Shipped by freight.

PEAT MOSS

4013—2 oz. absorbs 1 lb. of water. Holds moisture over long periods of drought. Bake into soil 1 bushel enough for 500 square feet. $\frac{1}{2}$ loose bushel size, 2.55. 2 bags for 5.13. (2 bags can be shipped as cheaply as 1 in most cases.) Shipped Freight Collect direct from Peat Bogs in northern Iowa.

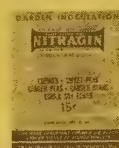

POTTING PEAT

4081—Finely ground. High nitrogen. Humus. Activated with beneficial bacteria. Potting suggestions printed on the bag. 5-quart size (approximately 8 lbs.), 1.39, postpaid.

ALUMINUM SULPHATE

4059—For plants needing acid soil—blueberries, hydrangea, azaleas. Easy to use. Mix 2 tablespoons with soil when you plant. Scatter one tablespoon around each plant spring and fall. Directions on package. 1 lb. 44c; 3 lbs. 1.07, ppd.

INOCULATE YOUR PEAS and BEANS for BIGGER YIELDS

4015—All your garden peas, beans and sweet peas should be inoculated. Inoculation helps the plant to take nitrogen from the air, put it in the soil—giving you bigger yields, faster growth and garden soil that's not worn out.

Just takes a minute to dust it on your seed—no trouble at all but it makes a world of difference in your yield.

There's enough in this packet to inoculate 5 lbs. of seed. Full directions on each packet. Per packet, 15c, postpaid.

"WATCH-EM-GROW"

4009—Plant food. 7 oz. pkg., 50c, postpaid.

TERRA-LITE FOR SEED AND CUTTING BEDS

4085—(Also known as Vermiculite.) Used in place of soil or sand. Produces amazing results in the germination of seed and the rooting of cuttings. Fine for mulching material, for storage of bulbs and root crops, and mixing with soil to improve its texture. 8 qt. package 1.09, postpaid.

ROSETONE

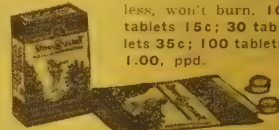

4060—Use Rosetone for better roses. It is a hormone (not a fertilizer) for increased rooting of cuttings, seed and bulbs—

—but particularly roses. Causes earlier, more luxuriant growth and blossoms. Get bigger roses faster by using Rosetone when planting your roses. Full directions printed on the container.

3 OZ. CAN, 1.00, postpaid.

"Stim-U-Plant" FERTILIZER TABLETS

4010—Feed your house plants, roses, shrubs, etc., the modern way with TABLETS of plant food. No muss, clean and odorless, won't burn. 10 tablets 15c; 30 tablets 35c; 100 tablets 1.00, ppd.

VITAMIN B-1

4017—STOCK SOLUTION FORM. Concentrated solution. A plant growth stimulant. Comes in bottle with eye dropper; one drop of this solution in 1 or 2 gallons of water is enough. Bottle will make 500 to 1,000 gallons—enough for entire season. Bottle, only 1.00, postpaid.

"GROW-AID" The Sensational New Seed and Plant Hormone-Vitamin Concentrate Stimulant

Here is the miraculous new seed and plant stimulant in concentrated form. A combination of the recently discovered, very beneficial root stimulating Hormones and the better known Vitamins that have made plants and seeds GROW FASTER, YIELD MORE, AND PRODUCE LARGER FLOWERS AND FRUITS. Tests by state colleges everywhere approve it. In one test, Dr. J. C. Ireland, of Oklahoma Experiment Station, showed increases of 37 to 47 per cent in yield when used on corn. Often, number of roots on a plant are doubled when GROW-AID is used.

This miraculous dust multiplies roots, speeds up root growth and stimulates and makes larger plants when used on vegetables, plants, shrubs, seedlings, trees or flowers.

USE AS DUST OR SOLUTION Very Easy to Use

Can be used either as a dust on seedling roots or sprinkled on your vegetable seeds or may be used as a solution (about 1 teaspoonful to a gallon of water) to soak roots before planting or to water plants already established. (Full instructions for GROW-AID on each package.)

1. Use it on all Your Plants and Seeds for Better Results
2. Soak nursery stock roots in solution before planting.
3. Dust seedling roots before transplanting.
4. Use as spray for trees. KEEPS FRUIT ON TREES UNTIL RIPE.
5. Use as solution to water growing SHRUBS AND TREES.
6. Use as solution to water HOUSE PLANTS.
7. Use as solution to water ROSES, SHRUBS, LAWNS.

A Sample of How "GROW-AID" improves plants it is used on.

A General All-Around Product Every Gardener Should Have No. 4018— $\frac{1}{2}$ oz. (enough to treat 17 lbs. garden seed, etc.). 25c, postpaid; 3 oz. (for large gardeners, plants, etc.), 1.00, postpaid.

For Better Plants, Lawns, Trees, Feed Them

Gurney's GREEN THUMB PLANT FOOD

Easy—Safe—Inexpensive to Use

If your plants get hungry and sickly, with yellow leaves, stunted growth and colorless flowers, they need food and water and cultivation. You can either spend hours fertilizing these hungry plants or you can use Gurney's GREEN THUMB PLANT FOOD and do a better job in a short time. In fact, we don't know of anything better for starting newly planted things off right.

Besides being an excellent food for indoor and outdoor plants and flowers, it works equally well on lawns, shrubs, trees and vegetables.

EASY TO USE

One 16 oz. package of Gurney's powdered GREEN THUMB PLANT FOOD makes 30 gallons of liquid fertilizer. Full, simple directions on package tell how much to use for various plants, trees and lawns. You'll be surprised at how easy it is to fertilize this way and how little it costs. You'll also be surprised at the results!

GURNEY'S GREEN THUMB PLANT FOOD is composed of important plant nutrients and when mixed with water they become immediately available to the roots of hungry plants, lawns and trees. You can see results in a short time.

ACTION STARTS AT ONCE

You just mix 1 tablespoonful with a gallon of water and pour around plant just like you were watering it. Being a liquid, the solution goes directly to the roots and action starts at once. There's no waiting for results—you see them in a matter of days. The solution is odorless and non-poisonous. Contains the nutrition that growing things need.

1 tablespoonful of Gurney's GREEN THUMB PLANT FOOD + water = 1 gallon liquid fertilizer.

Handy GARDENING HELPS From GURNEY'S

DORMATONE

Prevents Potato Sprouting in storage

4053—Now you can store your home-grown potatoes, carrots, turnips, rutabagas, for 12 months without sprouting or shrinking. Cold storage not necessary. Dormatone actually improves cooking and eating quality, also appearance. Absolutely harmless. Just dust tubers with sifter can. 12 oz. sifter can (treats 8 bu.) for 1.06, postpaid.

"NO SEED" for Tomatoes

4054—Just mix with water and spray over the whole plant. Stops blossom drop; sets fruit chemically. Tomatoes ripen 2 to 4 weeks earlier. Fruits are larger, firmer, more delicious. Most "SERPLESS" Excellent also for strawberries, peppers, cucumbers. Tested by U.S.D.A. 4 oz. bottle (makes 1 gal. spray) 75c; 1 pint (makes 4 gal. spray) 1.75, postpaid.

BERRY SET

4067—Makes berries grow much larger—often 50% to 100% BIGGER. Meatier, sweeter, more luscious tasting. Greatly increases berry yield. Strawberries have fewer seeds. Sprayed berry plants bear ripe fruits over a longer period; therefore gardeners enjoy a longer season, get greater enjoyment from their plants and greater value, too. This new scientific "Hormone" powder effective on ALL berries. 1 oz. package makes 4 gallons. 1 oz. 50c; 3 oz. 1.00, postpaid.

COB MULCH

4083—Easy to use. Safe, economical. Ideal for lawns or gardens. Helps control weeds. Makes soil work better and conserves moisture. Fine for mulching roses, tomatoes, raspberries, perennials, etc. 35 lb. bag 1.15, F.O.B. Yankton, So. Dakota. 3 bags for 2.95, F.O.B. Yankton, So. Dakota. Freight costs on bags not much higher than on one.

SEED DISINFECTANTS

4019—CERESAN—For treating seed-borne bunt or stinking smut of wheat, oat, of oats, some smuts and stripe of barley, sorghums, and rye, etc. 1 can treats 28 bu. of grain. 14 oz. can, 1.21, postpaid.

4020—SEMESAN—For combating diseases on seeds, bulbs, roots of flowers, vegetables and nursery crops. Reduces seed rotting and damping off of seedlings. 2 oz. pkg., 60c, postpaid.

4021—SEMESAN BEL—For

DOGS-ZA-WAY

4000—Protect shrubs and evergreens with **DOGS-ZA-WAY**. Guaranteed not to harm plants but extremely offensive to animals. Lasts several weeks. Full directions on can. Season's supply 43c, postpaid.

HOTKAPS

4058—Heavy waxed-paper covers to put over newly set plants. Positive protection against frost, sun, wind and insects. Increase yields. Crops ripen 2 to 3 weeks earlier. Packages of 100 and 250 contain set for setting kins. 25 for 1.00; 100 for 3.29; 250 for 5.99, postpaid.

HIGH WHEEL CULTIVATOR

Comes with Plow, Sweep and Double Pointed shovel. **4046**—Gardening is easier, faster, more fun when you have one of these. Has 23" wheel and hardwood curved handles. Attachments heat treated carbon steel. Complete with Moldboard Plow, 9" Sweep and Double Pointed Shovel, 6.98, not prepaid. Postage Zone 2, 63c; Zone 3, 84c; Zone 4, 1.10.

SOOT DESTROYER

4049—Destroys soot and carbon in oil or coal fired stoves, boilers and furnaces without interruption of service. Prevents flue or chimney fires. Destroying soot and carbon also means more heat from less fuel. Non-explosive. Easy to use. Guaranteed 50c per can; 3 cans for 1.35, postpaid.

treating potatoes to reduce scab and Rhizoctonia, ring rot, bacterial wilt, stem rot, seed-piece decay, etc. 2 oz. treats 7½ bu. seed at about 4c bu. 2 oz. pkg., 50c, postpaid.

4066—**ARASAN**—Increases stands and yields by reducing losses from seed decay, damping off and seedling blight caused by seed and soil-borne diseases. 3 oz. pkt. (enough for average garden), 25c; 8 oz. can, 1.05; 4 lb. can, 6.00, ppd. (for use on field seed, see page 23).

WEED KILLERS

CRAG HERBICIDE 1

Here's what a lot of you have been waiting for—a weed killer you can spray on your strawberry bed to control weeds. Reduces seed rotting and damping off of seedlings. 2 oz. pkg., 60c, postpaid.

4021—SEMESAN BEL—For

CRAG HERBICIDE 1 has been thoroughly tested and now is being recommended by a lot of the collectors because it not only kills weeds and germinating weed seeds in strawberry beds, but can be used for weed control around asparagus, field and sweet corn, lima beans, potatoes and gladioli, as well.

There are a lot of good things about it. Nicest of all though, aside from the fact that it is the ideal weed killer for strawberry beds, is that it is easy to apply, and that it doesn't cost much to use. It sells at 4.85 for a 2-lb. package and 2 lbs. will treat a whole acre. A 50 ft. x 50 ft. bed would be about ¼ of an acre, so 2 ounces mixed with 2½ gallons of water are all you need for one treatment.

Among the weeds it will control are: chick weed, lamb's quarter, purslane, red root, pig weed, carpet weed, crab

GURNEY'S, Yankton, So. Dak.—"Northwest's Largest Seed and Nursery House"

"TWIST-EMS"

Handy, Speedy Plant Tie

4072—Strong, dark green water-proof, invisible tapes with wire reinforcing. Protect stems, speedily and permanently support annuals, perennials, vines, shrubs, and vegetables. Grand for arrangements also. Box of 100, 3" length, 30c. Box 100, 16" length, 60c. 250 feet in continuous roll (easily cut to desired length with scissors), 1.15. All postpaid.

SCARE BIRDS AND ANIMALS AWAY

4071—Scare birds and animals away. Amazing protection for newly planted seeds, berries, tender seedlings, fruit trees, etc. Made of shining aluminum. Flying Disks spin and whirl madly in all directions—give blinding reflections and weird jingling, crackling sounds—to scare birds and animals away. Easily strung across area to be protected, or hung from branches of trees or vines. 10 Flying Disks with complete instructions, only 30c, postpaid.

ALUMINUM TREE PROTECTORS

4076—Here is the cheap, easy and safe way to keep the rabbits from gnawing and girdling your trees and shrubs. It is something we have been needing for a long time.

Low cost—the price of one tree (1.50) will buy enough of them to protect an orchard of twenty-five trees.

Easy to put on—simply wrap the protector around the tree and crimp the edges. You can fit them to any tree.

Safe—rabbits will not chew through them. Also protect trees against sunscald. 25 for 1.50; 50 for 2.65; 100 for 4.25, postpaid.

CYCLONE SEEDER

4082—Ideal for sowing clover, timothy, alfalfa, lespedeza, sudan grass, oats, wheat, or any other seed that is sown broadcast. Does a fine job of sowing lawn seed too.

Strongly constructed, with double feed insuring a uniform flow of seed. Feed adjustment is automatic and starts or stops flow of seed instantly. Each, 4.25, postpaid up to Zone 3. Zone 4, add 38c; Zone 5, add 48c; Zone 6, add 60c.

MOON SIGN BOOK

NOTE: Planting by moon signs has been argued for and con. We are neither "for or against" planting by moon signs because we don't know. Also tells you right dates to butcher, cut sprouts, go fishing, etc. Lots of people believe in it, and lots don't. If you do, here's the best book put out on the subject.

Plant by the Moon 256 Pages

By **LLEWELYN GEORGE**
Well-known Author and Lecturer
561—1.25, postpaid.

KRILIUM—Soil Conditioner

4092—Krilium, the sensational new synthetic chemical, has startled the world with its ability to turn hard clay soils into loose, crumbly soil.

Krilium is easy to use. Simply spread over surface, spade in, mix thoroughly, smooth over, water down. 5 pounds treats 40 square feet to a depth of six inches or 80 square feet to a depth of three inches. Can be worked into soil any time. 1 lb., 1.75, postpaid; 5 lbs., 6.95, postpaid up to Zone 3. Zone 4, add 38c; Zone 5, add 48c; Zone 6, add 60c.

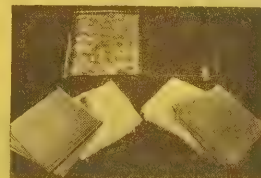

ROSS ROOT FEEDER

For Watering or Fertilizing

4093—Ross Root Feeder puts plant food or water directly to the roots. Simple to use, saves water, time and labor. Just place plant food cartridge in the chamber, attach to hose, push it into the ground to the desired depth, and turn on the water. Complete with one dozen plant food cartridges, 4.98, postpaid.

4094—1 dozen additional cartridges, 1.10, postpaid.

SEED TESTING KIT

4097—Make your own germination tests. A complete set with plastic germinators, pads and blotters. Full, easy-to-follow directions with each set. 2.00, postpaid.

4098—Refill sets of pads and blotters for above, 1.00, ppd.

BIRDS

for Your GARDEN

5 for 1.25 Postpaid

6034—These are life-size wooden birds painted in bright colors like the real ones and fastened on a special long "twist-em" stem that you can wrap around shrubs or branches in your yard. They look life-like and real. One each of the 5—Oriole, Cardinal, Gold-Finch, Bluebird, and Tanager for only 1.25, postpaid. 2 collections 2.29, postpaid. They really will catch your eye. Make dandy gifts, too!

BIRD BATHS

Here are the slickest bird baths we have ever seen. They are made of metal, strongly constructed. Carefully enameled. Will last a lifetime. Light weight, so no danger of injuring children who might upset them. Easy to move, if you wish, when mowing. Come to you knocked down, but are easily put together.

4096—Lawn Model (with 3 legs), 8.95, postpaid.

4095—Flower Bed Model, 4.95, postpaid.

MAGIC STUMP REMOVER

4089—Now, for the first time, you can remove tree stumps yourself, any size, any age, any place, any time, without chopping, digging, blasting or pulling. Magic Stump Remover is safe to use. You just treat the stump with this chemical so that you then can burn it, roots and all. Full directions on package. Trial package, 4 oz. (enough to remove one stump 12" in diameter), 1.00. Economy size, 8 oz. package, 1.59, postpaid.

PYRAMIDAL STRAWBERRY BED

Accommodates 75 plants in circle only 6 feet across.

The bands are made of aluminum. The longest is bolted into a 6 ft. circle and placed on the ground. It is filled with soil. The four successive bands are added and filled, each allowing an 8 in. terrace for the plants. A core of sand fills the bed down to the bottom layer, making watering easy.

Any good garden soil mixed with peat moss is recommended to fill the pyramid. After the plants are set, cover with 2 bu. of peat moss to help maintain moisture, eliminate cultivation, help keep down weeds.

4056—5 aluminum bands complete with nuts and bolts, and directions for assembling, 9.98, postpaid.

84220X—75 new Everbearing Superfection strawberry plants to set in Pyramid bed—4.49, postpaid.

BEST NORTHERN GRIMM ALFALFA

Our best lot of Northern, hardy Grimm Alfalfa grown right here in the Dakotas and Nebraska from selected fields. One of the hardy origins of Alfalfa seed we know of anywhere. Grimm will make lots of fine quality hay, fine-stemmed with a heavy tonnage per acre.

Our seed never looked any better quality. It's bright, new crop, clean, plump berry seed over 99¼% pure, and absolutely weed-free. Grimm has the spreading crown and branching root system that has made it one of the most popular of all alfalfas. We heartily recommend this fine lot to you. Check this lot and price anywhere for comparison. Sample gladly sent on your request. See Item 17, Pink Price List.

Best Northern Dakota 12 Alfalfa

Favorite of Thousands

The old standby and favorite alfalfa of thousands of farmers. Fully winter hardy, grows taller than other varieties. Dakota 12 adapts itself perfectly to a wide range of soil and weather conditions. Big, plump berries, free from weed seed and ready to grow. Order this 99¼% pure lot of alfalfa now. See Item No. 14, Pink Price List.

LOT NORTHERN GRIMM ALFALFA—A Bargain

Our most popular low priced alfalfa at a real bargain price. Most every farmer knows Grimm and prefers it. You will, too, once you plant this seed. Grimm is the hardest alfalfa of all, with long branching roots that grow deep, preventing winter heaving and killing. Good on hard pan or dry soil areas. Very leafy and high in feeding value.

It's 97% Pure and a Real Buy!

You won't go wrong with this nice lot of seed 97% pure, of good germination, and our low price makes this a real buy! Hundreds of customers order this lot every year. It must be giving results. Plant 15 lbs. per acre. See Item No. 15, Pink Price List.

New Wilt-Resistant RANGER ALFALFA CERTIFIED

We sold more Certified Ranger last spring than we ever had before. Ranger is proving to the farmers who plant it that it is fully winter hardy, wilt-resistant and a heavy tonnage producer of fine stemmed hay. Our seed is produced from extra-hardy foundation seed stocks, packed in bushel bags with seals and blue tags attached. It's tops in color, purity and germination and free of weed seed. No. 1 quality, certified Blue Tag seed.

Ranger will survive on wilt-infested soils where other Alfalfas, not wilt-resistant, will be weakened and the plants kill out on a much higher percentage during the winter months. Ranger will survive and remain productive for a much longer period of time. No need to plant Ranger over every two or three years. Our Ranger is specially priced for spring planting. Take advantage of the lowest price ever offered on Certified Ranger seed. See Item 24, Pink Price List.

Best Northern COSSACK

Cossack is one of the hardest of Alfalfas. Particularly adapted to South Dakota and surrounding states. Cossack produces a very fine stemmed hay, doesn't winter kill easily and yields a heavy tonnage per acre. Plant this if you are in doubt as to a good variety. Our Cossack is fine quality this year. We got out in the market early and bought choice of lots for Gurney customers. Bright, clean, noxious weed-free seed. In Dakotas, Minnesota, Iowa and Nebraska you will

find Cossack always popular with farmers. High Purity 99¼% and tops in germination. See Item No. 17, Pink Price List.

BEST ALSIKE CLOVER

Alsike is a valuable perennial legume, actually higher in feeding value than Red Clover. Grows on wet land better than Red Clover, stands more acid soil conditions. Our Alsike is a beautiful green color, makes a fine combination along with Timothy. Easy to establish a stand, plant five to six pounds-per acre. You can't beat Alsike for pasture and is wonderful for hay. Finest quality new crop seed, tops in every way in purity and germination. More farmers are switching to Alsike every year. See Item No. 42, Pink Price List.

HUBAM Annual White Sweet Clover

Plant Hubam this year and cash in the first year on this fine crop for pasture, hay or seed. Makes its full growth the same year it is sown. High in protein. Excellent to plow under for a green manure crop because Hubam stores up lots of nitrogen in the soil.

Hubam keeps your soil healthy. Excellent for one year crop rotation program. Seed with your Oats, Barley or Wheat, and take off a cash grain crop. Then, Hubam will furnish you with pasture, hay or seed crop. Plant 12 to 15 lbs. per acre in early spring. Top-quality, new crop seed. Hubam is often called the wonder crop. See Item No. 58, Pink Price List.

SAVE ON SWEET CLOVER

Buy White and Yellow Sweet Clover

This mixture of White and Yellow Sweet Clovers saves you money, but still is better for pasture. The Yellow Blossom makes earlier pasture and the White Blossom makes later pasture, stretching pasturing season by several weeks. Ideal for soil improvement, by plowing under for a green manure crop. The seed goes a long way and your pasture is better quality, finer stemmed, lasts longer than straight White Blossom.

By buying White and Yellow Sweet Clover Mixed, you get good quality—but it costs you less. For many years, now, this has been one of our most popular mixtures. See Item No. 46, Pink Price List.

NEW ALTA FESCUE

Alta Fescue has been short in seed supply and high priced, but we are glad to tell you this year we can supply new crop Alta Fescue at half last year's price. Alta Fescue can stand a lot of dry weather. Extra-strong, deep rooted plants make hay or pasture of high forage value. Plant by itself or along with other grasses or clovers. Not fussy about soil types. Does well along with Ladino, Alsike, Birdsfoot Trefoil, or Alfalfa and Brome. See Item 86, Pink Price List.

For Shady Places CREEPING FESCUE

We have more and more requests every year for a grass that will grow in the shade of trees, in parks, lawns, etc. Here is the answer in Creeping Fescue. This fine-leaved grass blends in nicely with Kentucky Blue, Red Top and other good turf grasses. But, best of all, it does especially well in the shade. Likes sunny places too, so we include it in our best lawn mixtures. Use regular lawn seeding rates. 5 lbs. 3.85; 10 lbs. 7.35; 25 lbs. 17.95. All Postpaid Prices.

REED CANARY GRASS

Spring is a fine time to plant Reed Canary Grass. Figure on 6 to 8 pounds per acre. Seed in low, wet soils, drainage ditches, gully control, etc. Many farmer customers also plant Reed Canary even on drier soils with good results. Alsike Clover, Red Top, and Ladino Clover make good companion crops with Reed Canary where water stands on field for very short periods of time. Otherwise plant Reed Canary alone on overflow soils. See Item No. 95, Pink Price List.

Special "Lot Sun"

KENTUCKY BLUE GRASS

Here is good quality new crop, Kentucky Blue Grass at a real saving to you, especially harvested for us right in the heart of the Blue Grass area of Nebraska, South Dakota and Minnesota. It is strictly hardy, bright, clean seed, and Northern-grown. Not a cheap mixture, but straight Kentucky Blue Grass to make a bright green lawn or pasture for you all season long. We call this lot Sun, because it is sun cured seed, free of noxious weeds.

Special Prices:

75c per lb.; 2.10 per 3 lbs.; 3.40 per 5 lbs.; 6.50 per 10 lbs.; 15.50 per 25 lbs., all prepaid. 100 lbs. 55.00 F.O.B. Yankton.

New Ladino Clover

Something new is being added to Pastures. It's Ladino, the giant White Dutch Clover. Ideal for Hay or Pasture, when seeded at rate of a pound or two per acre to your present pasture or your Brome-Alfalfa seeding. Try some Ladino this year. Very leafy foliage. Recovers and grows quickly after grazing. Good milk producer. Fine for hay, too. A heavy producing Clover Legume and a good one. See Item No. 197, Pink Price List.

Best Northern MEDIUM RED CLOVER

Our highest quality 99¼% purity Medium Red Clover grown right in the Central States-of the Cornbelt. Good, bright color seed of new crop, free of weeds and high germination. We sell a lot of this Home Grown Medium Red Clover because of the freight saving and it will give you good results at a saving. Red Clover is awfully hard to beat for soil improvement and high quality of hay crop. You will like this lot of seed and it's priced right. See Item 33, Pink Price List.

BEST NORTHERN Yellow Blossom Sweet Clover

Biennial yellow Blossom (2-year type) Sweet Clover is much finer stemmed than white. Our new crop Yellow Sweet Clover is 99¼% pure, high germination, plump berry seed. We sell carloads of this triple released seed every year. Free of all noxious weeds. Buy your Sweet Clover at Gurney's and save the difference. For soil improvement, for pasture or hay, the Yellow Sweet Clover is best. All bright, clean, new crop seed. See Item No. 50, Pink Price List.

Sweet Clover (Formerly White)

Most white blossom (2-year type) seed contains a small amount of Yellow Blossom. This lot we list as Sweet Clover is the White Blossom type. Sweet Clover is the perfect soil builder and should be used on all farms in regular crop rotation. Ideal green manure crop, hay or cash seed crop. This type Sweet Clover grows taller and produces more growth than regular Yellow Blossom. Many of our customers like it for that reason. Gurney's selected this seed early at harvest time. Plump berry, new crop seed, noxious weed-free. Order plenty. See Item No. 48, Pink Price list.

YOU CAN BUY BETTER SEED FOR LESS AT GURNEY'S

All Gurney's Field Seeds Are Triple Cleaned, Tested and Approved by EXPERT SEEDSMEN

Purity and Germination. Every lot of our hardy, northern grown field seeds is carefully tested and retested for purity, germination and noxious weeds in our modern laboratory by specially trained seed analysts. You can't buy finer seeds.

You Save by Buying Direct. Your order is filled with better field seeds for less money by buying direct from Gurney's. You cut out extra commissions, extra profits and extra handling charges by middlemen. The savings are YOURS.

You Must Be Satisfied. Gurney's Guarantee to please you. You have 30 days after you receive your field seed to look it over, and test it in any way you wish. If it doesn't please you 100%, send it back for full exchange or refund or credit.

GUARANTEED

WE GUARANTEE TO SATISFY YOU OR NO TRADE. We absolutely guarantee our seed to arrive in a satisfactory condition or no trade. You have 30 days to test it any way you like or send sample for state test if desired. We guarantee to send you seed that will suit or refund your money. That's plain and fair. We want you satisfied. However, we do not guarantee a crop, as that depends upon conditions beyond our control, such as weather, soil, planting conditions, etc.

NORGHUM SORGHUM

Norghum was developed right in South Dakota for South Dakota farmers. An early grain sorghum of the Kalo seed type. Stalks are medium-slender, seed heads are open, allowing for quick drying. Seeds are reddish brown in color and germinate rapidly. Excellent for combine harvest with height 36 to 42 inches. Plant 5 lbs. per acre. Item No. 164, Pink Price List.

SWEET SUDAN

Sweet Sudan produces lots of sweet, juicy, palatable forage feed for all livestock. Developed after years of research. Sweet Sudan has far greater disease resistance and non-shattering qualities. Produces heavier growth, remains green longer. Lots more leaves. Sweet Sudan is a heavy favorite with many of our customers. Order early. See Item No. 103, Pink Price List.

BEST NEW CROP SUDAN

This is beautiful seed, 98% to 99% pure Sudan, noxious weed free. The heaviest, plumpest Sudan seed available. Sudan will carry more head of livestock per acre than any crop we know of. High in feeding value, fine for hay, pasture. Plant 25 to 30 lbs. per acre, covering seed 1 inch deep. See Item No. 101, Pink Price List.

LAWN SEED (All Postpaid)

121 Athletic Field Mixture (100 lbs. Per Acre) Ky. Blue, Fescue, Rye Grasses, Per 100 lbs., 21.95, F.O.B. Yankton.				

New Lincoln Brome

New, hardy, selected strain of smooth Brome perfect for the Dakotas, Nebraska, Iowa, etc. This long lived perennial gives excellent spring, summer and late fall pasture, and a high quality hay. Equal in protein content to alfalfa. All bright, clean, heavy weight seed. Plant 15 lbs. per acre alone or with alfalfa. It's home-grown seed and adapted in every way. See Item No. 73, Pink Price List.

Be Sure to INOCULATE with "Nitragin"

Don't spend good money for clover and alfalfa seed without inoculating it. It not only does better, but must be inoculated to take Nitrogen from the air and put it in your soil.

By inoculating with "Nitragin" you make full use of the legume's ability to fertilize your soil by adding Nitrogen to it. Makes better clover stands and crops and better crops to follow. You should inoculate even if land was inoculated before.

When ordering, always state name of seed.

Combination AB	Soybeans	Size	Each

2 bu.			95c

Garden Size Packet

Peas, Beans, Sweet Peas, Lupines, Lima Beans and Edible Soybeans. Enough for 5 lbs. seed.

Each 15c, Postpaid

GURNO

Gurno, the perfect all-around poultry feed. White seeded—not bitter like some yellow grain sorghums. Poultry and livestock like it better. Gurno is very early, maturing in 70 to 80 days for quick feed in a hurry. Gurno will give you a low priced poultry feed. NONE BETTER. See Item No. 162, Pink Price List.

Half Clovers and Half Grasses Permanent Pasture Mix

Lot Half and Half is our most popular permanent Hay and Pasture Mixture where rainfall is fair to good. Carefully blended mixture of five grasses and five legumes in just the right proportions to grow in all types of soil and give you pasture ALL SEASON LONG. There is always something green even in the heat of the summer.

INCLUDES FIVE CLOVERS, FIVE GRASSES

To insure a good stand everywhere this mixture includes (Alfalfa, Red Clover, Alsike, Sweet Clover, and Korean) five clovers, and five grasses (Kentucky Blue, Rye Grasses, Timothy, Fescues, etc.) See Item No. 113, Pink Price List.

LOT HALF AND HALF (WITHOUT SWEET CLOVER)

If you want us to omit Sweet Clover, we can supply the same mixture omitting Sweet Clover. See Item No. 114, Pink Price List.

Brome Grass Mix for Dry Land

This mixture contains over 60% Brome with the balance in other hardy native dry land grasses such as Crested Wheat, and others that do well in the drier sections of the United States. Stands the hottest summers or the coldest winters. Sow 12 to 15 lbs. per acre, early. Roll in well on a firm seed bed. Add 4 lbs. of alfalfa to the acre if you wish. See Item No. 117, Pink Price List.

BEST HOME-GROWN BROME

Finest of All Pasture Grasses

Hardy, home-grown Brome Grass like this lot makes more pasture than any other perennial grass we know. Starts early in spring, lasts later in the fall. All livestock like Brome. Doesn't winter kill, perfectly hardy, South Dakota grown seed from selected fields. Brome like this stands lots of hot, dry weather, and carries more head of livestock per acre. Our finest seed.

How to Sow—Sow early on a firm seed bed, harrow or roll in well—rolling is best. A fine combination planting is 4 lbs. alfalfa, 12 to 15 lbs. of Brome per acre. Add a pound or two of Ladino per acre if you want extra fine pasture. Sow Brome alone 15 to 20 lbs. per acre. See Item No. 71, Pink Price List.

Arasan Increases Yields

Summary of 1951-52 field tests by DuPont showed increased stands after treatment with Arasan as follows: Alfalfa, 32%; Red Clover, 57%; Lespedeza, 59%; Sudan, 41%; misc. grasses, 25%.

The cause of poor stands in pastures often is caused by an obscure and seldom recognized disease. It is a phase of root rot, which causes pre-emergence blight. The seeds of grass and small legumes, being very small in size and carrying very little food reserve, are easily killed off by adverse weather and disease.

Arasan protects seed from growth of fungi on the seed and in the soil which cause seed decay, damping-off, seedling blight and root rots.

We recommend that you treat the following with Arasan:

Legumes	Grasses
Alfalfa	Timothy
Red Clover	Meadow Fescue
Alsike	Red Top
Ladino Clover	Bent Grass
White Dutch	Kentucky Blue
Birdsfoot Trefoil	Sudan Grass
Korean Lespedeza	
Sericea Lespedeza	

Arasan does not take the place of Nitragin. Add Nitragin after treating with Arasan.

It is easy to treat your own seed; Just follow directions on the can. It takes 6 to 8 oz. to 100 lbs. of seed.

Catalog No. 4066. 8 oz. can, 1.05; 4 lb. can, 6.00. Postpaid.

GURNEY'S GOLDEN Hybrid Seed Corn

SAVE Up To \$3.00 Per Bu.—PLANT THE BEST

Why Pay Agents Up To \$3.00 Per Bushel Commission?

MOST HYBRID SEED CORN COSTS TOO MUCH

Why? Mainly because of the way it is sold. We all know that competition for dealers has caused hybrid corn companies to bid up the dealer's commission until it's reached a point that is almost ridiculous. You, the farmer, pay that \$2.50 to \$3.00 extra on every bushel you buy through a dealer.

Gurney's believe a change in the method of marketing is due. That's the main reason we've gone back to our old brand of hybrid corn, Gurney's Golden Hybrids, so we can set our own price.

There is nothing new to us about the hybrid corn business. We've

been in it for a long time. After consideration of production costs, background, and proper breeding, we are again proud to be offering those famous Gurney Golden Hybrids. Many of you know what they did before—we know they'll do as good or better now.

No one believes in prices being too high, nor too low; here at Gurney's we've always believed in a fair price. So when the time comes that a sky-high price is put on something all farmers need and depend on, such as hybrid seed corn, we feel it is time something is done about it. Just compare our prices with others and you will see that we have done something about it.

IT PAYS TO PLANT GURNEY'S GOLDEN HYBRID

That is just what you will say after you harvest your first crop of those famous Gurney Golden Hybrids. Your corn crop is too important to take chances with anything but the best, and the yields have proven time and again that Gurney's Golden Hybrids are "as good as the best and better than most." Give them a try, and you too will be convinced.

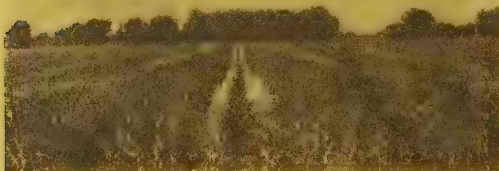

The Home of Gurney's Golden Hybrid Corn

The above picture shows a partial view of our big, Gurney's Golden Hybrid seed corn plant here at Yankton. We have all of the equipment necessary, including dryers, latest type of cleaning and grading equipment, as well as storage facilities.

Northern Grown for Northern Planters

Gurney's Golden Hybrids are raised right here at Yankton. They are northern-type hybrids, adapted to conditions in this part of the country, and are hybrids that will adapt themselves quickly to soil and climatic conditions. All Gurney's Golden Hybrids are cold-resistant, farmer-type hybrids that are not hard and flinty. The ears hang on well in the fall but pick easily by hand or machine. Every bushel is treated with special dust to protect against soil-borne disease.

A Field of Gurney's Golden Hybrid Corn

Gurney's Golden Hybrids have everything. Foundation seed is the finest. Fields are isolated at above standard rules. Extra time is spent on detasseling and grading. The Gurney's Golden Hybrid seed corn you receive has cost as much to produce as any other brand of seed corn on the market. It costs you less because we sell the most economical way possible—by mail.

Friendship Corn

How much of the seed corn you have purchased in the past has been "Friendship Corn"?

Did you ever stop and think of your valuable time that has been wasted by a succession of seed corn agents calling on you every fall?

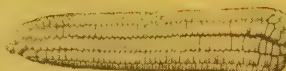

Originally agents were perhaps necessary to spread the hybrid corn gospel—now they've served their purpose. You farmers should be able, if you wish, to buy your hybrid seed corn in the same way you buy your field seed, and at the same low selling cost.

Know Your Maturity

Take into careful consideration your normal growing season and, remember, the law of averages proves that it does not pay to try to stretch your luck. In other words, if you live in a locality where a 100 day corn is about right—don't take a chance that you are going to have an extra-long growing season and plant a 110 day corn. Occasionally it works; but don't count on it. The numbers of our Gurney's Golden Hybrid varieties indicate approximate maturities for our territory. You should also bear in mind the fact that corn matures about five days earlier for each 100 miles it is moved south, or five days later for each 100 miles you move it north. Favorable weather conditions also play an important factor in the over-all maturity. Again we say—don't try to stretch your luck.

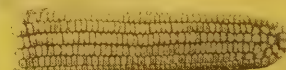

ne's Golden Hybrid varieties indicate approximate maturities for our territory. You should also bear in mind the fact that corn matures about five days earlier for each 100 miles it is moved south, or five days later for each 100 miles you move it north. Favorable weather conditions also play an important factor in the over-all maturity. Again we say—don't try to stretch your luck.

THE BEST FOR YOU

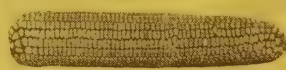

GURNEY'S 85 (83-86 Day)

This is the earliest reliable hybrid we know of. You'll be amazed at the yield for a corn as early as this one. Stands well, picks easy, and we'll put it up against any early hybrid on the market. See Prices on Pink Price List.

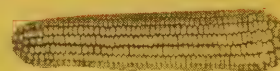

GURNEY'S 100 (100-105 Day)

A reliable heavy producer. Matures easily in the Huron and Brookings area in normal years. Fine for a late planting in Yankton and areas with like growing seasons. See Prices on Pink Price List.

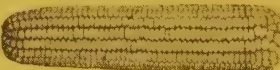

GURNEY'S 115 (112-115 Day)

Heavy dark green foliage, big ears and stiff stalk. You'll brag about the yields from this corn. Widely adapted. Suitable for the Sioux Falls and Yankton areas and similar climates. See Prices on Pink Price List.

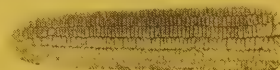

GURNEY'S 90 (88-92 Day)

Larger and a little later than our eighty-five day series. Matures clear to the North Dakota line. Consistently produces heavy yields. One of our oldest and most reliable early numbers. See Prices on Pink Price List.

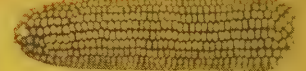

GURNEY'S 105 (105-108 Day)

We've had wonderful results with this in the Mitchell and Madison areas. Extra-large ears with a beautiful orange tint. Excellent standability and drought resistant. Good picker and high yielder. See Prices on Pink Price List.

GURNEY'S 118 (114-118 Day)

A real beauty with big, rough, golden ears. You cattle feeders will really go for this one. Adapted to southern South Dakota, northern Nebraska and similar climates. A real favorite because of its exceptional feeding qualities and its heavy yields. See Prices on Pink Price List.

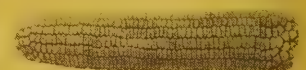

GURNEY'S 95 (92-95 Day)

Larger ear and heavier yielder than our ninety day series but will not mature quite as far north. The heaviest producer in our real early numbers. Thick ear, deep kernel. Matures as far north as Aberdeen. See Prices on Pink Price List.

GURNEY'S 112 (106-110 Day)

This is one we are really proud of. Will produce more corn in a shorter time than any variety we know. High shelling percentage, big yielder. One of our best sellers that can really take it. See Prices on Pink Price List.

GURNEY'S 118A (116-120 Day)

Our largest and heaviest producing variety. A close relative to our 115 series. Perfect for northwest Iowa, southern South Dakota, and northern Nebraska. Big ears, stiff stalk, heavy, dark green foliage. See Prices on Pink Price List.

Careful Grading

Extra attention is given to every single bushel of Gurney's Golden Hybrid corn processed. It is not by accident that every kernel of corn you receive is perfectly graded. Only by using the finest corn-grading equipment available is it possible for us to offer you the best graded corn you've ever seen. Our flat edgedrop arade will run through your planter like a dream, while the round hill drop not only plants just as easily—but costs you less. You'll be more than thankful at planting time that you chose Gurney's Golden Hybrids.

SEED CORN YOU CAN DEPEND ON

OPEN POLLINATED - - - STATE HYBRIDS

The Truth About Open Pollinated Corns

Why should I plant Open Pollinated Corn? That is a good question in view of the splendid records Hybrid Corn has been making. The answer is—you should plant it **ONLY IF IT DOES BETTER FOR YOU IN YOUR LOCALITY.** We realize that a good Hybrid Corn suitable for your locality is superior to good Open Pollinated varieties. The fact remains that there is a large "marginal" corn growing area

where, year in and year out, **OPEN POLLINATED CORNS** will produce a **BETTER CROP—MORE OFTEN** and for **LESS MONEY.** You fringe-area corn growers can **PLAY SAFE** with the proper Open Pollinated Corn. Popular demand from you folks in the northern corn belt has made us the logical **OPEN POLLINATED SEED CORN CENTER OF AMERICA.**

Gurney's Open Pollinated Seed Source

Gurney's Open Pollinated seed corn is NOT bought on the open market "catch as catch can." We grow hundreds of acres of Open Pollinated corn and know the seed source of every bushel sold. This insures purity of strain, which is the most important single factor to you Open Pollinated corn growers.

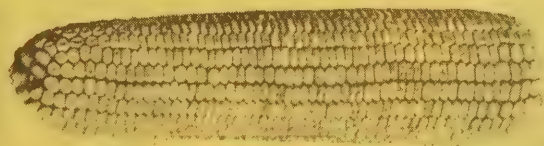

We have been in the Open Pollinated seed corn business about as long as any other company in the entire country. Many of the corns we are offering were our own introduction—varieties that have been doing a wonderful job for years. If you plant Open Pollinated seed corn—play safe—order from Gurney's and be sure you get what you order.

Extra-High Germination

You get "tops" in germination when you buy Gurney's Open Pollinated seed corn because we can utilize our huge drier and take in the seed before cold weather. All of you farmers realize the extreme importance of high germination, and with every bushel of Gurney's Open Pollinated seed corn, you get the very best germination possible.

Careful Grading

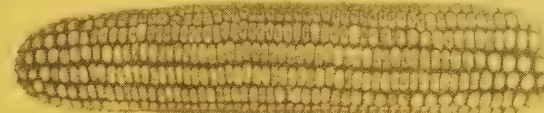

We are just as careful and accurate in our grading of all Open Pollinated corn as we are with our famous Gurney's Golden Hybrids. In fact, we use the same equipment. You won't run into any "snags" at planting time with any of the corn listed on this page.

MINNESOTA 13

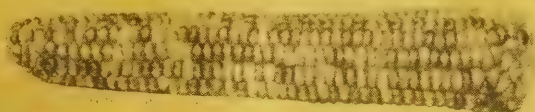

This is a medium-early corn. Suitable for central South Dakota and similar climates. A little later than Haney strain but **LARGER** ears and a **HEAVY YIELDER.** Stands 6-to-7 feet tall. Our exceptional strain of Minn. 13 will **LOAD YOUR CORN CRIB.** See Item No. MI, Pink Price List.

MINNESOTA 13 (Haney Strain). An excellent yellow corn that looks about like regular Minn. 13 but it is earlier. A very fine corn for you southern North Dakota growers and similar climates. Widely adapted and a good sound investment. See Item No. MH, Pink Price List.

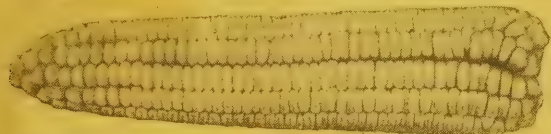

NORTHWESTERN DENT

Beautiful red dent with yellow cap. Wonderful for fodder or grain. A hardy, heavy-yielding, drouth-resistant corn for you folks in northern South Dakota and like climates. Its **EXTRA FEED VALUE** makes it **ONE OF THE BEST.** See Item No. ND, Pink Price List.

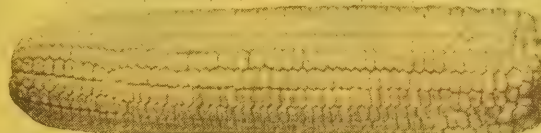

Gurney's Famous RAINBOW FLINT

Gurney's "Tall" **RAINBOW FLINT.** We originated this corn in 1915 and are proud of it. Stalks 7 to 8 ft. tall with two ears to the stalk and leafy clear to the ground. Heavy yielder. Highly drouth resistant. Excellent for fodder and can't be beat for hogging off. So widely adapted it can be successfully grown clear to the Canadian line. See Item No. RF, Pink Price List.

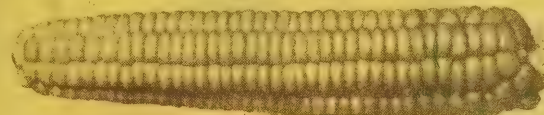

Gurney's AUGUST 15th

(Fine for machine picking.) Here's an open pollinated corn that we are proud of because we know it will do a job for you. This is our origination. Plant it by mid-May and you can generally husk it by August 15th. If the earliest Hybrids have been giving you trouble—try August 15th—**IT'S A CINCH.** See Item No. AU, Pink Price List.

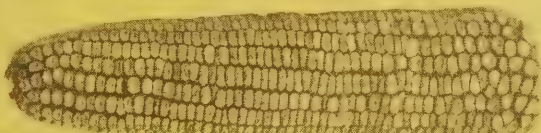

Gurney's SILVER KING

Here is the open pollinated white corn that is a real beauty. Loads of big, beautiful, white ears often 8 to 12 inches long. They generally bring a nice premium too. Fine for central to southern South Dakota and like areas. Will really give the Hybrids a "run for their money." See Item No. SK, Pink Price List.

FALCONER

You folks in North Dakota and northern Minnesota that want an early, semi-dent, can't go wrong with this wonderful producer. It is hardy and the **YIELDS WILL AMAZE** you northern corn growers. Falconer is truly a drouth-resistant, northern-type corn that always turns in an excellent performance. See Item No. FA, Pink Price List.

DE WOLF'S PROLIFIC

This is the largest, heaviest-producing, Open Pollinated variety we are offering. De Wolf's Prolific is five to seven days later than Minnesota 13. Stands very well for Open Pollinated corn. An excellent variety for southeastern South Dakota, eastern Nebraska, and similar climates. Not too much available, so you'll have to hurry. See Item No. DW, Pink Price List.

IMPORTANT NOTICE—READ CAREFULLY

How We Ship Seed Corn

OPEN POLLINATED AND STATE NUMBERS: We do NOT pay transportation on Open Pollinated or State Hybrid seed corn orders; such orders are shipped freight collect. Late orders that require express or parcel post shipments are sent transportation collect. For an estimate on your freight charges, see chart at right and carefully note **MINIMUM** charges listed **BELOW CHART.** Shipments of less than 100 lbs. take full 100 lb. rate. 250 lbs. would take 2½ times the 100 lb. rate, etc. Pick out town on chart nearest you to estimate freight rates per 100 lbs. If, after figuring your transportation cost, you find it is **LESS** than **MINIMUM CHARGE** for any one shipment—**USE MINIMUM CHARGE.**

GURNEY'S GOLDEN HYBRIDS: Orders for less than 3 bu. sent freight collect. See minimum freight charges at right. All orders for Gurney's Golden Hybrids in lots of 3 bu. or more and accompanied by a full remittance—**SENT FREIGHT PAID**—to the following states only: N. Dak., S. Dak., Nebr., Minn., Ia., Mont., Wyo., Colo. To all other states, sent freight collect. Late orders for 3 bu. or more that require express or parcel post shipments sent promptly and you pay only the difference between freight—and express or parcel post rates.

Freight is the economical way to ship, so Order Early. Allow at least 2 WEEKS' time to receive freight shipment.

STATE HYBRIDS

Dependable—Priced Right

Many folks still want State Numbers and we have them. We offer these numbers because they have proven themselves. However, we still believe there is a Gurney's Golden Hybrid that will do better for you.

Iowa 4417

A newer and earlier introduction than some of the Iowa numbers, but already in great demand. Try it as far north as southern Minnesota and in southeastern South Dakota. Good ear type and picks well. (98-102 day.) See Prices on Pink Price List.

Iowa 4297

A mid-season, stiff stalked hybrid that can really take the weather. If you machine pick, you will love this fine Iowa

Hybrid. Lots of corn borer tolerance, too. A nice clean ear that shells out high. (106-110 day.) See Prices on Pink Price List.

Iowa 4316

Stiff stalks, heavy ears and a real "feeder-type" corn. If you like little cobs and **LOTS OF KERNELS**, you'll like Iowa 4316. Northern Nebraska, southeastern South Dakota and Iowa. (100-105 day.) See Prices on Pink Price List.

Iowa 306

Just a little later than Iowa 339 and almost the same blood line. If you want that extra yield in a 110 day corn, this is the one for you. Heavy ears, stiff stalk and a tremendous root system. (110 day.) See Prices on Pink Price List.

Gurney's HOUSE PLANTS

If you love flowers and green plants, you like to have them the year around. That is just what you can have with house plants. They look mighty cheerful in your house any time of the year, but particularly when the ground is covered with snow and all the foliage is gone from the outdoor trees and shrubs. House plants are the cheapest and

best "interior decorations" you can buy. NOTICE: Gurney house-plants are shipped to you in a separate package direct from our greenhouses, as soon as weather permits a safe shipment. All grown in 2 1/2" pots and are in fine shape for transplanting. ALL HOUSE PLANTS ARE SHIPPED POSTPAID.

4062—POTTING SOIL. This mixture contains the best loam soil with added humus, nitrogen, phosphorus and potash, plus Vitamins B1, B2, plus Rootone for stimulating root growth. A wonderful all-purpose potting soil. 1 gal. enough for 10 to 12 four-inch pots. 1/2 gal. 1.10; 1 gal. 1.60, postpaid.

"No Sunshine" HOUSE PLANTS

The following house plants are very fine in places that get little or no sunshine.

MARANTA
2N423—Highly decorative with large canna-like leaves of bright blue-green spotted with brown areas. 65c each; 3 for 1.79.

CHINESE EVERGREEN
2N413—Rich dark green, glossy leaves. Does best in spots without sunshine. 75c each.

VARIEGATED PEPEROMIA
2N417—Very popular, low-growing, round-leaved plants of vivid coloring. Bright green, spotted with bright yellow. Fine for coffee table. 39c each; 3 for 98c.

SANSEVIERIA
2N411—Snake Plant. Adapted to any location in the home. 39c each; 3 for 98c.

PHILODENDRON
2N412—This is the vine of a thousand indoor uses. 39c each; 3 for 98c.

PEPEROMIA
2N416—Dark green. Grows anywhere. Try it on the coffee or end table. 39c each; 3 for 98c.

SILVER THREADS PLANT AND PERSIAN SHIELD described and priced lower right-hand section of this page.

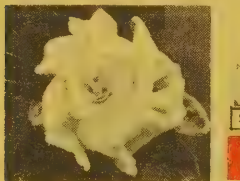

2N633X—NO SUN COLL. 1 each of Maranta, Silver Threads Plant, Variegated Peperomia, Chinese Evergreen. 2.29.

HOUSE FERNS

BOSTON
2N260—Most popular. Erect and vigorous. 39c each; 3 for 1.10.

FLUFFY RUFFLES
2N264—Beautiful large, fluffy frilled leaves. 45c each; 3 for 1.19.

GARDENIA

2N295—Often called the flower of romance. Down south, these flowers grow right outdoors. You will have lots of fun trying to grow them indoors. Some succeed, some don't. It depends on conditions. Once you see the huge, white, double, fragrant blooms you'll know it was worth the effort. Plant outside in sun for summer. 75c each; 3 for 2.10.

Porch Box Collection
2N565X—Just the collection to dress up your porch box. 2 Geranium Improved Ricard, 2 Baby Tears Vine, 1 Trailing Ivy-Leaf Geranium, White, 2 Fuchsia, Gypsy Queen, 2 Coleus, 1 Yellow Lantana. All 10 only 3.69.

LACE FERN

2N270—(Asparagus Plumosus). Rich dark green leafy foliage. 39c each; 3 for 1.10.

GREEN RIPPLES
2N265—Beautiful, bright green fluffy fern from Oregon.

The Useful, Lacy IVIES

SPEARHEAD IVY
2N352—This one is the long, trailing ivy with beautiful leaves shaped just like the head of a spear. It is outstanding and easy to grow. 89c each; 3 for 1.59.

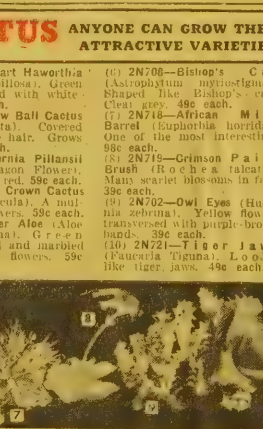

GURNEY'S BRANCHING
2N353—Here is a beautiful, branching, many-stemmed ivy. Easy to grow. 39c each; 3 for 98c.

GRAPE IVY
2N354—This beautiful ivy has a 2-segment leaf. Grow it anywhere as it doesn't need a particle of sun. 39c each; 3 for 98c.

GOLD DUST
2N355—This is one of the new ivies you should be growing. Inaugural green leaves flecked all over with gold. Very beautiful and unusual. 98c each; 3 for 2.79.

GLACIER
2N350—Very showy. Each leaf edged with emerald white. Considered the queen of ivies. 98c each. See picture on next page; lower left corner.

Special Offer of 4 Lovely House Plants
2N536X—4 of the most popular house plants we offer: 1 Double Rose Begonia, 1 White, 1 Lady Geneva African Violet, 1 Glacier Ivy, 1 Marie Rober Martha Washington Geranium. All 4 for only 3.25.

Similar to Fluffy Ruffles only smaller. 85c each; 3 for 2.39.

COLLECTION

2N523X—1 each of the 4 house ferns listed for only 1.89.

GURNEY'S BRANCHING IVY

GRAPE IVY
2N354—This beautiful ivy has a 2-segment leaf. Grow it anywhere as it doesn't need a particle of sun. 39c each; 3 for 98c.

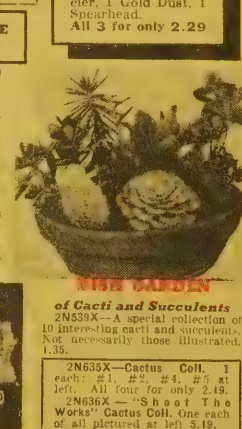

GOLD DUST
2N355—This is one of the new ivies you should be growing. Inaugural green leaves flecked all over with gold. Very beautiful and unusual. 98c each; 3 for 2.79.

GLACIER
2N350—Very showy. Each leaf edged with emerald white. Considered the queen of ivies. 98c each. See picture on next page; lower left corner.

Special Offer of 4 Lovely House Plants
2N536X—4 of the most popular house plants we offer: 1 Double Rose Begonia, 1 White, 1 Lady Geneva African Violet, 1 Glacier Ivy, 1 Marie Rober Martha Washington Geranium. All 4 for only 3.25.

GLACIER
2N350—Very showy. Each leaf edged with emerald white. Considered the queen of ivies. 98c each. See picture on next page; lower left corner.

Choice Ivy Collection
2N533X—1 Glacier, 1 Gold Dust, 1 Spearhead. All 3 for only 2.29

For Indoor Gardens, for Bedding Plants, for Window and Porch Boxes

Most Plants Described Below Are Illustrated at Right

(1) PETUNIAS

You and your friends will marvel at the beauty and size of these new named varieties of Double Petunias. Illustrated at the right. The flowers on all of them are a good 3 to 1 inches across and heavily ruffled. Each flower is a magnificent blend of different shades of color accented by brighter veining. Pictures just can't begin to describe their beauty.

No limit to the number of their uses. Use them as house plants, in window boxes, porch boxes, borders along the walk or in the flower garden. No matter where you put these beauties you will be more than pleased. Do well anywhere and practically take care of themselves.

2N432—Nocturne.
2N433—Rhapsody.
2N434—Sonata.
2N430—Caprice.
2N429—Allegro.
2N431—Minuet.
49c each; 3 for 1.19.

2N571X—Giant Petunia Coll. One each of all 6 varieties above for only 2.29.

(2) GERANIUMS

2N340—Improved Ricard. Brilliant red. Fine Bloomer.
2N320—Apple Blossom. Bright shrimp pink.
2N342—Snowball. Pure white and overblooming.
2N343—Salmon Flat. Beautiful salmon.
Prices on above: 49c each; 3 for 1.39, pnd.
2N525X—1 each of 4 named varieties above, all for 1.69.

Scented Geraniums

2N325—Lemon scented.
2N338—Nutmeg scented.
2N337—Rose scented. 59c each; 3 for 1.59.

2N526X—1 each of 3 Scented Geraniums. 1.39.

(3) Ivy-Leaf Geraniums
These beautiful Geranium-flowering vines make good house plants and are fine for porch boxes or in the flower bed during the summer. Many other uses.

2N216—Willy. Double. Dark black-red.
2N313—Double Salmon. Large blossom, rich color.
2N215—Snowdrift. Finest double white.
2N312—Chas. Turner. Outstanding double. Bright pink.
2N314—Intensity. A very showy double red.
All Ivy Leaf Geraniums: 45c each; 3 for 1.19.

2N622X—Ivy Leaf Geranium Collection. 1 each of all varieties above for 1.89.

(4) Variegated-Leaf Geraniums

Here are some newer varieties of the familiar old geraniums. Their foliage is startlingly beautiful.

2N347—Mme. Langath. Green leaf with white edge. Double red flowers.
2N349—Distinction. Frilled and ruffled leaves with a broad ring band of brown.
2N348—Skies of Italy. Rich leaves with a color pattern of green, yellow, red and bronze.
2N346—Happy Thought. Variegated Leaf Geranium prices: 98c each; 3 for 2.69.

2N621X—Collection of Variegated Leaf Geraniums. 1 each of 4 varieties above only 3.29.

(5) FUCHSIA

(Ladies Ear Drops)

All they need is cool conditions, plenty of light, but no hot sun.

2N286—Uncle Jules. Huge double violet-blue. Flowers seem extra large compared to a normal foliage. 59c each; 3 for 1.49.

2N823—Gypsy Queen. One of the finest. Huge rosy-lavender flowers. 49c each; 3 for 1.39.

2N285—Honey Moon. Sensational blue. It is a Veronica blue with red sepals. 59c each; 3 for 1.49.

2N280—Yuletide. Very popular double white with crimson sepals. 49c each; 3 for 1.39.

2N278—Bewitched (Patented). Gorgeous deep purple with contrasting white sepals. 98c each; 3 for 2.85.

2N634X—Pictured Fuchsia Collection. 1 each of the 5 Fuchsias pictured. 2.98

(6) PELARGONIUMS

"Martha Washington" Geraniums

These plants are commonly called "Martha Washington" Geraniums, but they really are Pelargoniums. You can expect blossoms by Easter and through Memorial Day. Bloom early spring till late fall. Don't overwater plants in fall and winter.

2N332—Marie Rober. Most popular. Deep rich red with dark black markings. 69c each; 3 for 1.89.
2N368—Mrs. Mary Bard. Best white. Vigorous and large growing. 69c each; 3 for 1.89.
2N370—Empress of Russia. This beauty is the showiest of all. 89c each; 3 for 2.49.
2N371—Waltz Time. Rich orchid, beautifully ruffled. 79c each; 3 for 2.19.
2N369—Jungle Night. (Not illustrated.) The blackest of all. The entire flower is deep black and shining. 89c each; 3 for 2.49.

2N637X—Pelargonium Collection. 1 each of 4 pictured varieties only 2.69.

2N627X—1 Jungle Night, 1 Marie Rober, 1 Mary Bard for only 1.98.

2N285—Honey Moon. Sensational blue. It is a Veronica blue with red sepals. 59c each; 3 for 1.49.

2N280—Yuletide. Very popular double white with crimson sepals. 49c each; 3 for 1.39.

2N278—Bewitched (Patented). Gorgeous deep purple with contrasting white sepals. 98c each; 3 for 2.85.

2N634X—Pictured Fuchsia Collection. 1 each of the 5 Fuchsias pictured. 2.98

(6) PELARGONIUMS

"Martha Washington" Geraniums

These plants are commonly called "Martha Washington" Geraniums, but they really are Pelargoniums. You can expect blossoms by Easter and through Memorial Day. Bloom early spring till late fall. Don't overwater plants in fall and winter.

2N332—Marie Rober. Most popular. Deep rich red with dark black markings. 69c each; 3 for 1.89.
2N368—Mrs. Mary Bard. Best white. Vigorous and large growing. 69c each; 3 for 1.89.
2N370—Empress of Russia. This beauty is the showiest of all. 89c each; 3 for 2.49.
2N371—Waltz Time. Rich orchid, beautifully ruffled. 79c each; 3 for 2.19.
2N369—Jungle Night. (Not illustrated.) The blackest of all. The entire flower is deep black and shining. 89c each; 3 for 2.49.

2N637X—Pelargonium Collection. 1 each of 4 pictured varieties only 2.69.

2N627X—1 Jungle Night, 1 Marie Rober, 1 Mary Bard for only 1.98.

RAINBOW BEGONIAS

2N244—All the colors of a Persian rug make up the brilliant foliage of these plants. 79c ea.; 3 for 2.29.

CLIMBING REX BEGONIA

2N236—(Cissus Discolor). Not really a true Begonia but the flowering rivals that of any Rex. Leaves are 6" long and of intense velvety green shaded with light green. Strongly defined veins. The whole leaf flushes with a beautiful rose color changing to purple as it ages. Use a small trellis with this one. A beautifully colored vine. 1.49 each.

(11) LANTANA

2N532X—1 each of the above 5 colors of Lantana for 1.59.

(12) GLACIER IVY

2N350—Here it is—the Queen of the Ivies. Each beautiful leaf is edged with emerald white. You never saw one as showy. 98c each.

(13) COLEUS

2N414—Most beautiful of all foliage plants. All colors of the rainbow in beautiful patterns in one plant. One each is all right. 3 for 89c; 6 for 1.49.

(14) PERSIAN SHIELD

2N424—(Strobilanthes). A showy green plant with bright green leaves that are long and pointed, shaped like a shield. Each leaf has a brilliant purple sheen. Gets its name from shape of leaves and its coloring. Highly ornamental. 75c each; 3 for 1.98.

(15) SILVER THREADS PLANT

2N420—(Fittonia). Here is a foliage plant that is showy as well as useful. Has bright green foliage that are beautifully netted with silvery white veins. Give it light but no sun. 75c each; 3 for 1.98.

(16) TRAILING VINES

2N418—Baby Tears Vine. A bright green cascade of tiny round leaves from this fine trailing vine. Anyone can grow it anywhere. 39c each; 3 for 98c.

Trailing Bellflower. You will have masses of neat, light green foliage from these delightful trailing vines. Almost covers itself in the summer with loads of double flowers that look like little roses. 2N425—Double Blue. 2N426—Double White. Your choice: 59c each; 3 for 1.59.

(9) SULTANAS

(Impatiens.) These

bright and showy plants are always in bloom and easy to raise. Do well in all sorts of house conditions. Also fine for the garden during summer. Make a good-sized bush when set outdoors.

2N453—White. 2N450—Red. 2N451—Salmon. 2N452—Variegated leaf with red flowers. 39c each; 3 for 98c.

2N514X—Collection New Begonias. 1 Large Leaf Angel Wing, 1 Lettuce Leaf, 1 Watermelon, 1 Joe Hayden. 3.29.

(9) SULTANAS

(Impatiens.) These

bright and showy plants are always in bloom and easy to raise. Do well in all sorts of house conditions. Also fine for the garden during summer. Make a good-sized bush when set outdoors.

2N453—White. 2N450—Red. 2N451—Salmon. 2N452—Variegated leaf with red flowers. 39c each; 3 for 98c.

AFRICAN VIOLETS

African Violets require a little extra care but are well worth it. Give them light, but protect them from direct sun. Keep the temperature cool and even. Occasionally put pan of water under pot until soil is moist, then remove pan and drain off excess water. Don't wet foliage.

2N201—Blue Boy. Beautiful shade of deep blue.

2N202—Pink Beauty. Clear pink.

2N203—White Queen. A delightful white.

2N204—Redhead. The nearest to a red.

Your choice of above: 85c each; 3 for 2.39.

2N510X—1 each of the above for only 2.98.

New Hybrid African Violets

2N195—Double Delight. One of the best of all doubles. Very large silvery blue flowers on long stems. 1.25 each; 3 for 3.49.

2N188—Geneva Rainbow. Lovely companion to Lady Geneva. Frosty, burgundy red, edged with snowy white. As with Lady Geneva, the white shows up better on older plants. 1.50 each; 3 for 4.19.

2N205—Lady Geneva (Patented). One of the most beautiful of all African Violets. Flowers are of deepest blue with an edging of white. This edging deepens as plant ages. A fine new one. 1.50 each; 3 for 4.19.

2N184—DuPont Silver Pink. Beautiful, clear, silvery pink flowers. Not quite as large as DuPont No. 1, but far above average. 1.25 each; 3 for 3.49.

2N198—Double Purity. We know you will like this one. A fine double white with large blooms on long stems. 1.50 each; 3 for 4.19.

2N193—Red King. Probably one of the deepest reds Strong growing and free blooming. 1.50 each; 3 for 4.19.

2N185—DuPont Hybrid No. 1. Huge lavender flowers about twice as large as the ordinary type borne on big husky plants. 1.25 each; 3 for 3.49.

2N174—Fantasy. A variegated variety with lavender-pink flowers splashed, rayed and dotted deep purple. No two flowers the same. 1.25 each; 3 for 3.49.

2N178—Double Orchid Girl. An outstanding double. Huge blooms the size of 25c pieces. Bright lavender-pink with wine red markings in center. Deeply scalloped "girl" foliage is slightly bronzed. 1.25 each; 3 for 3.49.

Collection of Double Violets
2N640X
One each of Double Delight, Double Purity, and Double Orchid Girl. All for 3.69.

FLAME VIOLET

(Episcia Coccinea)

2N291—The exciting, vivid, new, Flame Violet is too gorgeous for words. We believe you will agree it is truly the "most beautiful house plant in all of the world." Grows and looks like an African Violet—in fact, it is a close cousin—but by far the prettiest member of the family. Imagine gorgeous, broad, thick, plush-like leaves of deep bronze-green, that are veined a delightful emerald green. (The leaves undoubtedly are the prettiest of any known house plant.) The flowers are a brilliant scarlet—a true flaming red! This delightful combination of a beautiful blossom and gorgeous foliage makes a sight all your friends will admire.

Flame Violet likes plenty of warmth and light, but no direct sunshine. Our plants are shipped fresh and vigorous out of 2 1/4" pots, direct from our greenhouses. You cannot buy Flame Violet from your local dealer. Order your "most beautiful of all house plants" today. 1.98 each; 3 for 5.40, postpaid.

Gurney's GREEN THUMB Collection of HARDY PERENNIALS

B3286X—Here are five hardy, beautiful, sure-to-grow perennials—the kind that will do well for you this year and for years and years to come. They are worth at least twice this much sold separately:

FREE GIFT: 1 Clove (Grass) Pink. Very fragrant and blooms all summer.

Shasta Daisy

Chinese Bellflower

B2012—(Balloon Flower Playtycodon.) Something really new. Beautiful light shell pink. Blooms from early spring till late fall. 75c each; 2 for 1.39.

B2011—Blue Chinese Bellflower or Balloon Flower. Buds are like balloons, a rich blue that bursts into single blooms and looks like stars. Easy to grow. 39c each; 3 for 98c, postpaid.

GAILLARDIA

(Blanket Flower)—One of the most striking perennials for any section of the country. Grows anywhere. Brilliant flowers bloom from late spring until early frost. For house or garden.

B2055—Burgundy (clear red). **B2057**—Sun God (golden yellow). **B2056**—Dazzler (rings of red and yellow). 39c each; 3 for 98c, postpaid.

B3279X Collection—1 each of the above 3 for 89c, p.p.d.

4 Brand New Phlox

B1605—Bluette. A new, large-flowered, pale blue.

B1652—Pinkette. A sister to Bluette. A large, shell pink.

B1651—Polka Dot. Has huge white flowers, each with a brilliant carmine eye.

B1657—Salmon Glow. This is the finest salmon-colored Phlox ever introduced.

Prices on above 4, 49c each; 3 for 1.19, postpaid.

A Beautiful Trio of Phlox

We have grouped these 3 together because they make such a fine combination of pink, white and red:

B1661—Sir John Falstaff. A new English Phlox with giant trusses of luminous salmon-pink.

B1669—World Peace. Large flowers of pure, glistening white. Best of new whites.

B1615—Flash. A good name for a bright, showy, rosy-red.

Prices on above 3, 49c each; 3 for 1.19, postpaid.

RUSSELL LUPINES

Tall, Stately

B2111—Lupines have beautiful sweet pea-like flowers with very long stems. 3 feet. They bloom from June until August with flowers of any color of the rainbow. 39c each; 3 for 98c, postpaid.

MISSOURI PRIMROSE

B2130—Gorgeous yellow blooms as large as a teacup on a low semi-trailing bush blooming all summer. Prefers it hot and dry. A very long-lived perennial and a very showy one. 39c each; 3 for 98c, postpaid.

HARDY VIOLETS

B2285—Royal Robe. Delicately fragrant flowers borne on long stems. Deepest violet blue.

B2286—Gurney's Red. Strong and hardy.

B2287—Ohio. New hardy white, deep blue eyes. Largest.

B2288—Freckles. White with lavender freckles. 49c each; 3 for 1.29, postpaid.

VIOLET COLLECTION

B3259X—1 each of four varieties—1.59, postpaid.

Hardy Loosetrife

B2114—Morden's Pink. This particular variety was originated in Canada, and will grow from wet swamp to dry wind-swept prairie. Long spikes of beautifully clear pink flowers. Fine for cutting, and extremely ornamental in the garden. 18 in. to 3 ft. high. Blooms all summer. 59c each; 3 for 1.49, postpaid.

HOLLYHOCKS

An old favorite dressed up with petticoats. Easy to grow. Blooms. Easy to grow.

B2081—Double Deep Maroon.

B2082—Double Newport Pink.

B2084—Double Yellow.

B2085—Double Mixed.

B2086—Double Scarlet Red.

B2088—Double Lilac.

B2083—Double White. 39c each; 3 for 98c, postpaid.

B3277X—1 each of all 7 for 1.98, p.p.d.

CANTERBURY BELLS

GIANT BELLS—So lovely they should be in every garden! 2 to 3 ft. high with large cups and saucers all up and down the tall stalk.

B2028—BLUE.

B2029—PINK.

B2030—WHITE.

39c each; 3 for 98c, postpaid.

B3276X—Canterbury Bells Coll. 2 Blue, 2 Pink, 2 White. All for 1.69, postpaid.

SWEET WILLIAM

B2257—Newport Pink.

B2259—Scarlet Beauty.

B2258—Purple Beauty.

B2256—Double Choe Mixed. White, pink, red and an assortment of these in individual flowers.

B2256—Dwarf Mixed. Plants 3 to 4 inches high, with clusters of full-size blossoms. Fine for rock garden, edging.

39c each; 3 for 98c, p.p.d.

B3257X—Sweet William Collection. 1 each of 5 above, postpaid, only 1.19.

PANSIES

B2299—Start your pansies the easy way—with these strong, healthy plants, all ready to bloom.

All are ruffled giants with frilled and wavy edges in all colors imaginable. 89c per dozen; 3 dozen for 2.39; 100 plants for 4.98, postpaid.

DELPHINIUMS

Delphiniums will grow most anywhere. Cut the stems off after they bloom for new blooms.

B2037—FINEST PACIFIC GIANT HYBRIDS MIXED. 39c each; 3 for 98c, p.p.d.

B2038—PURE WHITE DOUBLE PACIFIC HYBRIDS. Something new in Delphiniums. Goes beautifully with the dark blues. 45c each; 3 for 1.00, postpaid.

B2035—BELLADONNA. Lovely light blue—hardy single. 39c each; 3 for 98c, postpaid.

B2036—BELLAMOSUM. A midnight blue single. 39c each; 3 for 98c, p.p.d.

DELPHINIUM COLLECTION—B3262X

- 1 Delphinium BELLADONNA—Light blue.
- 1 Delphinium BELLAMOSUM—Dark blue.
- 1 NEW DOUBLE HYBRID MIXED.

All for 95c, p.p.d.

Outstanding Delphinium Bargain—B3263X

- 1 Light Blue Belladonna
- 3 Midnight Blue Bellamosum
- All 6 for 1.75, postpaid.

FOXGLOVE

True Perennial Type

GLOWING GOLD

(Thermopsis)

Plant with Delphiniums

B2060—Absolutely hardy. Clean bright green foliage and long, up to 3 ft. spikes of sulfur yellow flowers. Try planting it with Blue Delphiniums. 39c each; 3 for 98c, p.p.d.

VIRGINIA BELLBELLS

Mertensia

B2289—Bloom very early in spring. Do well on the north side of the house. Like moist semi-shaded place, but with sun they grow well in the open field in full sun. In summer die down to ground and disappear. Don't dig them up thinking they have died. 2 for 49c; 5 for 1.00; 10 for 1.98, postpaid.

COLUMBINES

B2021—Our mixture is Mrs. Scott Elliott's long spurred hybrids grown for their extra-long spurs and the brilliant selection of colors. They run in almost every conceivable shade from blues and purples through the pinks and red and yellows and browns to white. 39c each; 3 for 98c; 5 for 1.49, postpaid.

CREeping PHLOX

B1672—Blue Fairy. Mass of light blue flowers in early spring.

B1674—Red Brilliant. Sheets of bright red blooms.

B1673—Emerald Gem. Clear pink with vivid bright green foliage.

B1675—Snow Maiden. Pure white like a million snowflakes. 39c each; 3 for 98c, postpaid.

B3220X—Collection of 1 each of 4 above varieties 1.19, postpaid.

Hardy BACHELOR'S BUTTON

B2007—Hardy Blue Bachelor Button. (Or Centaurea Montana.) Clear blue 3" flowers.

B2008—Hardy Pink Bachelor Button. (Or Centaurea Montana.) Grows 2 ft. high, has 3" pink flowers.

Either of above, 39c each; 3 for 98c, postpaid.

B3256X—Hardy Bachelor Button Collection—2 each of above, 4 in all, for only 98c, postpaid.

6 Brilliant Phlox

B1653—Prime Minister. Large heads of white flowers with bright red eyes.

B1628—Jules Sandeau. One of the best of all Phlox. Large orange-red flowers borne in large panicles.

B1655—Progress. Nearest true blue of all Phlox and still scarce. Has very large flowers.

B1600—Africa. Bright crimson. One of the showiest

Gurney's HARDY PHLOX

of the new, large-flowering Phlox.

B1604—Border Queen. Has very large flowers in very large trusses. A fine, clear pink.

B1659—Spitfire. Brilliant orange-scarlet that stands out like a bonfire at night.

Prices on the "6 Brilliant Phlox" above, 45c each; 3 for 1.15, postpaid.

PHLOX is one of the very few perennial flowers where you can get almost any color you want, including shades of blue, plus some in which the individual blossoms have two colors. Therefore, with Phlox you can get some very beautiful, striking color effects, both borders and beds. And all of Gurney's Phlox are the new, larger-flowered varieties—much more beautiful than any you may have seen several years ago.

Phlox like full sun, but you

will find they will do well in partial shade also. In fact, the pastel pink and blues look better in partial shade where they hold their color better. Phlox grow from 18 to 36" high, depending upon the soil, and bloom in August and Sept. They are hardy, and do well in any ordinary garden soil. It is well to cut the flowers before they go to seed because the seed will come up the following spring in muddy magenta color, and grow vigorously enough to crowd out your pretty ones.

PURPLE BELLFLOWER

B2162—It is called Campanula Glomerata Superba—a terrible name for such a pretty plant. Makes clump about 18" across and high. Clusters of bell-shaped flowers of deep, rich purple in May. Lives for years. Hardy. 45c each; 3 for 1.19, postpaid.

ASTERS

Violetta

B1035—This Aster is deep, violet purple. The plants grow into a rounded bush about 2 feet high and wide. During September, the flowers cover the bush completely with semi-double flowers. 49c each; 3 for 1.29, postpaid.

Plenty

B1022—This is one of the new English Asters, and an unusually good one. It has blue semi-double flowers, each one about two inches across—the largest Aster flowers we have ever seen. Very hardy and easy to grow. Blooms early Sept. and lasts well into October. Grows 3 to 4 feet high and makes wonderful cut flowers. 65c each; 3 for 1.65, postpaid.

Peace

B1020—This is a sister of Plenty, but its color is a bright lavender. Same large, semi-double flowers, same hardiness, blooms at same time. Also 65c each; 3 for 1.65, postpaid.

Beechwood Challenger

B1001—Another English variety of great beauty. It is one of the best of all hardy red Asters. Very brilliant and beautiful. Grows up to 3 feet high. 49c each; 3 for 1.29, postpaid.

Peace and Plenty

B3003X—You're bound to want both of these fine new Asters so we are making you this special offer on them: 2 Peace and 2 Plenty, 4 plants in all, only 1.98, postpaid.

Aster Collection

B3004X—1 each of Violetta, Peace, Plenty and Beechwood Challenger, 4 beauties for only 1.98, postpaid.

Gurney's CHRYSANTHEMUMS

The varieties of 'mums listed here have been carefully chosen from our plantings of 145 different varieties. Some are brand new; some have been on the market a long time, but still are the best in their color or type.

B1422—Ermine. Fine, large, double white with center petals almost lemon yellow. Flowers very full. Long strong stems. Fine for cutting. 59c ea.; 3 for 1.59, postpaid.

B1439—Pink Opal. A gorgeous 1951 introduction of pale Persian-rose overlaid with cream tints. Large, fully double flowers up to 4 in. across. 69c each; 3 for 1.89, p.p.d.

B1457—Scarlet Crimson. Double crimson bordering on scarlet. Will be the brightest Mum in your garden. Fully double flowers are 3" across and borne in profusion. 49c ea.; 3 for 1.29, p.p.d.

B1448—Ray Dietz. Little buttonhole pompon of brightest yellow. Fully double. 1 inch across. Another beauty. 59c each; 3 for 1.59, postpaid.

B1426—Bonfire. Deepest glowing crimson pompon. Flowers 1½ to 2 in. across. Plants grow 2 to 3 ft. tall. A beautiful, richly colored mum. 59c ea.; 3 for 1.59, p.p.d.

B1416—Fuchsia Fairy. A mass of little, one-inch fuchsia-colored, fully double, flat flowers. 59c each; 3 for 1.59, p.p.d.

B1412—Charles Nye. 3-in. fully double

blooms of shining gold and yellow. Long stems for cutting. Undoubtedly the best of all deep yellow chrysanthemums. 59c each; 3 for 1.59, postpaid.

B1421—Carmine Queen. Very brilliantly colored Mum with large 3-in. double flowers borne on long stems. Showy carmine-red. 69c ea.; 3 for 1.89, p.p.d.

B1429—Lee Powell. Fine new introduction. Brilliant, fluffy, Chinese-yellow double Mums 4 in. across. Stems long and fine for cutting. 69c ea.; 3 for 1.89, p.p.d.

B1428—Huntsman. One of the most brilliant mums. Bright scarlet-orange with bronze tints. Good cut flower. 69c ea.; 3 for 1.89, p.p.d.

Gurney's Chrysanthemums Are Pot-Grown and Shipped in Pre-fertilized Moss—2 Ways Better

Gurney's Chrysanthemums are better than ordinary ones in these two ways:

1. They are grown individually in pots. They are not field-grown plants dug last fall and stored through the winter; often such plants do not come through winter storage in good shape. Our pot-grown ones are fresh and vigorous.

for 1.89, p.p.d.

B1462—Tangerine. 2- to 3-ft. plants with huge, double, tangerine-colored blooms 4 inches or more across on long stems. 59c each; 3 for 1.59, postpaid.

B1424—Du-Bon-A. Finest rich purple Mum we have seen. Large, fully double blossoms 3 in. or more across and are borne in great profusion. 69c ea.; 3 for 1.89, p.p.d.

B1456—Salmon Precose. A beautiful deep salmon blossom that is fully double. Reverse of petal is a light buff. Flowers over 3 in. across. Bushy, medium high plant. 69c ea.; 3 for 1.89, p.p.d.

2. Gurney's Chrysanthemums are grown, and shipped, in a special pre-fertilized moss. Those grown and shipped in dirt usually dry out in shipment, and the dirt crumbles and falls away from the roots, often lets them dry out and get broken. Thus dirt-grown mums often arrive in your hands in bad shape. Gurney's moss-grown and moss-shipped plants stay healthy, alive, sound-limbed, do not break in shipment. When you put them in the ground, they grow.

Gurney's Famous Hardy BLAZ-O-MUMS

These Miracle Mums start blooming the first year and in late summer and early fall cover themselves with beautiful flowers of all the Chrysanthemum colors. We have seen many Blaz-O-Mums that measured 3" across and 2" high, with flowers so solid and thick that no foliage showed. By actual count, over 1000 blooms on some plants the first year and more the second.

B1404—BLAZ-O-MUM PINK. Beautiful clear bright pink.

B1407—BLAZ-O-MUM WHITE. Opens slightly pinkish and changes to pure white.

B1406—BLAZ-O-MUM RED. A brilliant Santa Claus red.

B1403—BLAZ-O-MUM COPPER. A rich bright copper.

B1408—BLAZ-O-MUM YELLOW. A rounded pile of brilliant yellow blossoms.

Prices for above 6: 39c each; 3 for 98c, p.p.d.

B1405—BLAZ-O-MUM PURPLE. A brand new Blaz-O-Mum in bright purple. 45c each; 3 for 1.29, p.p.d.

Gurney's Blaz-O-Mum Trio—B3106X

1 Blaz-O-Mum pink
1 Blaz-O-Mum yellow
1 Blaz-O-Mum red
All three for **89c** p.p.d.

HARDY CARNATIONS—They bloom in your Garden like they do in the Greenhouse

Lovely as greenhouse varieties but hardy outdoors year after year.
PLANT PRICES: B2017—Double Pink; B2018—Double Scarlet; B2020—Double Yellow; B2019—Double White. 3 for 98¢; 39¢ each, postpaid.

GURNEY'S BARGAIN BLAZ-O-MUM COLLECTION
B3105X—1 each of the above 6 for 1.89, postpaid.

LIATRIS September Glory

B2109—(Blazing Star). Tall spiked 3 to 4 ft. long, and in good ground 5 ft., set with solid tufts of brilliant purple flowers. One of the most showy perennials. 49c each; 3 for 1.29, postpaid.

Hardy Snapdragons

B2197—LINARIA. Beautiful hardy yellow snapdragons. Medium tall. Easy to grow and so lovely. Buy at least three. 39c each; 3 for 98c, postpaid.

HARDY CANDYTUFT

B2016—Low-growing perennial with large clusters of snow white flowers in early spring. Gradually spread to make a mat several feet across. Foliage stays dark green throughout the year. 49c each; 3 for 1.29, postpaid.

PINCUSHION CARNATION

Tiny Rubies

B2027—A brand new little carnation that makes a solid pincushion of blue-green, needle-like leaves and tiny, pink, double little carnation blossoms. Fragrant, too. 50c each, postpaid.

OZARK COBEA

B2140—(Penstemon). Extremely hardy. Blooms are very large, purple with dots and splotches of darker color. Plant grows 20 to 24" high. Very free-blooming. 40c each; 3 for 1.00; 12 for 3.50, postpaid.

Giant Hibiscus

Flowers as big as saucers. 4 to 5 ft. tall. Heavy foliage. Blooms in August and September.

B2072—RED. B2073—WHITE. B2071—PINK. 39c each; 3 for 98c, postpaid.

B2251X—HIBISCUS COLLECTION. 4 in. each of the above three. All 3 for 80c, postpaid.

NEW GIANT HIBISCUS

B2070—"Crimson Eye"—Huge pure white flowers with deep crimson eye. Our stock is raised from divisions. 49c each; 2 for 89c; 3 for 1.19, ppd.

HARDY FLAX

(Linum Perenne)

Easiest to Grow

B2050—Ferny gray foliage and myriads of sky blue flowers all spring and summer. One of the loveliest, flashiest and easiest grown of perennials. 39c each; 3 for 98c, postpaid.

SILVER KING

B2250—The "Ghost Plant"; looks like it was sprinkled with silver dust. Grows anywhere. Use it for contrasting background. Hardy. 2 to 2½ feet high. Dry foliage makes wonderful winter bouquets; fresh foliage pleasing in any bouquet.

39c each; 3 for 98c, postpaid.

HEN and CHICKS

B2074—Like tiny 5-inch cactus. For cracks or crevices in the rockery or any dry, hot place in the garden. Each Hen rolls off several chicks each year. No rock garden is complete without several of these. Hardy anywhere. 39c each; 3 for 98c, postpaid.

YUCCA

B2298—Long stems produce as many as 200 flowers of pure white in June and July. Leaves remain green entire year. Gives a tropical effect. Very hardy. Excellent for sunny, hot, dry places along foundations. 39c each; 3 for 98c, postpaid.

Hardy Double Yellow BUTTERCUP

B2015—Fine clumps of dark green cut foliage with 18 to 24 in. stems loaded with large golden yellow double Buttercups. Do not confuse this with the low creeping kind that spreads all over the garden. Absolutely hardy. 39c each; 3 for 98c, ppd.

SHASTA DAISY

B2191—ALASKA. This is the early, easy-to-raise, lovely Daisy with flowers 4 to 5 in. across. B2192—GIANT SUPREME. Large glistening white flowers in June and July. Very showy.

PRICES ON ABOVE: 39c ea.; 3 for 98c, ppd. SHASTA DAISY BARGAIN—B3279X. 2 each of above varieties ONLY 1.19, postpaid.

Lily of the Valley

B2110—Thrives on almost any kind of soil and will adapt itself to pot culture in the winter. Its modest white bells are delightfully fragrant. Ideal for corsages. Does well on the north or east side of the house, or in partial shade. 39c each; 3 for 98c, postpaid.

Painted Daisy

(Pyrethrum) Large brilliantly colored daisies on long stems above a clump of fern-like foliage. They bloom all summer. Grow 2½ to 3 ft. tall. Grand cut flower and make a great showing in the garden. B2168—Red. B2167—Pink. B2166—Mixed. 39c each; 3 for 98c; 10 for 2.89, postpaid.

BLEEDING HEARTS "Jewels of the Garden"

FERNLEAF . . .

B2013—Unusual ferny foliage and lots of tiny pink hearts on foot long stems. A neat clump that blooms all summer long. 45c each; 2 for 79c; 3 for 1.19, postpaid.

COLLECTION
B3291X—1 Old-Fashioned and 2 Fernleaf Bleeding Hearts. 1.39, ppd.

OLD-FASHIONED . . .

B2014—Drooping clusters of bright pink heart-shaped flowers. Grows larger and more beautiful with each passing season. 65c each; 2 for 1.00, postpaid.

Hardy Sweet Peas . . .

The new perennial Sweet Pea (Lathyrus). These Sweet Peas are really hardy and a perennial, growing year after year. They bloom all summer from the first year on. Splendid for covering arbors or trellises. Many people put them on the garden fence and they're fine for covering old stumps and rocks which they love to scramble over. They make the grandest kind of cut flowers and last unbelievably long in the house.

B2245—Glowing Red. B2244—Pink Beauty. B2246—White Pearl. 39c each; 3 for 98c, ppd.

Sweet Pea Collection

B3275X—2 each of Red, Pink and White 6 plants in all for only 1.79, postpaid.

FORGET-ME-NOT New Pink Beauty

B2049—The ordinary old blue Forget-Me-Not has been grown in our gardens for years and years, but here is one with clusters of bright pink flowers borne all summer. Plant where it is moist if you can, in either sun or partial shade. Our plants are raised from cuttings so you will be sure to get the true pink. 59c each; 3 for 1.49, postpaid.

GRASS OR CLOVE PINK

B2161—Here is the flower that made your grandmother's garden such a fragrant delight, and will do the same for yours. Very lovely, spicily fragrant blooms in all shades of pink, red and combinations of the same. Blooms all summer. Absolutely hardy and will grow easily anywhere. 39c each; 3 for 98c, postpaid.

CORNFLOWER ASTER

B2026—BLUE MOON. One of the newest and largest flowered perennials. Light blue flowers 5 to 6" across grow on stiff stems 12 to 18" long. Perfectly hardy. Blooms all summer. 45c each; 3 for 1.15, postpaid.

SEA LAVENDER

B2190—This is Statice Latifolia, grown for its lovely lacy lavender flowers. Lovely all summer and beautiful in dried bouquets throughout the winter. Entirely hardy. Broad, large leathery leaves in a rosette. 39c each; 3 for 98c, ppd.

VERBENA

B2280—Hardy Verbena. A rose-magenta flowered trailer you will really enjoy. Almost a solid mass of blooms in May. Easy to grow and one of the best as a showy border. 39c each; 3 for 98c, postpaid.

1065—Cardinal Climber—the Rapid Grower. This rapid growing climber will completely cover a building with a dense mat of dark green foliage, set off with countless fiery scarlet flowers over 1 inch across. Pkt. 10c, postpaid.

1114—Hyacinth Bean—for Screen Plantings. Makes one of the most desirable climbing vines, grows rapidly, produces clusters of beautiful flowers, and then covers itself with the bright pods. Pkt. 10c; oz. 18c, postpaid.

1115—Cypress Vine—the Lacy One. A graceful annual climber with fern-like foliage and small star-shaped blossoms. Grows fast; very showy. Mixed colors. Pkt. 10c, postpaid.

Cardinal Climber

ANNUAL FLOWER SEED

'MUM FLOWERED

1126—Chances are you have never seen anything like these. Flowers are 2 to 4-inch big fellows. Petals are frilled and curved like giant mums. Colors are gorgeous shades of orange and yellow. Three feet high.
Pkt. 15c; 2 pkts. 25c, ppd.

LITTLE GIANT

1128—Extra fine for bedding or pots as it has 20 to 30 flowers open at a time. Yellow to a brilliant orange. Compact—15 inches. Pkt. 15c, 2 pkts. 25c, ppd.

Early HARMONY

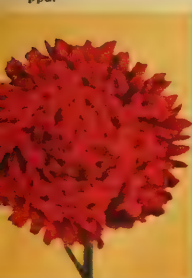

1142—Deep orange centers surrounded by broad velvety maroon outer petals. Very early. Blooms continuously. 18 to 24 inches tall. Fine border plant. Pkt. 10c, postpaid.

GOLDEN TREASURE

1127—The largest of the new Marigolds. Mammoth flowers, often 5 inches across. Full double in all shades of yellow and orange. Sweet scented. Make bushes up to 3 ft. tall. One of the very best and a real show flower. Pkt. 15c, ppd.

BEST MARIGOLDS

1 Pkt. Mum Flowered
1 Pkt. Little Giant
1 Pkt. Early Harmony
55c value for 45c
1200X—1 Pkt. EACH OF ALL 4 FOR 45c, ppd.

NORTHERN SUN

1351—A super strain of magnificent giants. Early and vigorous. Double. Plant directly in garden for lovely flowers in July. All colors mixed. Pkt. 15c, postpaid.

CREGO'S GIANT MIXED

1025—Wilt resistant. Flowers measure 5 inches in diameter, fully petaled and very deep with long interlaced and twisted petals. Lovely in the garden or bouquets. All colors mixed. Pkt. 10c; 1/2 oz. 20c, postpaid.

GIANTS OF CALIFORNIA

1341—Double Mixed. Asters as big as saucers on stems 2 feet long. Long curled and interlaced petals. Height 3 1/2 feet. Seed should be started in boxes. Pkt. 15c; 1/2 oz. 25c, ppd.

EARLY AMERICAN BEAUTY

1357—Mixed. Wilt-resistant. This new Aster is larger and more beautiful than the old American Branching and 3 to 4 weeks earlier. Large blooms. Pkt. 10c; 1/2 oz. 20c, ppd.

SPECIAL ASTER TRIAL OFFER 10c

1354—Contains all varieties listed here, plus many more trial ground varieties. A fine mixture. Giant pkt. 10c, ppd.

ZINNIAS

BARGAIN ZINNIA COLLECTION

1 Pkt. California Giants
1 Pkt. Baby Zinnias
1 Pkt. Dahlia Flowered Stick
1 Pkt. Persian Carpet
1300X—Postpaid. All 5 Packets only 59c

LILLIPUT or BABY

1253—Blooms are an inch in size. A grand assortment of bright, snappy colors. Ideal for bouquets. Pkt. 10c; 1/4 oz. 15c; 1/2 oz. 25c, postpaid.

PEPPERMINT STICK

1255—A new, medium-sized Zinnia with striped flowers. Many wonderful combinations of red and white, red and yellow, mixtures of white with purple, pink and yellow shades. 25c pkt. ppd.

CALIFORNIA GIANTS

The Largest Zinnia Crown
Big loose petals. Huge, fully double flowers—often as large as dinner plates! Bloom freely all summer.

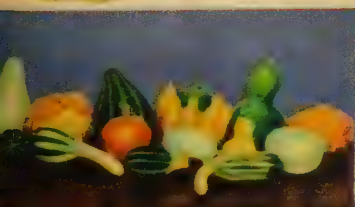

1260—Narcissus. A golden yellow. Pkt. 10c, ppd.
1261—Red Coat. Deep red. Pkt. 10c, ppd.
1262—Peach Blossom. Clear pink. Pkt. 10c, ppd.
1405—Giant Mixed. All colors from pure white to the deepest crimson. Pkt. 10c; 1/4 oz. 17c; 1/2 oz. 25c, postpaid.

GIANT DAHLIA-FLOWERED ZINNIA

Grow as large as dahlias. Full double flowers in a wide array of colors.

1257—CRIMSON MONARCH.
1258—ROYAL PURPLE.
1254—GOLDEN YELLOW.
1259—OLD ROSE.
1263—DAHLIA-FLOWERED MIXED.
Prices for any of the above: Pkt. 10c; 1/4 oz. 17c; 1/2 oz. 25c, ppd.
2900X—1 pkt. each of the above 5 Zinnias for 39c, postpaid.

ORNAMENTAL GOURDS

1104—Large and Small Varieties Mixed. Nest Eggs, Dippers, Bowls, Pipes and Bird Houses. Grow in all colors, sizes, shapes. Over 25 varieties in this mixture. Lots of fun to grow—both for adults and kids. Pkt. 10c; 1/2 oz. 17c, postpaid.

VERBENA

These new giant Verbenas are over an inch across and are borne in large clusters.
1243—Mammoth red.
1244—Mammoth white.
1245—Mammoth blue.
1246—Mammoth purple.
1247—Mixed.
Pkt. 10c, postpaid.

FOUR O'CLOCKS

1093—Giant Mixed. Anyone can raise Four O'Clocks, and everyone likes them. These grow about 2 feet tall and make good hedges, and are covered with a mass of flowers in the afternoons and evenings. Hundreds of funnel-shaped, beautiful flowers—red, yellow, pink and white. Pkt. 10c, ppd.

GERANIUM

Easy to Grow

1094—Double and Single Mixed. This fine seed will produce both double and single flowers in many colors. Plants and flowers grow large, making excellent house plants. One packet of seed produces many good plants. Pkt. 15c, postpaid.

Portulaca—ROSE MOSS

Likes Hot Dry Location

No other flower makes such a dazzling display of color and beauty as a bed of many-colored Portulaca. Height, 4 inches. The hotter, dryer and poorer the place—the better Rose Moss blooms. Fine for borders.

1195—DOUBLE FINEST MIXED. A select strain of fully double flowers in every color imaginable. Pkt. 15c, ppd.

1196—SINGLE MIXED. Our best rainbow mixture. Pkt. 10c; 1/8 oz. 25c, postpaid.

ANNUAL PHLOX

For Brilliant Colors

Plant annual Phlox for a dazzling, unending display of color. They bloom early and last until severe freezing. Height, 6 to 12 inches.

1194—DRUMMONDI GRANDIFLORA MIXED. This fine new strain has largest flowers and most vivid colors imaginable. You'll like the dazzling reds, and the brilliant pinks. Bi-colored ones and fringed ones. For beds, borders or cut flowers. Pkt. 15c, ppd.

SWEET SULTAN

1240—MIXED (Centauria) Triple-size blossoms, delightfully fragrant. Bright, fluffy, double, fine for cutting. Pkt. 10c, ppd.
1239—GIANT YELLOW (Suaveolens.) Large, gold and yellow. Sweet scented. Fine for cutting. Two ft. tall. Pkt. 10c, ppd.

Annual SWEET WILLIAM

Bloom 1st Year from Seed

1268—SWEET WIVELSFIELD. Cross between hardy Pinks and Sweet William. Single. Bloom first year. Flowers over three inches in diameter and borne profusely. Some are honey-scented. A variety of brilliant colors. Will winter over if you give it protection. Pkt. 10c, ppd.

1271—WESTWOOD BEAUTY. Large dark red flowers with fringed edges on long wiry stems. Likes sunshine. Fine for cutting. Pkt. 25c, ppd.

CORNFLOWER

The Hardest Annual

1070—Jubilee Gem. The vivid Cornflower-blue blossoms completely cover the sturdy plants, and make a mass of blue in your garden from early summer until frost. Height, 1 foot. Pkt. 10c; 1/4 oz. 25c, ppd.

SALPIGLOSSIS—Easy to Grow

1208—Giant Emperor Mixed. This has always been one of our favorites, for it is so easy to grow, and comes in such a variety of delicate colors. The blue and gold combinations are especially beautiful. The reds and purples are nice, too. Velvety Petunia-like flowers, 2 inches wide, are pencilled, veined and netted with gorgeous colors. Height, 3 feet. Bloom from July until frost. Exceptionally nice for cutting. Pkt. 12c, postpaid.

SNAPDRAGONS...

Like the Florists Grow

This "old-favorite" flower has been greatly improved. America's most popular cutting flower; also prized for planting in borders or beds.

1024—Tetra Snaps Mixed. A new race of snapdragons. The result of treatment with a special chemical. Larger flowers, more ruffles, bigger and more brilliant spikes. Pkt. 25c, postpaid.

1020—Giant Flowered Rust-Proof Mixed. An All-America Winner—These new giant Snapdragons grow about 4 feet high, and are covered with immense spikes of brightly colored flowers. Pkt. 10c; 1/8 oz. 20c, ppd.

1022—Stop Light. So bright that the first sight stops everyone in their tracks. The spikes are immense and of the most intense glowing vivid red. Will bloom and bloom and bloom. Must be seen to be appreciated. Pkt. 15c, ppd.

Gurney's Hardy Northern-Grown EVERGREENS

All evergreens listed "B&B" are "balled and burlapped." This is the best way to buy evergreens, as it means the trees are dug with the original ball of earth or soil on the roots—just as they were growing in the nursery row. This ball is carefully wrapped with burlap to keep it from breaking. That is why they are referred to as "balled and burlapped."

When you buy two evergreens of a kind, we pick out matched trees so your planting will look that much nicer. All varieties we are offering are hardy and can be planted with a reasonable assurance of success.

HOW TO PLANT EVERGREENS

The first important step in planting evergreens is to get them planted just as soon as you receive them. Be sure to loosen up the burlap around the top of the ball and fold it back before filling in around ball. Then give them plenty of water immediately. Do not, under any circumstances, let them dry out at any time during the first year. This is vitally important and must be done if you want success with your trees.

WATCH OUT FOR RED SPIDER

This little pest attacks all types of Evergreens and, unless controlled, can kill your valuable trees. Gurney's Red Spider Dust will do this job. You will find it listed under Insecticides on page 24.

4 B & B Entrance EVERGREENS \$1298

(Express not Prepaid) only
IN53X—Provide a beautiful setting for your front entrance or can be used anywhere around your home that evergreens are needed.
2 Upright Juniper Silver
18 to 24", Balled and Burlapped.
2 Spreading Juniper Savins
15 to 18", Balled and Burlapped.

UPRIGHT EVERGREENS

SILVER JUNIPER (Scopulorum)

IN9—This upright variety is very popular because of its outstanding silver foliage and its upright habit of growth. Extremely hardy and will stand lots of heat and drouth. Can be kept to whatever height you desire by shearing. Express not prepaid:

Size	Each	Per 2
18 to 24 in.	3.98	7.60
24 to 30 in.	5.25	9.98
30 to 36 in.	6.39	11.98
3 to 4 ft.	7.50	14.30

VIRGINIANA JUNIPER

IN39—These trees are kept sheared so they are shaped like narrow cones, and are extremely attractive when planted in pairs one on each side of your house entrance. Perfectly hardy and resistant to drouth. As they are native to the midwest, they are adapted to our soils and temperatures. Bright blue berries in the fall are very pretty. Express not prepaid:

Size	Each	Per 2
24-30" B&B	4.69	8.70
30-36" B&B	5.98	10.98
3-4' B&B	6.89	12.79

LOW-GROWING EVERGREENS

SAVINS JUNIPER

Fan-Shaped and Dark Green

IN12—This beautiful, fan-shaped, dark green, evergreen shrub is exceptionally hardy. It is very attractive and extra drouth-resistant. One of the best for mass plantings in beds and is hard to beat along the foundation. Express Not Prepaid:

Size	Each	Per 2
15 to 18 in. B&B	4.25	7.89
18 to 24 in. B&B	5.50	10.39
24 to 30 in. B&B	6.89	12.79

Note: Shrub types sold by spread; not height.

PFITZER'S JUNIPER

IN44—It has arching, spreading branches; feathery, gray-green foliage. Hardy everywhere and does well in sun or partial shade. Gets 6 to 8 ft. across at maturity or even larger in good soil. Can be kept to 4 ft. across by shearing. Combines beautifully with the upright pyramidal for entrance evergreens. Good for foundation planting, in corners, or at corners of lot. Transplants very successfully. Express Not Prepaid:

Size	Each	Per 2
18 to 24 in. B&B	5.98	10.98
24 to 30 in. B&B	6.98	12.80
30 to 36 in. B&B	8.25	15.98

Gurney's Improved PFITZER

IN5—Semi-prostrate; does not grow over 15" high. Has a beautiful bright emerald green color. Foliage is more compact, soft to touch, no sharp needles. Just the thing for modern low-type homes; ideal in front of mass plantings of regular Pfitzer's. Express Not Prepaid:

Size	Each	Per 2
18-24"	6.89	12.79
24-30"	8.25	15.98
30-36"	9.98	18.50

Estimated Express on Balled & Burlapped Evergreens

(Based on Express rates in effect Nov. 1, 1952)

Size of Evergreen	Distance from Yankton, S. Dak.			
	100 Miles	200 Miles	300 Miles	500 Miles
12 to 18 in.	1.75	1.90	2.15	2.45
18 to 24 in.	1.95	2.10	2.35	2.65
24 to 30 in.	2.15	2.30	2.55	2.85
30 to 36 in.	2.35	2.50	2.75	3.05
3 to 4 ft.	2.75	3.10	3.78	4.35
4 to 5 ft.	3.25	3.60	4.40	5.25

The above is the estimated Express charge for one tree shipped alone. As charges are based on total weight of shipment, the Express charges on orders of two or more trees would be approximately 25% less per tree.

CHINESE ELM

The Quick Grower

A3304—If you want a beautiful, inexpensive hedge in a hurry, plant Chinese Elm. It is our choice for the midwest. Can be trimmed to any height you wish from 1 ft. to 10 ft. Makes one of the tightest hedges possible. Very hardy and drought-resistant. Leaves out early and holds leaves late. Set 12 to 15 in. apart. Postpaid prices:

Size	Per 25	Per 50	Per 100
12 to 18 in. . .	1.10	1.98	3.43
18 to 24 in. . .	1.79	3.19	5.49

PRIVET HEDGE

A3323—Amur River North. Foliage glossy green. Holds its color well into late fall. Will stand shearing to any extent. This is a strictly first-class ornamental hedge plant for areas south and east of Yankton. Plant 10 to 12 inches apart. Postpaid prices:

Size	Per 25	Per 50	Per 100
12-18 in. . .	2.98	5.49	9.98
18-24 in. . .	4.98	8.98	16.00

HEDGES

HOW TO PLANT

For a low-growing hedge, set plants 8 to 12 inches apart, except the Barberry which should be planted 18 inches apart. For tall hedges, plants are usually set 1½ to 3 ft. apart.

Some like to stagger the planting in zig-zag lines to make the planting thicker but straight lines are just as good. If you are using the hedge along the lot or boundary line, set at least 2 ft. inside your own property line. Set a string or line so you can dig a straight trench and then plant your hedge plants not over 1½ inches deeper than they were growing in the nursery. Be sure you soak the hedge down well; then prune. We recommend you cut off at least ¼ of the top growth. You must equalize root loss so this top pruning is the most important step of all—be sure you do it.

SPIREA VAN HOUTTEI

(Bridal Wreath)

A3327—An outstanding hedge plant. Extremely hardy. Loaded with bloom in the spring. Good foliage all summer. Grows about 6 ft. high untrimmed, but may be trimmed if desired. Set 2½ ft. apart. Postpaid prices:

Size	Per 12	Per 25	Per 50	Per 100
12-18 in. . .	2.46	4.89	8.98	16.50
18-24 in. . .	2.76	5.44	10.49	19.98

CARAGANA

The Drought Lover

A3303—Siberian Pea Tree. One of the hardest of all hedges—drought, hot winds or grasshoppers can't stop this plant. Pea-green color, locust-like leaves. Very compact grower, gives you a tight hedge. Can be trimmed to any height. Plant 12-15 in. apart. Postpaid prices:

Size	Per 25	Per 50	Per 100
9-12 in. . .	1.39	2.40	4.50
12-18 in. . .	1.79	3.39	6.50
18-24 in. . .	2.69	4.89	9.25

GREEN BARBERRY

Medium-Height Super Hardy

A3302—(Berberis Thunbergii.) This is a fine, medium-height, extremely hardy hedge plant that makes an untrimmed hedge about 3 feet high. Or, it can be sheared and shaped up beautifully. Has shiny red berries in winter. One of the very best and most popular of all hedges for northern areas. Postpaid prices:

Size	Per 25	Per 50	Per 100
12-18 in. . .	4.75	8.49	15.98
18-24 in. . .	5.98	11.50	22.50

GINNALE MAPLE

Hardy and Beautiful

A3310—A low-growing, bushy maple that makes a fine hedge or screen. It can be sheared and shaped just like any other hedge. Is extremely hardy, and in the fall its deep green, cut leaves turn a deep rich red. Plant 1 to 2 ft. apart. Postpaid prices:

Size	Per 25	Per 50	Per 100
12-18 in. . .	3.59	6.75	12.98
18-24 in. . .	4.69	8.79	15.75

Plant ROSA MULTIFLORA

For Field or Yard Fence

A3325—Rosa Multiflora grows vigorously in even the poorer soils, requires little ground space (its final height and spread is 6 to 8 feet), has no spreading roots to rob adjoining crops, does not "sucker" nor spread from seed.

It forms a dense, thorny barrier that will stop any livestock, excepting an occasional "breachy" sow. Planted as yard hedge, it stops children, dogs, bicycles, yet is a thing of beauty, having loads of small white single roses followed by masses of red berries that last through the winter. In addition, it provides food and protection for birds and small game.

You can use it as a pasture divider, contour guide, snow stop, and firebreak (there is no grassy growth beneath its branches). Its deep, fibrous roots make it ideal for erosion control.

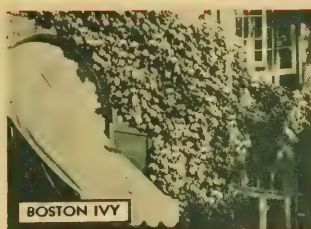

This plant has probably received as much publicity as any. We do not recommend it for planting in large quantities north of central Ia. and Nebr., unless there are established plantings in your area. If you are in doubt we suggest that you try at least a dozen on your own land and see what it will do for you.

Set 18 inches apart. Beware of the tiny little "darning needle"-sized plants that are being quite widely offered. You are apt to take a terrific loss on such a small grade of plants. We ship heavy sizes only. Here are our prices:

Size	12 Ppd.	25 Ppd.	50 Ppd.	100 Ppd.	Exp. not Ppd.

ROSA MULTIFLORA as yard fence

Gurney's Hardy VINES

BOSTON IVY

BOSTON IVY

A3224—Clings tightly to brick or stone without support. Small leaves of dark green. Good vine for your walls. Plant 8 to 10 ft. apart. Select vines, 69c each; 2 for 1.29, postpaid.

A2450X—Boston Ivy Bargain. 5 strong plants for 2.89; or 2 collections (10 plants) for only 5.49, postpaid.

ENGELMAN'S IVY

A3225—A handsome, clinging, five-leaved ivy, with very thick foliage. Thrives in sunshine or shade. Green, turning red in fall. As hardy a vine as you can buy. We send select, heavy rooted plants. 59c each; 2 for 1.08; 5 for 2.49, postpaid.

TRUMPET VINE

A3264—Produces immense, orange-red, trumpet-shaped flowers. Very fragrant and will climb anywhere. Wonderful vine for porches and trellises. Has long been the favorite of vine-lovers all over the country. Selected vines. 59c each; 2 for 1.08; 5 for 2.49, ppd.

AMERICAN BITTERSWEET

A3200—Native of the northwest. Produces bright red berries that are used for decorative purposes in the home. Plant two to get berries. 2 for 89c; 5 for 1.98, postpaid.

BETA GRAPE

A3203—A favorite cover for walls, buildings, out places. Is hardy, grows rapidly. Deep green, beautifully-shaped foliage. Blue-black grapes fine for eating and preserving. 35c ea.; 4 for 1.29; 8 for 2.50, postpaid.

SILVER LACE VINE

The Most Beautiful Vine

A3260—This is a fine addition to any vines you are growing. It is of twining habit, and grows quickly. Completely covers itself with silvery white flowers from mid-summer until frost. Often grows 20 feet in a season. Pretty flowers cover vine from top to bottom. 79c each; 2 for 1.49; 5 for 3.39, postpaid.

HONEYSUCKLE "Orange-Glow"

A3222—The flowers are coral-orange—a color we have found in no other flower—and are of such breath-taking beauty you will be amazed. And it's ever-blooming from spring to frost. Fine, almost evergreen vine. 89c each; 2 for 1.69, postpaid.

Hardy, Beautiful HYBRID CLEMATIS VINES

CRIMSON KING HYBRID CLEMATIS

A3206—New and rare. Rich red flowers often 4 to 8 in. across over longer period. 98c each; 2 for 1.85, postpaid.

GOLDEN FLOWERED CLEMATIS

A3207—(Tangutica). Here is the Clematis that covers itself with a profusion of golden yellow bells. Can be grown most anywhere. Dies back each year, then grows up to 15 ft. the next season. 89c each; 2 for 1.89, postpaid.

PURPLE HYBRID CLEMATIS

A3208—Hybrid Clematis Jackmani. Commonly called Clematis "Jack," it covers itself with large purple flowers from July until frost. One of the hardest of the Clematis. Potted plants. 98c each; 2 for 1.85, ppd.

WHITE HYBRID CLEMATIS

A3205—(Lanuginosa Candida). Imagine flowers that look like immense water lilies. Shows off to fine advantage when planted with red and purple varieties. Potted plants. 98c each; 2 for 1.85, postpaid.

NEW HYBRID CLEMATIS

All are Potted Plants

A3210—Comtesse de Bouchaud. Graceful curved petals of rich satin pink with deep veins. Free blooming, strong growing and thrifty. 98c each; 2 for 1.85, postpaid.

A3212—Nelly Moser. This novel variety, with contrasting red stripes on each light blue petal, is a beauty. Very vigorous and free blooming. 98c each; 2 for 1.85, ppd.

A3211—Lady Betty Balfour. Deep velvety purple with creamy white stamens topped with gold. Beautiful two-toned flowers. 98c each; 2 for 1.85, postpaid.

A2452X—Our 3 new Hybrid varieties: 1 Comtesse de Bouchaud, 1 Lady Betty Balfour and 1 Nelly Moser. All 3 only 2.69, postpaid.

Hybrid Clematis Collection

A2451X—1 Purple Jackmani and 1 Crimson King. Both for only 1.79, ppd.

HACKBERRY

Tops in Shade Trees

A native of the North-Central states, Hackberry is hardy, drought-resistant and shapely. Habitually forms straight trunks and perfect tops. Hard wood makes good tool handles.

6-8 ft.	.65	1.87	2.85	4.95

Lombardy Poplar

A4256—This is the Poplar that is used so much for avenue or background planting. They form tall, stately columns of dark, shiny-green leaves. It succeeds on soil too poor for other trees, and grows rapidly. Widely used for screening and windbreak purposes because the foliage grows close to the ground.

(Postpaid)	Per 2	Per 5	Per 25
2 to 3 ft.	.68	1.20	5.50
3 to 4 ft.	.78	1.49	6.75

Lombardy Poplar Bargain
A4228X—10—4 to 5 ft. trees for 1.98, Exp. not pdd.

BOLLEANA POPLAR

The Tall Aristocrat

A4207—The Bolleana grows slim and columnar like a Lombardy Poplar. It has loads of foliage which grow close together. The leaves are a very beautiful green on top and silver underneath. Hardest of the upright poplars, and an aristocrat among trees.

(Postpaid)	Each	Per 3
2-3 ft.	.79	2.19
3-4 ft.	.98	2.79
(Exp. not Pdd.)		
4-5 ft.	1.19	3.29
5-6 ft.	1.39	3.89
6-8 ft.	1.69	4.80

Purple Leaf Plum

(Prunus Cistena)

A4278—Here is a tree so beautiful it looks like a picture. In spring it has myriads of white or pale pink blossoms scattered like thousands of stars through the brilliant red foliage. Its gorgeous bright reddish leaves stay in brilliant color at all seasons. The tree is very hardy. It may be allowed to grow in shrub form or trimmed to tree form. Either way you will welcome its beautiful purple leaves and banks of flowers as a contrast in your planting.

(Postpaid)	Each	Per 2
2-3 ft.	1.60	2.95
3-4 ft.	1.79	3.30

Cut-Leaf

WEEPING BIRCH

One of America's Most Lovely Trees

A4306—You simply can't find a more beautiful or graceful tree than this Weeping Birch, with white bark, long, drooping branches, and tiny, finely cut leaves. It is effective when used in groups of two or three. Grows to about 40 to 60 ft. Every home should have several. Keep well watered.

(Exp. Not Pdd.)	Each	Per 2
5-6 ft.	2.98	5.60

BOX ELDER

All-Purpose Tree

This member of the Maple family is getting back its rightful place in the windbreaks and groves of the prairie states. Fast in growth, hardy and of heavy foliage.

Seedlings:	50	100	200	500	Exp.
12-18 in.	1.98	3.58	5.98	11.98	
18-24 in.	2.49	4.59	7.89	15.50

6-8 ft.	1.15	3.30	5.25	9.50

Schwedler Maple

The Red Leaf Maple

A4286—This tree can really "do things" for that lawn of yours. The leaves are a beautiful purplish-red in spring, thereby contrasting with all of the green foliage. Gradually these high-colored leaves soften to bronze and finally to a deep waxy green. It has a round symmetrical head. A long-lived tree that will be permanent and add beauty for years to come.

Express Not Pdd.	Each	Per 2
5-6 ft.	2.98	5.79

MOUNTAIN ASH

One Most Colorful

A4260—Red Berried—One of the most ornamental trees you can possibly plant. The foliage is a beautiful green. Light, smooth bark, a broad head very compact, with gorgeous creamy white blossoms in the spring, followed by the many, many clusters of scarlet and carmine berries in the late summer and fall. It grows very rapidly.

Gurney's Northern-Grown TREES

ABOUT SHIPPING TREES

Most trees are too tall to be sent PARCEL POST, so we ship all trees EXPRESS, NOT PREPAID, unless otherwise noted.

NEW "Harlequin"

VARIEGATED-LEAVED MAPLE

A New Standard of Beauty for Shade Trees

A4284—Harlequin, in our opinion, is the most beautiful shade tree in existence today. It is a Norway Maple with a variegated leaf. The young tree pictured at the right shows the fine shape of this wonderful new tree. If you live where you can raise Norway Maple, you can raise Harlequin. The symmetrical, round top makes it a beauty and it grows to a height of about 30 ft. We recommend it for the boulevard because it doesn't get too large or tall.

We found out about this tree a few years ago and have been watching it with interest. It didn't take us long to realize that Harlequin was one tree we wanted to be sure to offer. We are listing them this year for the first time. Our supply is very limited, so order early. Be the first in your neighborhood to try this beautiful new variety. While they last, strong trees: 4.15 each. Express not prepaid.

The leaves of "Harlequin" are green in the center, and almost ivory on the edges.

CRIMSON KING MAPLE

Stays Brilliant Red Throughout Most of Growing Season

A4285—(Plant Patent No. 735.) This new tree originated in France and was recently brought into this country for propagation. We are very fortunate in that we were able to secure a limited quantity of this beautiful new maple and are shipping them on a "first come—first served" basis.

You have to see the foliage on Crimson King to really appreciate its beauty. It is much redder than the leaves of Schwedler's Maple, and keeps its fiery, crimson color throughout most of the growing season.

If you want a truly beautiful red-leaved shade tree—one that your neighbors will talk about—we highly recommend Crimson King Maple. 6 to 8 ft. size, 5.95 each, Express Not Prepaid.

Hardy, Fast-Growing HYBRID ELM

Gurney's New, Broadleaf Hybrid Elm Grows 8 to 14 Feet Per Year!

A4239—Here is the sensational new tree that will give you shade faster than any other tree. It combines all of the good qualities of both the Chinese Elm and the American Elm. It is as hardy as the American Elm, and grows even faster than the Chinese Elm. America's coming tree, with broad, large, rich green leaves, and beautiful, smooth, grey bark. Our supply is limited, so order early.

Notice: This tree will come to you already pruned for proper planting. We do this to allow the tree to replace the many small feeder roots lost in the digging process, and also, to reduce the chance of your losing it.

Prices, Express Not Prepaid.

6 to 8 ft.....	3.49 each
8 to 10 ft.....	4.25 each

FLOWERING CRABS

NEW ALMEY A4202—Has fiery crimson, dollar-size blossoms. Almey is a new Canadian Crab that is hardy, vigorous and upright-growing. Each petal is white at the base, forming inside each crimson blossom a beautiful, white, five-sided star. Often produces blossoms when only two years old. 3 to 4 ft., 2.35 each, ppd. 4 to 5 ft., 2.65 each; 5 to 6 ft., 2.98 each, exp. not ppd.

SUNDOG A4204—"The Pink Sentinel." A tall, narrow-growing crab that covers itself with masses of pink blossoms. Can be used as a beautiful, tall screen. Also makes a very showy ornamental specimen that can be planted in a limited amount of room. 3 to 4 ft., 3.50 each, postpaid. 4 to 6 ft., 4.00 each, Exp. not ppd.

SEE PAGE 17 FOR OTHER FLOWERING CRABS

NEW ALMEY

Mother Gurney's Famous Everbearing

MULBERRY

Ideal for Hedge, Windbreak, Shade

The "Mother Tree," a variety of the Russian Mulberry, has been growing for many years here at Yankton. It has a long season of fruiting, beginning early in July and continuing to ripen his, luscious, black fruit all summer. The fruit is excellent for canning, jam, jelly or eating from hand. The tree is a fast grower and should appear in all windbreaks, shelter belts and wildlife preservation plantings.

Mulberries also make fine hedges and can be kept as a sheared hedge 3 to 4 ft. high or allowed to grow 10 feet or higher.

When Mulberries are planted around orchards the birds will eat the Mulberries instead of the other fruit.

WINDBREAK-GROVE SPECIAL No. 1

A2702X—These are fine trees that will make a dandy windbreak in short order. 50 Big Chinese Elm. 2-3 ft. tall, 4.49, postpaid.

WINDBREAK-GROVE SPECIAL No. 2

A2703X—Here's a bargain in Chinese Elms—enough for 4 rows 200 feet long. 75 Chinese Elm seedlings. 1 to 1 1/2 ft. Well-rooted, 2.25, postpaid.

LAKE CITY ELM

Fast Growing

A4254—A beautiful, extra-hardy, spreading Elm. Fast growing. These trees are grafted and will be exactly alike. We recommend these for street, park or boulevard planting, or for specimens in your yard. Express not prepaid:

Size	Each	Per 3	Per 5
4-6' 1.98	5.39	8.49	
6-8' 2.89	8.39	13.50	
8-10' 3.98	11.50	18.50	

BIRCH

A4308 — WHITE BIRCH. One of the most graceful, medium-sized trees we are offering. Its deep green foliage and white bark gives a contrast in your lawn that is hard to equal. The winter effect is excellent, especially when planted near evergreens.

BEAUTY BUSH
Most Graceful Shrub

A3806—This is rightfully named—truly a beauty bush. You will like it. A Chinese shrub covered in June with a mass of arching sprays of pink, tubular flowers. One of the most graceful of shrubs and in the spring when in bloom, its branches sweep clear to the ground in a mass of bloom that is breathtaking in its beauty. Attains a height of 6 to 8 ft. 18 to 24 in., 98c each; 3 for 2.79; 2 to 3 ft., 1.25 each; 3 for 3.60, postpaid.

DOUBLE MOCK ORANGE

A3878—(Viginalis). A magnificent new variety. The double flowers are large, handsome, and fragrant. 5 to 7 ft. tall. Size 18 to 24 in., 98c each; 3 for 2.79; 2 to 3 ft., 1.25 each; 3 for 3.60, postpaid.

SWEET MOCK ORANGE

A3877—(Coronarius). The flowers are pure white, very fragrant. Extra hardy. Grows about 8 to 10 ft. 18 to 24 in., 79c each; 3 for 2.19; 5 for 3.49; 2 to 3 ft., 98c each; 3 for 2.79; 5 for 4.49, postpaid.

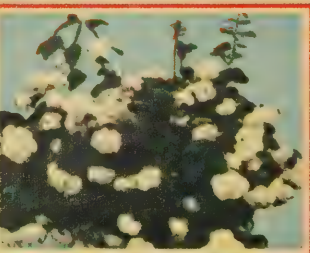

Red CRAPE MYRTLE

A3817—Undoubtedly the most beautiful shrub in the world. Simply covered with giant clusters of red bloom all summer. Hardy to Central Missouri. Farther north the tops die down, but if well protected will live over and bloom on new wood. Often shows no signs of life for several months after planting. Extra Select Plants: 59c each; 3 for 1.59; 5 for 2.49, postpaid.

HYDRANGEA P. G.
Late Summer—
Massive Flowers

A3848—Hardy shrub producing panicles of white flowers, as large as 10 inches across, changing to shades of pink in the fall. Blossoms hold on well into the winter. Excellent for foundation or shaded plantings. Grows 3 to 5 ft. tall. 18 to 24 in., 98c each; 3 for 2.79; 5 for 4.49, postpaid.

HYDRANGEA A.G.
Early Summer Snowball

A3847—Comes into bloom just after the passing of all early spring blooming shrubs. Better planted in partial shade—such as the north and east sides of buildings. 3 to 5 ft. tall.

Size	Each	Per 3	Per 5
18 to 24 in.,	postpaid 0.98	2.79	4.49
2 to 3 ft.,	postpaid 1.25	3.60	5.75

HYDRANGEA COLLECTION

2 Spring Blooming Hydrangea (A.G.)
1 Fall Blooming Hydrangea (P.G.)
A2656X—POSTPAID—1.98

BUSH BITTERSWEET
Brightest Color of All

A3808—Wahoo or Strawberry Bush. Shrub or small tree to 15 ft. Purple flowers in June. Leaves have splendid fall coloring. A fiery rich red. Has clusters of red berries in fall like vine Bittersweet. An unusual shrub that will make you the talk of the town. This shrub is extremely hardy. 18 to 24 in., 89c each; 3 for 2.49, postpaid.

PINK ALMOND
(DOUBLE FLOWERING)

Every Branch Lined
with Flowers

A3800—In early spring, the Flowering Almond is a bride's bouquet of double, pink, little rose-like flowers. Every branch is covered. It is hardy and "breathtakingly" beautiful. Flowers one year after planting. Grows to five feet.

Size	Each	Per 3	Per 5
18 to 24 in.	.89	2.49	3.98
2 to 3 ft.	.98	2.79	4.49
3 to 4 ft.	1.25	3.60	5.75

PRAIRIE ALMOND

A3890—A new hybrid flowering Almond that covers itself with beautiful, double pink flowers that have a bright red center. These are followed by colorful red nuts that hang on all summer. Hardy everywhere. Grows to 6 ft. 1.39 ea.; 3 for 3.89, ppd.

BEAUTIFUL SHRUB COLLECTION BARGAIN

BUTTERFLY BUSH
Flowers the Entire Summer

Hardy with protection. Make large shrub and bloom all of first summer planted, so for our low price will be well worth the money even if they don't live over.
A3811—le de France: Deep, rich purple. 69c ea.; 3 for 1.89, ppd.
A3812—Pink Charming: Fine pink. 69c each; 3 for 1.89, ppd.
A3813—Red Glory: Bright red. 75c ea.; 3 for 2.10, ppd.
A3814—White Feather: Snow white. 75c ea.; 3 for 2.10, ppd.
A3815—Midnight Blue: Deepest blue. 75c ea.; 3 for 2.10, ppd.

Butterfly Collection

A2662X—1 each of above 5 kinds for 2.98, postpaid.

COTONEASTER

A Very Ornamental Shrub

A3819—An attractive, beautifully formed shrub with thick, glossy leaves which turn red in the fall. Has small white flowers in early summer followed by large black berries which remain on nearly all winter. Perfectly hardy. Grows 6 to 8 ft. Postpaid prices:

Size	Each	Per 3	Per 5
18 to 24 in.	59c	1.69	2.49
2 to 3 ft.	79c	2.19	3.49
3 to 4 ft.	98c	2.79	4.49

GOLDEN ELDER
RICH GOLD-LEAFED SHRUB

A3836—The shrub with foliage bright golden yellow all summer long. Grand as contrast with green-leaved plants. Grows very fast. Has white flowers and elderberries which birds enjoy. Grows 4 to 6 ft.

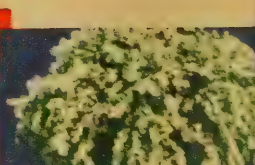

Shrubs with yellow foliage are very few, and offer a rare opportunity for a beautiful color effect.

DWARF SPIREAS Dwarf growers, for low foundation planting. Grow 2 to 3 ft. high.

RED ANTHONY WATERER

A3911—Large flat clusters, 2 to 3 ft. 8 to 12 in., 49c ea.; 3 for 1.29.

PINK FROBELLI

A3914—Very hardy. A little taller. Up to 4 ft.

Size	Each	Per 3	Per 5
12 to 18 in.	0.59	1.59	2.49
18 to 24 in.	0.69	1.89	2.98
2 to 3 ft.	0.89	2.49	3.98

BLUE MIST SPIREA Hardy New Blue Mist (Caryopteris)

A3930—A new, striking, low growing 5-ft. shrub from Minn. that blooms all summer and fall. Silvery green foliage and clear, light blue, spirea-like flowers. We expect it will be hardy anywhere a Butterfly Bush will grow. May die down to the ground in winter, but will come up and bloom again next spring. 69c each; 3 for 1.89, postpaid.

SPIREA ARGUTA Blooms for Decoration Day

A3910—Snow Garland Spirea. The earliest blooming Spirea, growing 5 feet tall. Slender and graceful form with delicate leaves. Pure white flowers are produced in great profusion. Foliage fernlike. Compact bush.

Size	Each	Per 3	Per 5
18 to 24 in.	0.69	1.89	2.98
2 to 3 ft.	0.69	2.49	3.98
3 to 4 ft.	0.98	2.79	4.49

OAK LEAVED SPIREA Dwarf Ninebark

A3913—A compact dwarf shrub, 3 to 4 feet, covered with clusters of white flowers in May and June. Attractive bright green foliage staying late in fall.

Size	Each	Per 3	Per 5
18 to 24 in.	0.69	1.89	2.98
2 to 3 ft.	0.79	2.19	3.49
3 to 4 ft.	0.98	2.79	4.49

Very hardy and excellent for any type of planting, including hedges.

LILACS

FRENCH HYBRID LILACS

All the New Colors

Grafted French Lilacs. These have greater beauty, more fragrance, more attractive heavy foliage and are quick bloomers. Often bloom the first year after planting. Size 15 to 24 in., 1.29 each; 3 for 3.69, ppd.

A3870—Charles Joly. Richest Wine Red double flowers.

A3863—Leon Gambetta. Deep pink buds open to double rose-like pink and lavender flowers.

A3872—President Grey. Double, light blue. Immense panicles and is one of the most desirable.

A3873—Souvenir Ludwig. Spaeth.

Gurney's Favorite 3 Hybrid Lilac Collection

1 Frau Bertha Dammon, 1 Pres. Grey, 1 Charles Joly—15 to 24 in.

SNOWBERRY
Beautiful All Season

A3908—Dainty, rose-colored flowers. Milk white fruits remain far into winter. Good in shade. 3 to 4 ft. tall. 12 to 18 in., 59c each; 3 for 1.59; 5 for 2.49, postpaid.

WEIGELA
Cardinal Red

A3938—Vanicek. A new red that has stood temperatures to 20 below. Covered with bright rosy-red flowers from June until frost. Blooms first year. Makes a well shaped shrub to 6 ft. 98c each; 3 for 2.79, postpaid.

HIGH BUSH CRANBERRY

A3841—(Viburnum opulus, European Cranberry.) Strong growing, attractive shrub with leaves like maple leaves. Grows 6 to 8 ft. high and in the fall is set with abundant clusters of bright red berries the size of cranberries, which remain all winter as they are too sour to be eaten by the birds. 2 to 3 ft., 98c each; 3 for 2.79, postpaid.

HONEYSUCKLE

UPRIGHT TARTARIAN—Its glossy foliage comes very early in the spring. Its grayish-white wood is beautiful at all seasons of the year. Stands heavy trimming and drouth. Its fragrant red and pink blossoms fill the air when in bloom, and the bright colored berries make it beautiful well into the fall. A Fine Hedge Plant. Grows 8 to 10 ft. Can be trimmed any height.

A3844—Red. A3843—Pink. A3845—White. 18" to 24" size. 79c each; 3 for 2.19; 5 for 3.49, ppd.

Honeysuckle Collection

A2655X—1 each Red, Pink and White, 18 to 24 in., for 1.98, ppd.

How to Plant

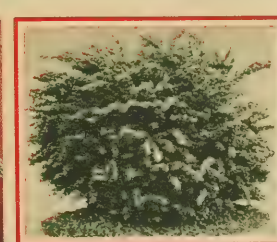

There's nothing to planting shrubs. Planting directions are included with every order but generally you set low growers about 2 ft. apart, medium growers 3 ft., and tall growers about 4 ft. apart. Spread roots out well, tamp earth back **SOLIDLY**, and prune back one-third to one-half of the height. **PRUNING IS EXTREMELY IMPORTANT** as the top must be cut back to compensate for the loss of roots.

Red Twigg Dogwood
Crimson Twigg Shrub

A3822—A sturdy, beautiful shrub with heavy foliage and bright red bark. In the winter the red bark shines in the snow and adds a touch of brightness to the dark season. Plant looks like a mass of fire. Covered with white blossoms in summer. Grows to 4 to 6 ft. 18 to 24 in., 79c each; 3 for 2.19; 5 for 3.49. 2 to 3 ft., 98c each; 3 for 2.79; 5 for 4.49. 3 to 4 ft., 1.10 each; 3 for 3.19, postpaid.

SNOWBALL—the Giant Snowball Shrub

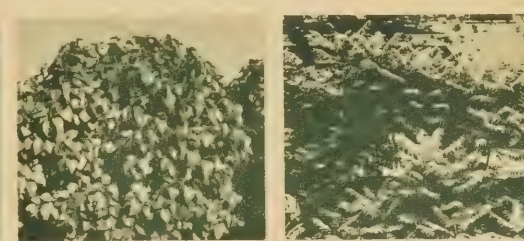

A3907—This is one of the most popular of all decorative shrubs, and it deserves to be. Grows six to ten feet tall, depending upon the soil, but can be kept down by pruning if you wish. It blooms late in the spring (about May) with clusters of white flowers that look like giant snowballs. The foliage is a deep, rich green in color, and the plant is hardy everywhere. Thrives in sun or shade. Postpaid prices:

Size	Each	Per 3	Per 5
12 to 18 in., 89c each;			
3 to 4 ft., 2.49; 5 for 3.98.			
18 to 24 in., 1.10 each;			
3 for 3.15; 5 for 4.98, ppd.			

WEIGELA-ROSEA

A3937—This round dense shrub with hundreds of pink blossoms in June grows 4 to 6 ft. tall. It is one of the most beautiful shrubs that grow. We do not recommend it north of the Minnesota-Iowa line. It is one of the shrubs that draws envious comments both when in bloom and all summer long as its foliage is dark green and heavy. 69c each; 3 for 1.89, ppd.

FERNLEAF SUMAC
An Unusual Shrub

A3917—A rapid, robust grower, produces cones of bright red fruit. Leaves beautifully formed rivaling the most delicate fern. Can be cut to the ground each season and a mass of beautiful foliage will result. Grows tall and very spreading. In the fall, the leaves turn to the most beautiful pinkish-red. 79c each; 3 for 2.19; 5 for 3.49, postpaid.

DOUBLE ALTHEA
Red, Pink, White

This is the lovely Rose of Sharon. Grows 6 to 8 ft. tall and is upright and neat growing—ideal for lawn plantings. Loaded with blossoms in August and September when flowers are needed. Flowers look like big roses when open. Not hardy north of Missouri. Red—A3802; Pink—A3801; White—A3803. Extra Select plants, 49c each; 3 for 1.29; 5 for 1.98, ppd.

A2652X—Althea Collection. 1 each red, white and pink, 1.19, postpaid.

The George W. Gurney Rose

A3530—Named in honor of our President. A strong growing, double, deep blood red rose. One of the finest. Blooms heavily the first year from June throughout summer and up until freezing. Flowers hold color and shape for days. Has deep rich fragrance. 1.25 each; 3 for 3.49, postpaid.

PINK GROOTENDORST

Favorite Shrub Rose Offer

A2640X—1 each of Pink Glory, Harrison's Yellow, Red Grootendorst, and Pink Grootendorst. 4 Bush Roses for only 4.29, ppd.

PINK GLORY

HARRISON'S YELLOW

BROWNELL'S "NEARLY WILD"

A3403—Country Doctor. Brand new Brownell. Largest blossoms of all on strong canes. Very resistant to black spot.

A3424—V for Victory. (Pat. No. 548). Very large, double, and yellow. Constantly in bloom.

A3400—Anne Vanderbilt. Semi-double. Fragrant. Blooms constantly.

A3402—Curly Pink. Fully double with curly petals. Often a bouquet on a single stem.

A3421—Tip Toss. Long pointed buds opening into gorgeous tea roses. Enjoyable spice-like fragrance.

A3401—Break O'Day. Large and very double. Blooms most of the time. Long, vigorous canes.

A3410—Shades of Autumn. Vigorous grower and resistant to black spot.

A3412—Lily Penn. Has an indescribably delicate beauty.

A3416—Queen of the Lakes. Beautifully long pointed bud. Large, well-shaped flower. Strong straight stems.

Gurney's HYBRID TEA ROSES

PRICES OF HYBRID TEA ROSES

(Except George W. Gurney, Patented, and Brownells)

	Each	Per 3	Per 6	Per 12
Select 2-year No. 1.....	1.19	3.45	6.48	11.98
Standard 2-yr. Medium.....	.98	2.85	5.55	10.59

Be sure to specify grade on your rose order.

A3530—George W. Gurney. Double, blood red. See description at left.

A3535—Golden Charm. A deep golden yellow on long stems. Fine for cutting and delightfully fragrant.

A3600—Tallman. No better known Tea Rose. Beautiful, long pointed buds on long erect stems. Fragrant, rich green foliage.

A3522—Etoile De Hollande. Wonderful red for cutting. Flery, crimson, long pointed buds which open to full-petaled, brilliant flowers. Delightfully fragrant and will add lots of color to your garden.

A3542—Hinrich Gaede. Very brilliant flowers and glossy bronze foliage. A real beauty you will want to try.

A3586—Red Radiance. The fool-proof red rose noted for hardiness and free blooming qualities. It will grow and produce hundreds of blooms in poor soil with little care. Never seems to rest.

A3587—White Radiance. The hardest white rose. Clearest pure white. Long pointed buds and big full flowers. Very free blooming.

A3585—Pink Radiance. The best to bloom, best to resist heat, drought and disease. Big, full, brilliant rose-pink; loaded down with blooms all summer.

A3514—Contrast. One of the most beautiful Tea Roses, really more beautiful than the illustration. It's gorgeous with its unusual color combination. Good grower, too.

A3579—Poinsettia. A glowing poinsettia red. The buds are beautifully shaped and it flowers on a strong growing plant.

A3560—McGregory's Yellow. Very large and has a beautiful tea rose shape. The heavy, dark green foliage makes it exceptional.

A3513—Countess Vandal. Long pointed buds on upright stems. Very attractive blend of pink, copper, gold and salmon.

A3550—K. A. Victoria. Probably the most popular of all white tea roses, and rightly so. Strong growing and beautiful.

A3521—Editor McFarland. A big, double, glowing pink. One of the finest of all pink roses. Always has the most bloom.

How We Grade Roses

When our Roses are dug and brought in from the fields, we separate them into 3 grades:

1. Select Two-year No. 1.
2. Standard Two-year Medium.
3. Light.

Most nurseries make a separate grade of the Jumbo ones, and charge a premium for them. We put these extra large ones right in with the Select Two-year No. 1, so you get the extra value.

We do not sell "Light" grade. You wouldn't want them. We put those back in the ground to grow some more.

Gurney's is a member of the American Association of Nurserymen, and our grading complies faithfully with their Horticultural Standards. You can't buy roses anywhere that are better, regardless of how much you pay.

IDEAL

Everblooming POLYANTHUS Roses

Prices: 1.15 each; 3 for 3.36; 6 for 6.48; 12 for 11.98, ppd.

These are the extremely hardy, bushy-type roses that are absolutely covered with blooms all summer. Compact growing and fine for using in rose beds, among shrubbery or for a cemetery planting. Will stand a great deal of neglect and still make a fine showing throughout the summer.

A3660—Golden Salmon. Bright orange-salmon flowers in huge clusters. Growth vigorous and bushy. First really orange Polyanthus.

A3663—Ideal. Dark velvety crimson blooms. Compact and bushy with beautiful, glossy, leather-like leaves. Blooms profusely and like its name, is an Ideal Rose.

A3653—Catherine Ziemet. Indispensable for the garden or perennial border. Always covered with its dainty little double white flowers in great clusters over clean fine cut foliage.

Polyanthus Special

A2622X—1 each of Golden Salmon, Ideal, Catherine Ziemet—all 3 for only 3.19, ppd.

Gurney's PATENTED Hybrid Tea Roses

A3628—Charlotte Armstrong. (Plant Pat. No. 453.) All America Award Winner. Its long, slender buds are popular the country over. 2.00 each; 3 for 5.25, ppd.

A3641—Peace. (Plant Pat. No. 591.) Considered by many as the perfect hybrid tea rose. 2.50 each; 3 for 6.50, postpaid.

A3626—Applause. (Plant Pat. No. 829.) Large fragrant buds opening to perfectly shaped flowers. Bagatelle Gold Medal Winner. 2.00 each; 3 for 5.25, ppd.

A3630—Eclipse. (Plant Pat. No. 172.) Beautiful long streamlined buds. Clear golden color. Good grower. 1.75 each; 3 for 4.65, ppd.

A3631—Eternal Youth. (Plant Pat. No. 332.) One of the finest of all pink tea roses. Fragrance delightful. 1.75 each; 3 for 4.65, ppd.

A3629—Crimson Glory. (Plant Pat. No. 105.) One of the glorious roses of all times; widely held to be the best red rose in the world. 1.75 each; 3 for 4.65, ppd.

A3640—New Yorker.

(Plant Pat. No. 823.) We have never seen a brighter scarlet rose. Tremendous blooms of ten 6 1/4" across, fairly glisten with brilliance. Heavy bloomer. 2.00 each; 3 for 5.25, ppd.

A3637—Lowell Thomas. (Plant Pat. No. 595.) An All-America Award Winner. Holds color well. 2.00 each; 3 for 5.00, ppd.

A3638—Mirandy. (Plant Pat. No. 632.) Deep red, extra large, velvety texture. Spicy fragrance and fine for cutting. 1.75 each; 3 for 4.65, ppd.

We are listing what we believe to be the finest assortment of Patented Hybrid Tea Roses available. Some are new and some old but you will like them all.

Patented Rose Collection A2619X

1 each of Lowell Thomas, New Yorker, Peace, Charlotte Armstrong and Mirandy. All 5 for 8.39, ppd.

Special Patented Offer A2618X

1 each of all 9 of the patented roses listed at left, 14.98, ppd.

Gurney's SHRUB ROSES

By popular demand we are again listing a few of the best Bush or June Roses. They are hardy, beautiful, and best of all, easy to raise. No winter protection necessary with these roses and they are hard to beat in the border, for a hedge or as a foundation planting. No hardier or better adapted roses for you northern planters. If you have had trouble raising roses in the past, by all means try these Bush Roses.

Postpaid Prices: 1.15 each; 3 for 3.36; 6 for 6.48; 12 for 11.98 (except "Nearly Wild").

A3676—Pink Glory. We believe this is the hardest and most free blooming of all June Roses. We introduced this rose for the first time several years ago and its popularity is gaining by leaps and bounds. Imagine hundreds of beautiful, pink, fully double blooms

on one bush. Big blossoms, too. If you can grow anything, you can grow Pink Glory. Truly a glorious June Rose.

A3685—Harrison's Yellow. One of the very best yellow shrub roses and one that has been a favorite for a great many years. Semi-double, fragrant, bright yellow flowers and grows about 6 feet tall.

A3690—Red Grootendorst. One of the best shrub roses. Bright red flowers, like carnations, that are very showy against the fine heavy foliage. Grows 3 to 5 feet high.

A3689—Pink Grootendorst. Very similar to the Red Grootendorst, but has clear pink flowers with a delightful spicy fragrance.

A3693—Brownell's "Nearly Wild." (Pat. Applied for.) A beautiful rounded shrub, loaded all summer with great clusters of apple-blossom-pink, single roses. Much larger than the wild roses, and very hardy. Grows 4 to 5 feet high. 1.75 each; 3 for 5.10; 12 for 19.80, ppd.

Two Beautiful Bush Roses from Canada

A3683—Gallica Grandiflora. Semi-double large flowers of a brilliant, poppy red-pink tone. Beautiful, finely cut foliage and a real sight to behold when in bloom.

A3698—Wasagaming. Hard to pronounce but not hard to grow this beauty from Canada. If you like loads of beautiful, soft pink, fully double blossoms, you'll like Wasagaming. We expect this rose to become very popular.

SUPER HARDY Brownell Tea Roses

The "Subzero" Roses

These are the famous Brownell Hybrid Tea Roses which are becoming more popular every year because they are able to stand temperature dips to 25 degrees below zero. Do not believe you have ever seen roses that are as free blooming as the Brownells. Long stemmed, with flowers that last far beyond expectation. If you want hybrid tea roses that will give far more blooms than the ordinary type of tea—try the Super Hardy Brownell Hybrid Teas. Don't

know of anything like them. We believe the Brownells are more vigorous, live longer, bloom more abundantly and are easier to grow, because they have been bred back to hardy species. Every Brownell Rose is a Patented Rose, yet you will find the prices are as low or lower than most of the other patented roses on the market.

Look at the beautiful Brownells pictured at the left and we believe you will agree, Brownell Roses are second to none.

A2506X—Special Brownell Collection of 2-year Jumbo Grade. 1 each of Curly Pink, Anne Vanderbilt, V for Victory, and Tibotos. All for 7.59, ppd.

A2503X—Special Collection of 2-yr. Commercial Grade Brownell Roses: 1 Curly Pink, 1 Shades of Autumn, 1 Anne Vanderbilt, 1 Break O'Day—all 4 for 5.69, postpaid.

Prices on Super Hardy Brownell Roses:

All prices are postpaid, all are 2-year field-grown plants:
2-year JUMBO Grade 2.00 each; 3 for 5.85; 12 for 22.79.

Large Select 2-yr. No. 1 1.75 each; 3 for 5.10; 12 for 19.80.

Mighty Good 2-yr. Commercial Grade 1.50 each; 3 for 4.35; 12 for 16.85.

Gurney's Hardy CLIMBING ROSES

Climbing Rose Bargain

A2510X—This has long been a favorite collection of beautiful climbers.

- 1—Paul's Scarlet
- 1—Climbing American Beauty
- 1—Crimson Rambler

All 3 for only **2.98** ppd.

Set 6 ft. apart. Bloom best in full sun. Keep them 3 feet away from walls and foundations.

PRICES: 1.15 each; 3 for 3.36; 6 for 6.48; 12 for 11.98, postpaid, excepting New Dawn and Blaze.

A3443—New Dawn. The original hardy Everblooming Climber. Blooms 4" across with pointed buds. Rapid growing; sturdy canes. Apple-blossom pink with old rose fragrance. Blooms all summer! 1.25 each; 3 for 3.49, ppd.

A3445—Paul's Scarlet. Most popular climber. Flower big, full tea rose type. Lots of blooms! Shiny, rich green foliage is free from mildew.

A3446—Primrose. The beautiful, hardy, yellow climber with shiny green leaves and very large flowers.

A3447—Climbing Prosperity. The best white climbing rose. Great clusters of flowers on strong, fast growing plant. Unlike most climbers, blooms year planted as flowers on new wood.

A3428—Crimson Rambler. Mildew-proof. Great clusters of double, bright red blossoms.

A3427—Climbing American Beauty. Blooms look exactly like the hot-house namesake. Big, rose-pink, fragrant flowers on long, wiry stems. Hardy.

A3426—Patented Climber Blaze. Same brilliant red as Paul's Scarlet but blooms both spring and fall. 1.25 each, postpaid.

FLORIBUNDA Roses

Bushy plants covered with clusters of large, double roses just like regular Tea Roses. Brilliantly colored blooms cover the bushes from spring until frost. Use in rose bed, for borders, among evergreens or shrubs, or in any place you want a splash of color all summer.

Patented Floribunda Roses

RED PINOCCHIO	LAVENDER PINOCCHIO	WORLD'S FAIR
A3669— (Pat. No. 812.) Double, cup-shaped blooms of velvety crimson 3 1/2 in. across. 1.50 each; 3 for 3.90, ppd.	A3674— (Pat. No. 832.) Double, lavender colored—no foliage! Opens up an entirely new series of color arrangements both in garden and home. 2.00 each; 3 for 5.25, ppd.	A3674— (Pat. No. 832.) Official rose of the great New York World's Fair. Velvety, rich, maroon with beautiful, double blossoms. 1.50 each; 3 for 3.90, postpaid.

Gurney's FLORIBUNDA ROSES

GOLDSLOCKS GERANIUM

A3665— (Pat. No. 672.) Buds in many-flowered clusters that resemble miniature tea roses. Gradually opens to full, large blooms. 1.50 each; 3 for 3.90, postpaid.

A3668— (Pat. No. 811.) Bright geranium red with spicy fragrance. Most brilliantly colored rose we have ever seen. 1.50 each; 3 for 3.90, postpaid.

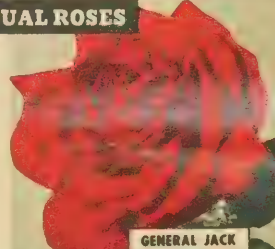

FASHION

A3666— (Pat. No. 789.) The only rose to win four International Awards. Gorgeous, double, coral-pink blossoms suffused with gold. 2.00 each; 3 for 5.25, ppd.

Prize Floribunda Roses

Prices: 1.15 each; 3 for 3.36; 6 for 6.48; 12 for 11.98, ppd.

A3657—Eutin. As many as 125 blossoms in one flowering cluster!
A3654—Red Runner. (Not illustrated.) The "Sweetheart Rose." Fine in garden, beautiful for corsages and boutonniere bouquet.
A3656—Dagmar Spath. Clusters of large, semi-double blossoms.
A3670—Red Lafayette. Stands dryness better than other roses. Fine cut flower.
A3659—Floradora. Perfect buds that are fully double, 2-inch flowers like camellias.

GENERAL JACK

Hybrid Perpetual Rose Collection

A2531X—1 each of all 4 of the above Hybrid Perpetual Roses for only 4.29, ppd.

BONNIE BLUE

These Are All LARGE-FLOWERED CANNAS

Here are the LARGE-FLOWERED Cannas—the newer and better ones—that will make your yard the envy of all your neighbors. If you are looking for brilliant colors and attractive foliage, these are the ones you should plant. You just can't beat them.

Cannas are very easy to grow. Set the roots four inches deep and one and one-half to two feet apart. Always locate your bed where there is plenty of sunshine and in rich, well-drained soil. Then give them plenty of moisture. Store the roots over the winter in your basement or cave.

YOUR CHOICE—Each Variety Labeled: 24c each; 3 for 65c; 6 for 98c; 9 for 1.19, postpaid.

BG26—RED KING HUMBERT. One of the grandest Cannas ever offered. Large heart-shaped leaves crowned with

immense heads of orchid-like, velvety orange-scarlet blossoms. Grows to 4 ft.

BG22—PRESIDENT. Beautiful, bright scarlet. Hard to beat for quality and quantity of bloom. Immense glowing scarlet flowers on strong, erect stalks. Rich green foliage. 4 ft. tall.

BG20—NEW PINK GIANT. A beauty with bright salmon rose flowers and gorgeous green foliage. You will want at least 6 of these beautiful new pink Cannas in your flower bed. Grows up to 4 ft.

BG30—GOLDEN GATE. Just imagine beautiful blossoms that are almost pure gold and then become richly rayed with orange-crimson with apricot centering to the throat. Fine green foliage. Height, 4 ft.

BG29—HUNGARIA. One of the best pinks. Lovely green foliage. A very vigorous grower and prolific bloomer. Tremendous flowers of eye-catching, rich, soft pink. 4 ft. tall.

Giant Canna Collection

BG500X

1 each of all 8 kinds named for 1.33, postpaid.

2 each of all 8 kinds named—16 for 1.93, postpaid.

For varieties separately labeled, add 10c for each collection.

BG18—DAZZLER. If you like beautiful dark red flowers you are bound to like Dazzler. Green foliage 4½ ft.

BG33—SHENANDOAH. Rich ruby-red foliage and wonderful salmon-pink flowers, borne in large clusters. This 4 ft. Canna is a "must" in every Canna bed.

BG16—KING MIDAS. Beautiful pure gold flowers with red dots. Fine green foliage. Not so tall as some of the others—about 3 ft.

Giant CANNAS

5-Foot Bed

BG505X—A five-foot Canna bed, including 3 tall ones for the center, 9 shorter ones for the outside. 12 Cannas for 1.59, ppd.

7-Foot Bed

BG507X—A seven-foot Canna bed including 6 tall ones for the middle, 10 shorter for the outside. 16 Cannas for 2.09, ppd.

GLADS

GLADIOLUS PRICES

5 for 60c; 10 for 1.00; 25 for 1.85; 50 for 3.59. All labeled and postpaid.

Listed below you will find an excellent selection of the newer and better Glads. We have grouped them together by colors to make it easier for you to order.

RED

BG221—STOPLIGHT. Large ruffled bright scarlet. Late.

BG202—BURMA. Deep rose red. Large blooms, heavily ruffled.

BG216—MANSOER. Velvety dark red on brown background.

BG222—HARRY HOPKINS. Large deep red with purplish shadings.

WHITE

BG243—BEAUTY'S BLUSH. Tall white with bluish pink shading.

BG231—MARGARET BEATON. Pure white background with orange blotch.

BG239—SNOW PRINCESS. Tall, pure white. A strong grower.

BG244—JUNE BELLS. Ruffled pure white. A midseason variety.

GRAB BAG OFFER

A fine assortment of big blooming kinds, blended to give you worlds of color throughout the season.

BG560X—25 bulbs for 98c, postpaid.

BG561X—50 bulbs for 1.75, postpaid.

YELLOW & ORANGE

BG268—YELLOW PERFECTION. Tall, deep yellow. Blooms late.

BG253—GOLD DUST. A beautiful clear, deep yellow. Extra early.

BG262—SPOTLIGHT. Pure yellow with scarlet throat.

BG256—GOLDEN DREAM. A rich clear yellow you will like.

SMOKY

BG272—BAGDAD. Smoky old rose, light throat.

BG270—VAGABOND PRINCE. Mahogany brown with flame blotch.

BG274—HIGH FINANCE. Smoky, light orange-grey with cream throat.

BG275—BUCKEY BRONZE. Large rosy bronze. Very popular.

PINK

BG303—CORONA. Creamy white with beautiful rose edge.

BG319—TIVOLI. Beautiful apple blossom pink. Tall.

The Queen of Flowers

Gladiolus are the most widely grown flower because they will grow anywhere for anybody and require practically no care. They have the largest color range of any flower—every color of the rainbow, blues and all. These are healthy, young, state inspected bulbs that should bloom the first year.

Easy to Grow

Plant Glads about 4 inches deep and 6 inches apart in good garden soil. Select a well-drained site with plenty of sunlight. Make several plantings a week apart to lengthen blooming season. Dig the bulbs after heavy frost has damaged leaves. Do not let bulbs freeze. Cut stems close to bulb then dry in cool airy place for 2 weeks. Store free from frost for winter.

BG305—ROSA VON LIMA. Light rosy pink with throat touched lavender.

BG306—ETHEL C. COLE. Very large light pink. Early.

BLUE

BG330—ARISTOS. Medium blue. This one is a vigorous grower.

BG339—PURPLE SUPREME. A clear, uniform, deep purple.

BG345—ELIZABETH THE QUEEN. Beautiful, ruffled, light lavender.

BG331—CARDINAL SPELLMAN. A new one you should try. Light violet.

JUNIOR SIZE GLAD OFFER

BG562X—Same fine varieties as Grab Bag Offer only smaller, younger bulbs. Flowers may be smaller first year, but all will bloom. 40 bulbs, 1.00, postpaid.

Autumn Gold GLAD OFFER

BG572X—A special assortment of our finest glads—for healthy bulbs.

6 Autumn Gold—Autumn shades of orange-gold.

6 Paul Rubens—Dark reddish violet.

6 Beauty's Blush—White with bluish pink tint.

All 18, Postpaid for ONLY 98c

DWARF IRIS

BABY IRIS OFFER

B3029X—1 ea. of all 5 Dwarf Iris listed below. Only...1.85, Ppd.

EARLY BLOOMING

The "Baby Doll" Iris are loved by all. Short grasslike foliage set with jewels of Iris blossoms. They bloom first in the spring. Fine for borders, beds, banks and the rock garden.

B1126—Negus. Beautiful, deep violet-blue. A "must" among Dwarf Iris lovers.

B1117—Keepsake. You'll treasure

this one as a real keepsake. Rich, brilliant yellow.

B1132—Rose Mist. Imagine a soft, misty, rose shade of delicate pink.

B1137—Spring Skies. Pretty as an April sky. Our best clear, sky blue.

B1136—Snow Maiden. This beautiful, pure white dwarf is white as snow. Almost as early, too.

Dwarf Iris: 45c ea.; 3 for 1.15, ppd.

Fall-Blooming IRIS

AUTUMN KING

AUTUMN QUEEN

B3035X—1 each of the 4 Fall Blooming Iris pictured above for only 1.19, postpaid.

Like the others but they bloom twice, first in the spring and then in the fall.

PRICES: 39c each; 3 for 98c, postpaid.

B1152—Autumn King. A beautiful bi-color with beautiful blooms of blue and purple.

SOUTHLAND

BLACK MAGIC

B1153—Autumn Queen. The snow white beauty that often blooms over six months of the year.

B1156—Black Magic. This is our finest rich, velvety, black-purple. Picture doesn't do it justice.

B1190—Southland. A deep golden yellow. Won American Iris Society's Award of Merit.

MT. BLANC

FELIX CROUSSE

Decoration Day Peonies

79c each; 3 for 2.19, postpaid.

B1517—Felix Crousse. Rose type. Late midseason. Flowers a beautiful, ruby red with silky

lustrous.

B1535—Mont Blanc. A double white with big blossoms. Early bloomer.

B1539—Modele De Perfection. A late one with light, old-rose blossoms tipped silver.

B3171X—Decoration Day Collection. 1 each of the above 3 for only 1.98, postpaid.

BRAND'S MAGNIFICENT

M. DUPONT

4 Beautiful Peonies Coll.

B3172X—1 each of Brand's

Magnificent, Mons. Du Pont,

Mme. Forel, Nigricans.

All 4 for only 2.79, ppd.

MME. FOREL

NIGRICANS

MARTHA BULLOCK. B1550—Rated as one of the top three. You have to see it to appreciate its tremendous size and splendor. Outer petals are rose pink and the centers a pale shell pink and very fluffy. You will marvel at its size and beauty. 1.25 each; 3 for 3.49, postpaid.

Gurney's Hardy PEONIES

Bargain Peony Mix

B3150X—Didn't have enough of these varieties to list in the catalog but they are some fine ones. Priced to save you money, too. Collection of 3 Peonies for 1.00, postpaid.

PEONY PRICES: 79c each; 3 for 2.19, postpaid, except where noted otherwise.

B1545—NIGRICANS. Beautiful dark crimson. Double and late.

B1543—MONS. DU PONT. Extra fine. Large ivory white with carmine markings.

B1544—MME. FOREL. Gorgeous deep pink with a silvery reflex. Free blooming, early and tall.

B1534—LORA DEXHEIMER. Very bright double red. Large. Mid-season.

B1592—BRAND'S MAGNIFICENT. Large double crimson with purple cast. Noted for its beautiful form, prolific bloom, and symmetrical rose-like petals. Excellent color. Late mid-season.

B1531—LA ROSIERE. Clusters of huge, lovely, white flowers with yellow centers. Loose petals but very showy with yellow stamens—almost like a star. This is a mid-season type.

B1514—EDWARD ANDRE. Deep crimson red. Metallic reflects and yellow stamens.

B1540—MONS. JULES ELIE. Lovely pale lilac rose. Early, fragrant, free-blooming peony.

B1509—COURONNE D'OR. Crimson splashes on a beautiful clear white. Late-flowering type. This has a distinct water lily fragrance.

B1522—FRANCES WILLARD. Pale pink color that changes to white with yellow glow and slight crimson markings.

B1563—SOLANGE. Still considered one of the finest of all peonies. Creamy white with buff and salmon tint. 1.25 ea.; 3 for 3.49, ppd.

B1529—KELWAY'S GLORIOUS. Our most popular white. Creamy white with faint crimson edges on center petals. 1.25 each; 3 for 3.49, postpaid.

B1500—ASA GRAY. Outer petals a beautiful salmon-pink with centers of delicate lilac, dotted a deeper shade.

B1541—MONS. MARTIN CAHUZAC. Mid-season. Deep, purplish maroon with golden anthers. Nearest to purple of all. 89c ea.; 3 for 2.49, ppd.

SAVE! Buy Peonies by Color

All good varieties, labeled as to color only.

B1574—Double Red. 49c each; 3 for 1.39, ppd.

FERN-LEAF BLEEDING HEART

OLD-FASHIONED BLEEDING HEART

Bleeding Hearts have long been the favorites of gardeners all over America. And rightly so, because they are hardy, do well in sun or shade and bloom and live for years and years. The Old-Fashioned has long stems with drooping clusters of bright pink, heart-shaped flowers in June. The Fern-Leaf Bleeding Heart has about the same blossom, but the foliage is very much finer, and fern-like.

Asparagus-Rhubarb
BARGAIN

A 2385X—25 three-year-old, super jumbo Mary Washington Asparagus plants and 2 Chipman's Canada Red Rhubarb. Entire collection only 3.49, postpaid.

Mary Washington ASPARAGUS

A3005—This is the asparagus that practically melts in your mouth. And you never have to worry about rust which often kills other varieties because this one is practically immune from rust. Keeps on sending up crisp, tender stalks for an unbelievably long time. Plant a bed of Mary Washington asparagus once and you will have it for years. Plant 18 in. apart and about 5 in. deep in rows 3 ft. apart. These are 3-yr. super jumbo plants that will give you results in a hurry. One of the best for freezing. 10 for 98c; 25 for 1.89; 50 for 3.45 and 100 for 6.79, postpaid.

Famous Chipman's RED RHUBARB

A3063—It's sweet and red clear through to the center. The stalks are large and red from top to bottom—inside and out. Cooking does not take its rich color, but makes it more appetizing for pies and sauces. So sweet you'll use less sugar. One of the most productive of all—you will harvest lots of big stalks from spring until fall. You can grow this variety almost anywhere and the big, luscious, almost seedless stalks are of the finest quality. Plant crowns 4 in. deep. 98c each; 3 for 2.69, ppd.

New "FAR NORTH" MUSKMELON

340—(72 days.) No matter where you live, whether it be in the northern Dakotas or clear up in Minnesota, here is a muskmelon you can grow. Developed by the Dominion Experiment Station at Morden, Manitoba. It can take adverse weather conditions and will still come through and produce a fine crop of melons that are thick-fleshed, crisp, sweet and juicy. Fruit is just the right size (4 to 5 in. in diameter) for the refrigerator. Fine for all of you backyard gardeners, and especially you northern planters. Pkt. 20c; 3 for 50c, postpaid.

4 Dahlia-Flowered ZINNIAS

for only
33c

POSTPAID
No. 2850X

These are the new, improved, bigger and better Zinnias. More brilliant colors, bigger plants. Their big, long stems, tremendous blossoms and bright colors make it almost impossible to find their equal as a cut flower. Try them in a border for bright colors or plant them all by themselves if you want to make an unusual display. One packet each: Crimson Monarch, Royal Purple, Golden Yellow and Old Rose in this fine collection. Order today.

Genuine Hardy
Siberian Strain

For WINDBREAK, HEDGE,
SHADE or EROSION CONTROL

These are the genuine, hardy, Siberian strain grown right here at Yankton. This is the only type you should use for best results. They are hardier, more plant for best results. They are hardier, more plant for best results. They are hardier, more plant for best results.

Each year, more and more of them are being used in the hedge, because they stand shear-ing, make a quick showing and give you a fine, compact, beautiful hedge you will be proud of. Also fine as a fast growing shade tree for the wind-lawn. Millions have been used in the wind-break and for erosion control. 12 to 18 in. seedlings, all well-rooted.

only

No. A2700X

Blossoms up to 4" Across

The flowers are so large you will say it is unbelievable—and they are perfectly double with quilled petals. In every way as beautiful as the large Chrysanthemum blossoms the florists sell for football games—but these are hardy.

B1431—GOLDEN SCEPTRE. Has huge, brilliant gold, fully double flowers often 4 or 5 inches across.

B1452—RED FLARE. A bright orange-red with yellow reverse on the petals. Average 5 inches across.

B1459—SUPERLATIVE. The largest, most perfect double white we have ever seen. Petals quilled and superb in every respect.

B1443—PEACH BLOSSOM. Colorful, clear peach flowers and loads of them. Many 4 to 5 inches across.

B1433—GLOAMING. Its soft purple shadings well name it. Plenty of huge, 5 in. blossoms.

ANY OF THE ABOVE: 79c each; 3 for 2.10, postpaid.
